

Cold Settles in Kidneys Pe-ru-na Restores Health

Catarrh of the Kidneys An Insidious Disease. Many People Have it in Slight Form and Do Not Know It.

Mr. Isaac Rosenzweig, 9 Dumais street, Montreal, Can., writes: "About three years ago, I suffered with a bad cold. It settled in the bladder and kidneys, causing serious trouble."

MR. ISAAC ROSENZWEIG.

CATARRH of the kidneys is a very much neglected disease. It is not until the disease has a firm hold upon the kidneys that the patient begins to realize that there is some derangement of these organs.

INTERNAL CATARRH REACHES THE KIDNEYS. Even when he discovers that the kidneys are affected, he does not recognize the difficulty as being caused by catarrh.

Catarrh is sometimes so very gradual in its approach and its earlier symptoms cause such slight discomfort that it is not noticed.

However, when it once firmly seated in the kidneys it becomes a difficult disease to exterminate.

Indeed, catarrh of the kidneys is more serious than catarrh affecting some of the other organs of the body.

In the kidneys it is liable to terminate in Bright's Disease or diabetes, both of which are recognized as very serious ailments, if not fatal.

The thing to be done, when catarrh of the kidneys is discovered, is to take some internal, systemic catarrh remedy, one that reaches the very source of the catarrh and removes the cause of the difficulty.

Such a remedy has been found in Peru-na. It reaches catarrh in matter where it may be located in the body—whether in the more exposed membranes of the nose and throat, or whether in the remotest part of the kidneys.

Kidney Disease of Long Standing. Mr. Samuel A. Paxton, 128 Trood Ave., Kansas City, Mo., member T.O. O. F. and National Annuity Association, writes: "I am a well man today, thanks to Peru-na. I was troubled with catarrh and kidney disease of long standing when I first began using Peru-na."

CHILDREN LOST IN WOODS. Kept Fires Lit to Frighten the Wolves Away. Pembroke, Aug. 31.—On Thursday, 22nd inst., two little sons of Mr. Marcel Chartrand, of Black Bay settlement, on the Petawawa river, went out in the woods berry picking. While wandering around in quest of fruit they lost their way, and travelled seventy-four miles before they met some lumber men coming down from their camp who directed them on their way home. They obtained enough berries to satisfy their hunger, but had to keep fires burning all night to frighten away wolves, whose blood-curdling howls kept them awake and in terror every night. The settlers had organized search parties and had almost given up hope of their safety when the joyful news of their arrival home on Wednesday, 25th, was received.

Besides the sorrowing husband, four sons, Francis, Bernard, Patrick and Michael, survive. It is the duty of all not to lose courage. We must immediately apply ourselves to the repair of loss and push the project with energy.'"

Car Struck by Wagon. At 5.15 o'clock, yesterday afternoon, street car No. 11, in charge of Motor-man Hourigan, ran down a wagon at the corner of Clarence and Ontario streets. The wagon was a long four-wheeled one, belonging to a farmer, and contained a ton of coal. The rear axle was broken, the wheels knocked off and the coal scattered over the road. Both man and horses escaped without injury.

Without Foundation. The report in last night's Whig that a football team would be made up under the management of McDermott brothers, was made by Al. Gaskin, the firm has never had anything to do with such matters at any time. A member of the firm has been interested in amateur sport for some years, and he desires it stated that the firm does not interfere in such matters.

An Error Corrected. In giving the discussion which took place at the council meeting, the Whig credited Al. Ross with saying that if any changes were made in the report, that he would resign from the council. This was an error, as the statement was made by Al. Gaskin, as is well known. It was just a mere slip.
