**Had An Experience.**

Toronto News.  
Prof. Lovell declares that the world is near-sharp, but we know of no other politicians who can prove that it resembles a fenton.

Catch the nibbler, gut fish hooks, at J. Routley's, 173, 175 Prince street, branch, 334 King street.  
In case of sickness on Sunday Gibson's Red Cross drug store is open all day.  
See Bibby's great \$12 suits.

**Forgetfulness**

Every day holds its quota of interest for the public and the things of yesterday are like unto the waters that have passed the mill-gone and forgotten. To grind out business in this day-calls for every day effort. What have you to offer to-day, is what the public wants to know. To-morrow near, but never with us. Get out after business-to-day. The Whig wouldn't be long in favor if it served you yesterday's issue for that of to-day. It goes out fresh every day with the store news and your daily reminder of what you are doing should be there "lest the public forget."

**GERMANY IS FRIENDLY**

**The Press Speaks In Eulogy of King Edward's Speech**

**At The Kaiser's Banquet--It Has Led To a More Cordial Feeling Towards Britain Than Has Existed For a Long Time.**

Berlin, Aug. 31.—The recent meeting of King Edward and the Kaiser has led to a more cordial feeling toward Britain than has existed for a long time.

German press comment on the meeting at Wilhelmshohe seems to be as cordial in character as the meeting itself.

The Vossische Zeitung says: "The events of the meeting show beyond question that the period of tension between England and Germany is past." It points out the conspicuous heartiness of the King's assurances that the Kaiser will receive a warm welcome in England in November.

The journals call attention to the significance of the fact that while at Cronberg last year the king appeared in civil dress; at Wilhelmshohe both monarchs wore the respective uniforms of each other's armies. At Cronberg article visited nephew; at Wilhelmshohe the king of England visited the German emperor.

The Deutsche Tageszeitung says that Germany unquestionably confirms the Kaiser's experience of the nation's deference to and respect for the king. We believe the king when he says that he cherishes a wish that the most pleasant relations should exist between the two nations. It is his wish, in reference to the fact that the king's toast was delivered in German. "We understand, of course, that this is natural, but it is a pleasant token of courtesy, all the same."

The Lokal Anzeiger remarks upon the king's ever-winning manner, which on this occasion shows that deeper charm resulting from sincerity which even the king of England cannot assume except when it is dictated by his actual feelings. The Kaiser's never-failing courtesy was also marked on this occasion by a certain absence of reserve never apparent except when feelings are really sincere.

The Cologne Gazette "Opinion, not only in Germany, has become accustomed to regard the king as the real director of the foreign policy of Great Britain. It will with all the greater pleasure receive his message of peace. Prince Bulow and Sir Charles Hardinge had a long conversation, we may assume that a fresh step has been taken in the path of the common work of the two great nations for the purpose of peace. The meetings at Wilhelmshohe, Swinemunde and Lechl will if our expectations are fulfilled, be regarded as milestones in history."

The National Zeitung says: "So far as Germany and England are concerned, there is no need of any special treaty. No one in Germany doubts that the British nation will receive their imperial guests in November, with the greatest joy. The result of the meeting is very gratifying, that a detente had set in in Anglo-German relations, to the disgust of all disturbers of the peace, might have been observed before. It is now, however, confirmed. An "entente cordiale" exists between the two sovereigns."

The Post says: "The meetings strengthen the prospects of peace."

**EXCEEDINGLY SNOBBISH**

**Is The Conduct of Britain's Lowest Titled Ranks.**

London, Aug. 31.—Baronets, although the lowest rank of the British nobility, are notoriously the proudest and most snobbish. A delightful instance of this pride of title has been given by Sir Spencer Pocklington Marjon-Wilson, Bart., who strongly objects to being addressed in correspondence as "Dear Sir," and insists that he should be addressed as "Sir Baronet."

He has carried his protest so far as to have printed a notice which he sends with their letters returned to all who write to him as "Dear Sir." This previous document reads as follows: "There is a strong feeling among baronets that the expression 'Dear Sir,' which is constantly used in commencing a letter nowadays by and to upper servants, clerks in small offices and many other persons who are below the social status of a baronet, is not only incorrect and incongruous, but is also very discourteous when used to members of this ancient and hereditary order. I will therefore request you in future to kindly commence your letters to me 'Sir Baronet,' instead of 'Dear Sir.'"

Beyond being the eleventh holder of the baronetcy, which was created in 1690, Sir Spencer Marjon-Wilson is quite undistinguished. But he has just sprung into fame through the publication of his squib, which has provoked a snobbish protest against "Dear Sir."

States and other points. Mr. Noss states that his figures are obtained from official sources in British Columbia.

According to this statement the Japanese passengers from Japan departed from British Columbia ports in January, 1907, amount to 3,334. This number, however, included merchants, students, women, children, those en route to eastern Canada, those in transit to United States ports, and those who had come on short visits to the province of British Columbia. According to Mr. Noss's figures there have been in all 2,633 of the latter, leaving a net immigration of 641.

The statement in detail is as follows: Number of arrivals at British Columbia ports, 1907-January, 224; February, 274; March, 276; April, 409; May, 597; June, 782; July, 772; total, 3,234.

En route to the east, 58; to the United States (this number according to the United States immigration agency; additional to United States, about 500); returning from Japan, 1,276; total, 2,633; net, 641. This number is in addition to the 565, which is estimated as many go to United States points other than those by rail, who cannot be checked by the United States immigration officers, many go by boat, small boats or enter the United States in devious ways. Of the 641 Mr. Noss states there were merchants, students, women, children, etc., and that there cannot be more than one-half of the number, or 320, who were actual laborers.

Mr. Noss's statement further mentions that according to the Canadian government census of 1901 there were in British Columbia 4,515 Japanese, and alleges that there must now be about 6,000, an increase of 1,500 within the last six years, or 250 a year. The natural increase of the population, as there are at present about 600 women and 200 children.

Mr. Noss states that trouble has been engendered in British Columbia by reason of the fact that every arrival is counted as a new arrival, without considering those in transit to the United States, and those on a visit to the United States, and those who are at present 3,000 naturalized Japanese in British Columbia.

**Hats For The Holiday.**

As usual the snobbish styles are to be found at Campbell Bros., Kingston's style centre for men's hats.

Bibby's \$2 derby for mine.

**NUMBER OF JAPANESE**

Who Have Come to Canada During This Year.

Ottawa, Aug. 30.—The department of trade and commerce has been furnished with a statement by T. Noss, Japanese consular general at Ottawa, which purports to show in detail the actual number of Japanese who have arrived in Canada during the present year, and taking into consideration those who are en route to the United States and other points.

Mr. Noss states that his figures are obtained from official sources in British Columbia.

According to this statement the Japanese passengers from Japan departed from British Columbia ports in January, 1907, amount to 3,334. This number, however, included merchants, students, women, children, those en route to eastern Canada, those in transit to United States ports, and those who had come on short visits to the province of British Columbia. According to Mr. Noss's figures there have been in all 2,633 of the latter, leaving a net immigration of 641.

The statement in detail is as follows: Number of arrivals at British Columbia ports, 1907-January, 224; February, 274; March, 276; April, 409; May, 597; June, 782; July, 772; total, 3,234.

En route to the east, 58; to the United States (this number according to the United States immigration agency; additional to United States, about 500); returning from Japan, 1,276; total, 2,633; net, 641. This number is in addition to the 565, which is estimated as many go to United States points other than those by rail, who cannot be checked by the United States immigration officers, many go by boat, small boats or enter the United States in devious ways. Of the 641 Mr. Noss states there were merchants, students, women, children, etc., and that there cannot be more than one-half of the number, or 320, who were actual laborers.

Mr. Noss's statement further mentions that according to the Canadian government census of 1901 there were in British Columbia 4,515 Japanese, and alleges that there must now be about 6,000, an increase of 1,500 within the last six years, or 250 a year. The natural increase of the population, as there are at present about 600 women and 200 children.

Mr. Noss states that trouble has been engendered in British Columbia by reason of the fact that every arrival is counted as a new arrival, without considering those in transit to the United States, and those on a visit to the United States, and those who are at present 3,000 naturalized Japanese in British Columbia.

**Robertson Bros.**

**SEND BOATS TO PACIFIC.**

**C.P.R. May Make Important Change This Fall.**

Montreal, Aug. 30.—The report is current that the C.P.R. Atlantic steamers Montserrat and Rosamund will be transferred from the Atlantic to the Pacific fleet at the close of the St. Lawrence navigation season, to replace the Athol and Tartar, which have been chartered to the Japanese. It is said that a great deal of freight is offered on the route between Canada and the far east, and the Montserrat and three Expresses are all the vessels that are at present available for the handling of it. The Expresses are only small freight carriers, their capacity for that purpose being not more than 2,500 tons, hence the necessity for reinforcement of the fleet in eastern waters.

**HEAD OF COMMISSION.**

**He Practiced For Years In Syracuse, N.Y.**

Martin A. Knapp, chairman of the Interstate Commerce Commission, was born at Spafford, N.Y., on November 6th, 1843, and was educated at the Wesleyan University of Connecticut, from which he graduated in 1868. He graduated on December 18, 1869, at Middletown, Conn. Miss Martha Hotchkiss. He studied law and was admitted to the bar in 1869, and practiced from 1870 until appointed on the commission at Syracuse, N.Y. It was in February, 1891, that Mr. Knapp was appointed a member of the then new interstate commerce commission in 1898. His home is in Syracuse, but the official station of the commission is in Washington, D.C.

**THE MAYOR'S EMOLUMENT.**

No One Seems to Know Why It Is Paid.

London, Aug. 31.—The knowledge that the lord mayor of Dublin receives \$1,500 the pay of an infantry captain, during his year of office was imparted to the house of commons in reply to an interrogation.

This stipend dates from the time of Charles II, but no one seems to know why it was ever paid to the lord mayor.

Joseph Nannetti, M.P., who is a composer and never was a military man.

War Minister Haldane has explained to the common that Mr. Nannetti is not contented as an efficient officer in the army list. He draws his captain's pay as an absolute sinecure.

Analogous to his phantom captaincy is the ex officio appointment of the lord mayor of Cork as admiral of the port of Queenstown. His naval duties are confined to the picturesque annual ceremony of throwing a cork into the sea to define the limits of his command.

**ATHABASKA CROPS.**

**Away Ahead of Those of the Edmonton District.**

Edmonton, Alta., Aug. 30.—Angus Brabant, inspector for the Hudson's Bay company, recently returned from a round of inspection of ten farms in the Athabaska district. He states that the crops at Fort Vermilion, Fort St. John and Dunvegan were, as usual, away ahead of those in the Edmonton district. At Fort St. John on July 16th, he had enjoyed a dinner of fine large new potatoes. This early maturing of crops in the Peace River district was usual, said Mr. Brabant, and due to the long days of sunshine with only three or four hours of dusk and darkness. At Peace River crossing Mr. Brabant met Ally Brick, M.P.P., both in going and coming. On his return trip he found Mr. Brick busily engaged in his fields. His crops were looking "excellent."

**There Arrived To-Day.**

Another consignment of our popular \$2 and \$2.50 flat-brim derbies. See them to-night at Campbell Bros., Kingston's style centre for men's hats.

Bibby's new hats are fine.

**REBELLIOUS MOORS**

**PREACH A HOLY WAR**

**The Sultan Urged To Lift The Standard And Drive Out The Europeans.**

Tangier, Aug. 31.—According to the Moors are as much afraid of raids by the Kabyles, the principal tribesmen as the foreign residents.

Letters from Morocco City, where the situation has been critical since the marriage of Dr. Marchand, state that the European residents are leaving under the protection of guards furnished by the governor, Mulek Haidi.

More troops are arriving in Casa Blanca, but there is nothing for them to do now. The exodus from the town still continues, and there are only about 5,000 people left.

Great excitement still prevails at Mogador, and Admiral Philibert has dispatched a cruiser for the protection of the Europeans in case of need.

**COMMISSION CHOSEN**

**To Report on the Quebec Bridge Disaster.**

**The Government Takes Prompt Action--Experts are Completely Mystified--More Particulars of the Catastrophe.**

Ottawa, Aug. 30.—The government has appointed Henry Hodge, C.E., of Montreal, to investigate the Quebec bridge disaster. Later it was decided to name two others—Prof. J. G. Perry, of McGill University, and Prof. Galbraith, of Toronto University. This commission will report.

Experts all declared themselves to be completely mystified by the catastrophe and none would advance an opinion as to its cause with the exception of Mr. Beaudet, and it was he who spoke of the possibility of the outer pier settling, but could not speak at all definitely on the matter as he declared that, as yet he had not been able to make any examination.

**Company Will Say Nothing.**

Philadelphia, Pa., Aug. 31.—The Phoenix Bridge company, which has the contract for building the bridge, has offices in this city. The plant is at Phoenixville, Pa., thirty miles from Philadelphia. The news of the accident was a great shock to all the officials. Four representatives of the company were sent to Quebec, and until their report is received, the company will make no statement. The officials of the concern say they do not know the cause of the disaster, and have no idea of the monetary loss incurred.

**Steamer Close To Bridge.**

Quebec, Aug. 31.—The M. T. company's steamer, Glenora, Captain Muir, en route from Montreal to Sydney, was close to the bridge when it collapsed. Pilot David Perrault said the vessel had just passed the bridge when there was a tremendous report; there was a great upheaval of water in the river, some of it breaking over the stern of the vessel. For about ten minutes it was impossible to see anything in the direction of the bridge owing to the spray and clouds of dust from the fallen structure.

When Captain Muir saw what had occurred he ordered the steamer to be put about, and went as near as possible to the bridge piers. He then lowered the boats in the hope of picking up some of the unfortunate men who were carried down by the structure. Although the boats circled around for some time they did not pick anybody up. Mr. Perrault said the noise made by the falling bridge was something awe-inspiring.

In view of the fact that half a million of dollars have already gone to pay the duties upon the steel work for the superstructure of the bridge, it is understood that application will be made to the federal authorities for further assistance. The Dominion government has already received the right to take possession of the work at any time on giving a month's notice in reimbursing the amount of capital advanced with simple interest at five per cent. plus ten per cent. per annum.

It is estimated that the damages to the Quebec bridge and the claims which will have to be paid will amount to at least \$2,000,000. The inquiry will be commenced on Monday.

**ON A BUSINESS BASIS**

**King Edward Has Used The Pruning Hook Effectively**

London, Aug. 31.—King Edward has now "set his house in order." That is to say, he has completed the reorganization of the household, which was a very necessary process, when he came to the throne. Since then he has had the expense reduced by a large sum, pruned the personnel of the household, and set the whole thing on a business footing.

The reforms have been carried out by Lord Farquhar, who has held the position of Master of the Household from the beginning of King Edward's reign, and is now retiring because the task he was appointed to carry out is finished. With his moving instinct for the "right man for the job," King Edward selected Lord Farquhar as the Hercules who was to cleanse the Augean stables, and the selection has proved the right one. Lord Farquhar has shown real genius in making the king's household an efficient and economical machine.

Lord Farquhar came to the task with a business training, for he has been a banker. He is a life-long friend of King Edward, and the two have been neighbors in Norfolk for many years. Lord Farquhar's place Castle Rising, being a few miles from Sandringham.

**THE FATAL FIREWORKS.**

**Accidents From Them Increase In Italy.**

Rome, Aug. 31.—Fatal accidents in fireworks factories are so alarmingly on the increase in Italy that petitions are being inundated with petitions from all quarters to devise special preventive legislation. As is generally known Italy has an enormous inland trade in fireworks, and in the southern provinces and Sicily pyrotechnic displays form an indispensable item in every form of public rejoicing.

During last month alone five terrible explosions were recorded through carelessness in the process of manufacture, costing in each case the lives of from one to five persons. Now, within the last twenty-four hours, two further mishaps have swelled the list of victims.

Several hundredweights of gunpowder blew up at a factory in the commune of Saint Antonio, in the suburbs of Naples, killing three workmen and inflicting fatal injuries on seven others. The explosion was so terrible as to set fire to a big storage of heap nearly a mile away.

The other disaster occurred at Leco, where a large consignment of fireworks, ready for a popular festival, exploded. Of three brothers, partners in the firm, who happened to be standing near, one was blown to pieces and the other two were horribly lacerated.

**THE KICKING GOES ON.**

Peterboro Examiner.

Mr. Whitney's educational reform programme was to especially include the examinations abuse. But this year, the Brockville Recorder points out, there has been more "kicking," probably, than for many years previous over the examination papers.

**His Nibs Speaks Again.**

Hamilton Spectator.

Emperor William says that only the gracious dispensation of heaven and the swords of his trusty troops have made it possible to maintain peace "so long." Somebody must be worrying William.

Tooth brushes that won't wear out are sold at Gibson's Red Cross drug store.
