### WAS A GREAT SUCCESS.

#### LAWN PARTY AT PORTS-MOUTH.

There Were Quite a Number of Novelties—The Grounds Were Tastily Arranged—Throng of People.

One of the most successful lawn socials of the season was held in Portmouth, Wednesday afternoon and evening, in aid of the Church of the Good Thief. The spacious grounds surrounding the church were beautifully decorated with flags, bunting, Chinese lanterns, etc., woven into pretty and original designs. The ground was dotted with tastefully decorated booths where many home-made articles were offered for sale. From five till eight supper was served to the guests at a long table, set at the side of the church, and the dainty, white-gowned maids were kept busy all the time, so many people were there to wait on.

During the afternoon programme of music was given by Arbuclle's orchestra. In the evening dancing was the main attraction among the younger folk. A fine new dancing floor was laid in the centre of the green for the occasion, and it was in use most of the time. The music in the evening was supplied by the 14th orchestra, in their usual capable manner.

Many new booths were introduced, by the energetic committee of ladies, among them being the Cobalt nuggets, Aunt Sally and others. The Cobalt nuggets were quite popular. Up on a young man securing one and opening it, he found a girl's name; this young lady he had to search out, and she was the partner for the evening.

The different booths and tables were in charge of the following ladies: Supper table—Mrs. Mathewson, assisted by Mrs. O'Neil, Mrs. Tobin, Mrs. Sullivan, Mrs. Fowler, Misses Beaufre and others.

Ice cream table—Mrs. O'Leary, assisted by Mrs. Corby, Misses Burke, Leeper and Ryan.

Candy table—Mrs. Kennedy, assisted by Mrs. N. Burke, Miss Tobin, William O'Neil and James Burke.

Soft drinks—Mrs. Frank Burke, Frederick O'Neil and "Jack" Kennedy. The fish pond and fortune teller were looked after by Miss Kennedy and Miss McGee.

Aunt Sally was in charge of Misses Mainis, Florence Moran, Zita Dickinson, Edith Beaufre and N. Kennedy.

Cobalt nuggets—Mrs. McDonald, Mrs. Burke, Miss Ethel Beaufre, Jennie Kennedy and Edith McGee.

The venture was a perfect success, and a large sum was realized for the church funds. The committee in charge of the entertainment deserves great credit for the way everything was handled throughout the day.

#### A WORD WILL DO IT

If the Merchants Will Agree Together.

Time after time there have been unsmiling attempts made to have the shops close earlier on Saturday night. Merchants talk, but seldom act; in some cases they do to the benefit of the clerks and no disadvantage to the public. If the merchants were to combine and say that their stores will close at 9 p.m. on Saturday nights, the customers would rapidly fall into line. Saturday night is generally used for visiting night, and not a few merchants spend prolonged hours in their business places talking with their dealers and with friends who drop in. It is a night for relaxation and possibly the exchange of views is helpful and stimulating. But the merchants, to be fair to their brethren, should close early and adjourn, say, to the board of trade rooms, and there review the events of the week. Columns of advice in the newspapers avail little, the merchants by a united word, and staying by the contracts made, can close their houses and release their clerks a large hour on Saturday night if they agree upon. Will they do it?

#### NEW G.T.R. LINE.

Between Kingston and Ottawa Will Be Begun.

It is stated that the Grand Trunk railway will proceed without delay to the construction of the line of railway between Kingston and Ottawa as soon as its route map, now before the department is approved. In certain places the line projected, which is known as the Kingston, Smith's Falls and Ottawa railway, is almost identical with the proposed Canadian Northern line, and there has been more or less talk about it. That is not yet straightened out. The assurance has been given that as soon as approval of routes is secured the work will be gone on with, the Grand Trunk being the real backer of the scheme. It will substantially shorten the line between Toronto and Ottawa.

To Heal A Cut.  
 First, wash out the dirt, then apply Dr. Hamilton's Ointment, and bind on a clean, linen bandage. Pain is taken out, new skin is formed, cut is healed in quick order. Nothing so soothing, so healing, as Dr. Hamilton's Ointment. Useful in every home. Try a 50c. box.

The Kingston and Pembroke railway project one hundred and fifty passengers to the city, this morning, from Sharbot Lake and intermediate points.

Deafness Cannot Be Cured.  
 By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedial measures, which are caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a rumbling sound and imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be lost forever; nine cases out of ten are cured by Dr. Williams' Pink Pills for Pale People, which is nothing but an inflamed condition of the mucous lining of the Eustachian tube. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Dr. Williams' Pink Pills for Pale People. Send for circulars free.

### AT THE GRAND.

#### "A Message From Mars" Was Well Received.

Wallace Wildcombe as Horace Parker in "A Message From Mars," acted his part true to life last night in the Grand. The leading characters were all good. Wildcombe's work was equal to Hartley's, who first produced the play in this city. The audience was fair for the season, but the faces of many constant theatre-goers were not seen; they are not back from their holidays.

It was a meritorious production without any weak parts. The story is clear cut and simple, the lesson is taught in a simple way, its humor is pleasantly dignified, yet irresistibly funny, the dialogue bright and sparkling, and the various situations while not the least over-done are worked out in a clever manner. The scenic embellishments were thoroughly realistic.

Alfred Beaumont in the role of the tramp, was really clever. His part called for an exacting interpretation and was well sustained. Miss Eileen Errol, in the leading feminine role, showed artistic work. But to pick out the meritorious ones would be to enumerate all. The audience was thoroughly delighted.

#### A Big Show Coming.

Porter J. White's representative's instructions to the opera house manager is to clear his stage of everything, including all scenery, mechanical effects and furniture, as they carry everything from a thunder sheet to a \$10,000 grand set, in which there are over 7,000 square feet of scenery used and eight caissons, with a carload of effects. Will appear here next Wednesday, August 28th.

### THE SCHOONER HERE

#### WILL TAKE ON A CARGO FOR SOUTH BAY.

Tin Cans Will Be Carried West—Still Able to Go the Rounds—The News About the Harbor.

The schooner Fleetwing, which was reported to have been lost, but which turned up safe at South Bay, arrived in the harbor here, to-day, and will take on a cargo of cans for a canning factory at South Bay, Point Milford. The cans will be shipped here to-day, and it is expected that the schooner will be able to clear to-morrow night. Three cars of cans will arrive.

Although the Fleetwing is quite an old boat, one of the crew stated that when she got into the big sea she did not spring one leak, and that the pumps were not used.

"She might look a little rough," said one of the crew, "but she is still able to go the rounds."

Capt. Taylor, of Belleville, is in charge of the schooner.

#### SNODDEN IN THE CAPITAL.

He Thinks He Can Take Care of Himself.

Ottawa Journal.

Amongst those here attending the thirtieth annual convention of the high court of Eastern Ontario, Independent Order of Foresters, is Sergt. Alexander Snodden, the "big policeman" of Kingston, Ont. He has been on the force of the Limestone City for some twenty years. As he stands six feet three inches high and weighs over 270 pounds he does not anticipate having any trouble taking care of himself, while in the capital.

"I said 'my first visit to Ottawa,'" said Mr. Snodden, "and I think it a most beautiful city. I was much struck with the appearance of the Dominion police. They are certainly a fine body of men and a decided credit to Lieut.-Col. Sherwood. Neither in this country nor in England have I seen any finer."

Kingston is well represented at the convention, there being delegates from both courts of Ontario, and Ontario. Among the delegates are Messrs. J. S. R. McCann, W. Pickering, W. H. Godwin, W. Campbell, R. W. Allen, T. Smeaton, Watts and George Wilkinson. Some of them have relatives here and are taking advantage of the occasion to visit them. All are having a good time and combining business with pleasure.

#### ANIMALS STRAY AWAY.

Horses and Cows Make Trouble on Alice Street.

Horses and cows are all right in their place, but their place is in the pasture field, so say the residents of Alice street. For some time past, residents on this street have had reason to complain about the animals roaming around, and one of the residents on that street, to-day, made a complaint to the Whig about the matter. There is good pasture for the troublesome ones, but they appear to like wandering around the streets and on front lawns far better than to remain on their corner lot.

#### Goes To Ottawa.

Miss Helen Aselstine, of this city, has been appointed, to a position in the Civil Service of Ottawa, under Hon. A. B. Aylesworth. Miss Aselstine is a graduate of the Kingston Business College. She is the third graduate of this college to secure a good position within a very short time.

#### Presented With A rin.

On Tuesday evening in Toronto the insurance men had a banquet and a feature of the evening was the presentation of an address and handsome scarf pin to G. H. Allen, the retiring president. The address was read by J. Herbert Simpson, Montreal. Mr. Allen was accorded a magnificent demonstration, all the more grateful as Tuesday was his fortieth birthday.

#### Hurt By A Jump.

Motorman Purdy, of the street railway, suffered a severe accident, Wednesday afternoon. The motorman had just been released and was on his way home to supper, when he tried to jump off the car coming down Alfred street. He missed his footing and was thrown to the ground. The injured man was not able to leave his bed to-day, his back being severely strained.

#### Normal Class.

What should be one of the most helpful organizations in Kingston in connection with Sabbath school work is being organized by Mr. Nelms, the general secretary of the Y.M.C.A. It is the choir of St. George's cathedral, on Sunday school methods combined with a conference as the current international lesson. One hour each week, probably Thursday, will be given to this course. The course will be entirely free and every teacher open to himself, his class and the cause to be as well informed along these lines as opportunity permits. Every superintendent, teacher and officer is asked to send in their names to R. B. Nelms, Y.M.C.A., giving name, address, church and department. A prompt response will greatly help those who have the matter in hand. The class will organize about the middle of September and meet weekly for six months.

#### An Enjoyable Picnic.

A most enjoyable picnic was afforded the choir of St. George's cathedral, on Wednesday. The boys, in charge of Canon Starr, left St. George's Hall at 10 a.m., and drove to Kingston Mills, followed at three o'clock by the senior chorists, accompanied by R. F. Harvey, Col. McGill and E. B. Pense. Swimming and various other games were indulged in, not the least interesting being a game of baseball with the canon as umpire. After refreshments by the lake, a good tug-a-war delighted all the boys. Col. McGill being judge. Sides were chosen by Mr. Scott and Major Lavigne, who incidentally arrived and added greatly to the sports. At eight o'clock after the singing of the national anthem, and three cheers for the management all left for home. Thanks are due Canon Starr for all-round efficiency and resourcefulness in catering for and amusing the boys, who did their part valiantly, especially in the demolition of the bountiful lunch baskets.

### REMEMBERS THE MILL.

#### HE WAS AROUND WHEN IT WAS BUILT.

John Stuart though aged Eighty-Five Years is Still Busy at His Watchman Duties—A Saw Mill Once on the Site.

There is one man living in Kingston who has a distinct recollection of the building of the old grist mill at Kingston Mills, that has recently collapsed. This is John Stuart, a watchman, who resides at 221 Division street. He is over eighty-five years old, but still hale and hearty, and working at his occupation every night. He was born in Pittsburg township, and is thoroughly versed in the early history of the district. He states that the report in the Whig, crediting Mr. Clark with the building of the mill is incorrect. He remembers the time when some Yankees owned a sawmill on the site. At that time a man by the name of Jones conducted a forwarding business at Point Sidney on the Front Road, and had in his employ a shrewd, sharp Englishman by the name of Smith, who acted as foreman. Smith obtained permission from the government to build a grist mill on this site. He tore down the old saw mill and on almost the same foundation erected the grist mill whose walls have just recently collapsed.

Mr. Stuart further states that Mr. Smith conducted this mill for years, and that he did not build any other mills, those in the nearby districts being probably built by Mr. Clark. Mr. Smith came of a good old English family and resided in the possession of an aunt who forwarded him annually £100 as a Christmas present.

#### WATERMELONS DEAR FRUIT.

Prices Likely to Remain Firm in All Lines of Fruit.

From all reports, it would appear as if no line of fruit was going to be as cheap as in the past few years. Therefore, there is not much hope for housewives who have been postponing "putting up" of their fruit, having the idea that the prices would take a drop. Even watermelons which are usually very cheap, are high in price this season, now selling at from 30c. to 50c., and it is quite evident, that this form of fruit will only be found on the table on special occasions.

A local retail dealer was asked why the price was so high.

"We are not importing watermelons at present," he said. "The first lot that we got came direct from Georgia, but now we are getting them direct from Toronto and the cost is much higher."

There is quite a demand for all kinds of fruit at the present time. To-day all the fruit stores were rushed with customers, and it would appear as if the people of Kingston must have the fruit, whether the prices be high or low.

It is reported that the peach orchards are good, but that many of them have been bought up by the canning factories, and if such is the case, peaches, too, will command high prices.

#### LOSES LIMB TO SAVE GIRL.

A Brakeman's Heroic Work Costs a Foot.

The timely and courageous rescue of a little girl at a R. W. & O. D. crossing in Ogdensburg resulted in George W. Rowell, a fireman losing one of his feet and suffering other injuries.

When an outgoing freight train came along towards the crossing Rowell noticed a little girl named Auguste, aged six years, standing on the step and clinging to the grabiron. She was badly frightened, having boarded the car when it was about to pull out from the shipyard, where it was made up, and as the train gained momentum in going through the yard she was naturally afraid to jump. Rowell took the situation at a glance and ran towards the girl, catching her in his arms. The impact, however, threw rescuer and rescued down and in some way Rowell's foot got under the wheels and was so badly mangled that at the city hospital, where it was removed, amputation of nearly the entire foot was found necessary. Rowell also suffered some cuts on the head. The little girl escaped unhurt.

#### BLAZE ON A YACHT.

A Cigarette Likely Fell Among the Canvas.

At five o'clock, this morning, the firemen received a call to the Yacht Club, where the Pennarive was on fire. The yacht arrived from Toronto, last night, and was moored off Booth's dock. In some manner, likely from a cigarette, the fire caught on the canvas, and the boat was quickly on the scene, but could do nothing as the boat was outside the dock.

Andrew McCorkell rowed out to the blaze and woke up the crew of the yacht, asleep below, quite ignorant of any trouble overhead. The damage will not be very serious and will not in any way hurt the boat's speed.

At eight o'clock, this morning, the firemen from the lower station responded to a call from the House of Providence, where a waste paper basket, in one of the rooms, had caught fire. The blaze was extinguished before any damage was done.

Fifteen days
