SPIRIT OF THE PRESS

Labor Is Scarce. Ottawa Journal. Labor objection to Chinese and Japs in San Francisco is partially illustrated by the news that white employers there require eight dollars a day.

Both Will Be Busy. Hamilton Herald. Mr. Foster's accompanying Borden in his tour their incidences will have at least variety in discourse. Borden will defend his policy and Foster will defend himself.

Only That? Toronto News. Reporters in Prince Edward county are forbidden to attend summer dances without coats. That is cruelty to animals. The rational costume for a summer dance is a bathing suit.

Weakens Whitney. Toronto Telegram. The Whitney government is weakened, the Graham opposition is strengthened, every time there is a surrender to the hunger and thirst of the spoilsman who demand that their party should just offer holders on the street just because they are liberals.

How Hughes Acted. Montreal Herald. A young doctor having been born to Governor Hughes, of New York, that gentleman promptly cut a new stick and went hunting for Mr. Kelsey, who up to then had escaped punishment.

The Tips Count. The Argonaut. Who would have supposed that Americans pay the annual sum of \$28,000,000 to the autocratic and absent-minded waiter? But they do. The waiters not only confess it themselves but they defend it and applaud it.

It Cures Eczema Quickly. Nothing can be more tantalizing than to treat Eczema with a poor remedy. Only an Ointment that's powerful and penetrating can restore the skin and integrity of the skin—can subdue the fiery itching and pain.

New Life Belt. Portmouth, Aug. 24.—The utility of a new life-saving apparatus has just been demonstrated before the board of admiralty at Portmouth. It consists of two inflatable cushions attached to each other by side straps.

Immaculate Soda Glasses. At many fountains glasses are merely rinsed in cold water. At Wade's each glass is set aside after use and is then thoroughly washed in hot soap suds, rinsed, dried and polished with a clean towel—just as you would do it in your own home.

Flague Of Frogs. London, Aug. 24.—The Rye and an adjoining spur of the Chiltern Hills, near High Wycombe, are nightly overrun with a countless host of frogs.

1,000 Islands—Rochester. Steamers North King and Caspian leave at 10 a.m. for 1,000 Islands points daily except Monday. Returning leave at 5 p.m. for Bay of Quinte ports and Rochester, N.Y. J. P. Haney, agent.

Women In Politics. Bloemfontein, Aug. 24.—Two rival organizations, consisting solely of women, have been established here for the purpose of giving support to the candidates of the constitutional party, and the Orange Union in the elections to the new parliament.

Bottle's Long Voyage. Portsmouth, Aug. 24.—A bottle was thrown overboard from a mail boat between Dover and Calais, on May 20th, containing an addressed postcard, with a request that it might be posted by the finder with a statement where it was found.

Transvaal's Drink Bill. Pretoria, Aug. 24.—According to Dr. William Hoesen, of the Transvaal legislative assembly, \$13,750,000, or \$45 per head of the population, was spent in that colony on drink during the last administrative year.

Consumptives Cured. London, Aug. 24.—Two or three women paupers who were treated by the Chalmers Guardians for consumption, have recovered, and the patients were placed in tents in the open air on very light soil two feet deep.

Bishop Among Paupers. London, Aug. 24.—The Bishop of St. Albans, who recently announced his intention of preaching in workhouses, began his crusade, yesterday, at the Bishop's Stortford Union workhouse. He preached from the text, "Honor all men."

FEARFUL ITCHING BURNING SORES

Boy in Misery 12 Years—Eczema Spread Over Body in Rough Scales, Cracked, Inflamed, and Swollen—Case Pronounced Incurable, but Completely Cured by Two Sets of Cuticura Remedies.

HIS SKIN NOW FINE AND SMOOTH—AS SILK. "I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with my infant. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed, and badly swollen, with terrible itching and burning. When I think of his suffering, it nearly breaks my heart. His screams could be heard a mile away. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep. I bought the world-famous Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent, and my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. Michael Steinmann, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

FOR WOMAN'S EYE. Too much stress cannot be placed on the great value of Cuticura Soap, Ointment, and Pills in antiseptic cleansing, thus affording pure, sweet, and economical local and constitutional treatment for inflammations, itching, irritations, redness, discharges, and pains, as well as such sympathetic affections as anemia, chlorosis, hysteria, nervousness, and debility.

BURGLARY ON MONT BLANC. Break Into Observatory and Steal Valuable Articles. Geneva, Aug. 24.—Four Alpinists, who were unaccompanied by guides or porters, ascended Mont Blanc from Chamionix, the other day, broke into the Vallot Observatory, 15,780 feet high, and "extracted" some articles of value. The Alpinists, on the theft being discovered, were traced to an hotel, and were forced to give up the pilfered articles, which they stated they had taken as souvenirs.

CHINAMEN FOR DENMARK. To Be Imported By Way of Experiment. Copenhagen, Aug. 24.—A meeting of Danish landowners at Roskilde, near Copenhagen, decided, yesterday, to import a few hundred Chinamen by way of experiment as substitutes for Polish laborers.

Given A Denial. Mrs. Thomas Reid, Bath Road, denies that her husband, who unfortunately has been found to be insane, did any violence, as alleged in a recent issue. He had been in poor health for several months when, finally, the pain grew so intense as to invade his mind, but he never manifested any ferocity and only had hallucinations. He did not clear to the woods, but came to the city, where he was quietly taken in charge and transferred to the hospital, where, it is hoped, he will have a speedy recovery. Mrs. Reid says he was always a quiet, industrious man and a good husband.

The Garden Of The Transvaal. Pretoria, Aug. 24.—The new railroad between the Rand and Zwaart, which was recently opened by Lord Selbome will open up the Marico valley, the richest and most fertile part in the Transvaal, to the markets of South Africa and eventually of Europe. During this season 5,000,000 oranges have been sent by the Marico farmers to Johannesburg and other centres.

Bottle's Long Voyage. Portsmouth, Aug. 24.—A bottle was thrown overboard from a mail boat between Dover and Calais, on May 20th, containing an addressed postcard, with a request that it might be posted by the finder with a statement where it was found. The postcard has just been received from Schleswig-Holstein, having been discovered by a fisherman off that coast.
