## IRON HAND OF JAPAN

### Ruling Korea by Slaughter and Torch — Villages Set Ablaze.

#### Official Reports Reveal Most Extreme Methods Taken to Crush Opposition to Mikado's Schemes for Reform.

Seoul, Korea, Sept. 5.—Official reports reveal the employment of the most extreme methods against the natives by the Japanese troops. Whole villages in the Yangkeun district have been destroyed by the torch. Koreans suspected of inciting the people have been shot ruthlessly.

The official explanation given is that an object lesson of the severest character is necessary to stop outrages upon the Japanese. Many of these are reported from all sections. Police, post office and telegraph officials and civilians, even women seeking safety, have been shot down by Koreans. In several instances scouting parties have found the heads of murdered Japanese hanging from trees.

The eastern section is the scene of the most formidable operations. The Korean force there is estimated at several thousand former soldiers and licensed hunters, possessing 1,200 stands of arms and 40,000 rounds of ammunition seized from the garrison.

Against this force the Japanese troops are proceeding in two columns. In lively fights at Teisen, thirty-three

Koreans were killed and at Yokon fifty-eight. The mountainous country handicaps the Japanese, giving the Koreans decided advantage. At Cheshu 400 Koreans attacked the Japanese, but were driven off with heavy losses. At Chussulo upward of 1,000 armed natives are terrifying the country.

Seven leaders of the mutiny on Kangwha Island entrusted to the Japanese police for transportation to the mainland. The police explanation is that the prisoners chewed through their confining ropes, seized the swords of their guards and attacked them, and were killed in self-defence and their bodies thrown overboard.

The authorities assert the discovery of an extensive plot for a general uprising about the middle of September, inspired by the retired emperor.

Prince Pakyongho, who was brought back from Japan and offered a ministership on the assumption that he would report the Japanese plans, was subsequently put in jail on trumped up charges.

#### MESSAGE WAS LATE.

Company Did Not Advise Men's Removal.

Phoenixville, Pa., Sept. 5.—The message received from Cooper, the consulting engineer, at New York, who wired on the day of Quebec bridge tragedy some time in the morning, was received at six o'clock. It read: "Examine before noon. The load is put on bridge." Chief Engineer Deans received the message an hour and a half later. No message was sent that evening to Quebec as the result of Mr. Cooper's wire. The message was one of hundreds received from different sources by the company since the work of erection began. The subsequent of Cooper's telegram demanding immediate action or the home office would have taken steps. The telegram did not recommend that the work on the bridge be stopped. The detail of the essential parts of the bridge certainly has been examined by the engineer and foreman in charge of the work. The company does not yet know if the bridge is safe or dependent upon the result of the investigation.

#### CRACK IN A STEEL PLATE.

Quebec, Sept. 5.—Young Alexander Chalmers, a painter, who had worked on the bridge, gave some sensational evidence at the inquest. "There was a crack," he said, "in the bottom lath plate at the bottom of the iron work on the main-spacer on the Montreal side. It was twenty inches long and three-quarters of an inch wide."

He started the coroner, he started everybody. Questions in French and English were fired at him and he answered both. He insisted that the crack was there, and pointed out the spot in the blue print with a wealth of technical detail in French and English. In spite of it all Mr. Hoare could not locate just where he meant, so the inquest was adjourned till to-day, when blue prints showing details of spots will be submitted.

To a layman it looked plain enough. Young Quimet indicated the very root of the huge iron column that once rose 400 feet high from a mound of solid granite known as the May pier, that rent the river; from this the cantilever arm hung out 712 feet. It was a crack—where the plate was bolted, not through the bolt holes, but near them.

#### A PIANO THAT WHISTLES.

Invention By Young Negro Minister at Richmond, Va. Richmond, Va., Sept. 4.—Rev. James O. Early, a young negro, has been granted a patent for a whistling piano of his own invention. The instrument has a keyboard arranged on a scale somewhat different from a piano. It is capable of whistling the most difficult notes. Mr. Early has already been approached by a northern man with a handsome offer for the patent rights. He hopes to induce men of his race to organize a stock company to exploit the instrument.

#### DID BRILLIANT SERVICE.

He Was a Naval Instructor of Fame.

Rear Admiral Asa Walker.

Rear Admiral Asa Walker, of the United States navy, was born at Portsmouth, N.H., on November 19th, 1845, and entered the navy as a midshipman in 1865. He was a brilliant scholar and served four times as an instructor in the Naval Academy. He was also one of these naval officers who did such brilliant service under Admiral Dewey at Manila Bay. He served as an instructor in the postgraduate school of the navy, the Naval College, and from 1897 to 1900, and was on the general naval board during the year 1904. He was later in charge of the naval yard at Boston. Rear Admiral Walker served for two months, one of whom was one-eyed and the other looked simple. ### Abandon the Philippine Islands.

#### NEW YORK HERALD

#### CLAIMS THE COLONY HAS COST \$400,000,000.

Money Would Have Made Its Atlantic and Pacific Seaboard Practically Impregnable—Would Pay Frisco's Fire Loss. New York, Sept. 5.—It has cost the United States approximately \$400,000,000 to acquire and hold the Philippine Islands, according to the New York Herald which advocates the sale for the abandonment of the islands. The Herald quotes from the records of the war and navy departments in Washington to show that the joint army and navy expenses of the four years of insurance were \$200,000,000. It estimates the annual cost of the present military establishment in the Philippines at \$20,000,000, one-fifth of the whole American army now being in the islands. The excess of expenditure of the civil establishment over local receipts from taxation, etc., the \$20,000,000 paid to Spain and other items bring the arithmetical total cost to the United States to date to the vast sum of \$400,000,000. The Herald says the money expended would have made the Atlantic and Pacific seaboard of the United States practically impregnable or would have paid San Francisco fire loss.

#### GIVE RECEPTION.

Brockville, Sept. 5.—It has been decided to tender Hon. Mr. Graham a public reception on the evening of the 10th inst., in recognition of the honor which has been done the Brockville riding by his appointment to the portfolio of railways and canals. An address will be presented to him and a reply from the new minister is expected.

#### GUARDIANS AS STONE BREAKERS.

London, Sept. 5.—An excited debate took place on Saturday at the Blackpool municipal meeting on a proposal to make able-bodied paupers break thirty hundredweight of stone daily. Mr. Mehan said two well-to-do guardians had failed to do the work for two inmates, one of whom was one-eyed and the other looked simple. When a girl "draws the long bean," it is no four-foot-six for her.

## ASSASSINS MURDER LEADING MEN

### The Wealthy Tazzi Brothers, Accused of Ruining the Empire, are Among the Victims.

Casa Blanca, Sept. 4.—Letters received from Fez declare that the Tazzi brothers, Abdelkrim, Ben Sili, and Gannam, the sultan's second representative at Tangier, have been assassinated by partisans of the Kaid of Mechuar, the officers who introduced the entire debt of Morocco. The Tazzi brothers exercised almost complete domination over the sultan and to them is attributed the ruin of the empire. It is alleged that they sought only their personal aggrandizement. Their fortune is counted by millions, and is said to be sufficient to pay the entire debt of Morocco. Some time ago the Kaid of Mechuar was on the point of killing the Tazzi brothers in the presence of the sultan. The name of the kaid is Driss Ben Aich. He is a descendant of the Bujaris, one of the four tribes which founded the Moroccan monarchy. Abdelkrim Ben Sili was a perfect type of the cunning diplomat. He sent his condolences to the French chargé-d'affaires at Tangier regarding the massacre of Europeans at Casa Blanca. Gannam was intensely anti-European. He was recently accused of complicity in an illegal sale of government lands at Tangier.

#### KILLED IN ENGAGEMENT.

Casa Blanca, Sept. 5.—Eight Frenchmen were killed and seventeen were wounded in an engagement, yesterday, outside of Casa Blanca. The fighting was started by an attack made by the Moors on a French scouting party. About six thousand Moors participated, of whom about 500, it is estimated, were killed. Maj. Prevost was slain while returning to camp after the engagement, which opened at 5 a.m. and lasted seven hours.

#### CRUISER IN FIGHT.

Paris, Sept. 5.—A dispatch was received yesterday from Vice-Admiral Philibert, at Casa Blanca, reporting that a new engagement occurred on Tuesday, September 3rd, about seven miles south of Casa Blanca. The French cruiser Glorieux participated in the fighting, firing 150 shells at the Moors, who were dispersed and fled to the hills. This engagement followed a forward movement on the part of the French forces. At Larache, the French cruiser Forbin had taken on board many refugees from Fez.

#### HOOTED THE CARDINAL.

Castel, Gandolfo, Sept. 5.—While Cardinal Merry del Val, the papal secretary of state, was driving to this place, from Rome, last evening, several men on a passing train car, hooted him and shouted: "Death to the pope." "Down with the cardinal," and gave utterance to curses and other insulting expressions. The police arrested the offenders, but only after a long and exciting struggle, in which friends of the demonstrators made attempts to rescue them from the police.

#### World's Greatest Dredger.

Liverpool, Sept. 5.—This Liverpool Journal of Commerce states that the Messrs. Duck and Harber Board yesterday accepted a tender for the construction of the largest sand pump dredger ever designed. It will lift ten thousand tons of sand by a process of suction of fifty minutes from a depth of seventy feet. It will be built by Messrs. Cammell, Laird & Co.

#### Yarmouth's Garden Suburb.

London, Sept. 5.—A sketch plan has been presented to the Yarmouth town council of a scheme for the creation of a garden suburb by the development of the corporation's extensive estates. No more than seven houses will be allowed to the acre.

#### PITH OF THE NEWS.

#### The Very Latest Culled From All Over The World.

The estate of the late Richard Mansfield, actor, is said to be worth \$500,000. President Roosevelt returns to Washington, on September 25th, and starts a southern trip on September 29th. Five of the alleged raiders, who participated in the fatal affray at Winton, have been committed for trial. The Dowager Empress of China has fortified her government by calling Yuan Shi Kai and Chang Chi Tung to the council board. Striking dock laborers at Antwerp, on Wednesday, flung a number of freight cars into the canal and set fire to a large lumber yard. The Henry Phelps Institute, at Philadelphia, has issued a report stating that alcohol neither prevents, cures nor predisposes to tuberculosis. Louis Glass, of the Pacific States Telephone and Telegraph company, was sentenced to five years in prison for bribing a civic supervisor. Immigration officials at Ottawa are puzzled over what to do with eight Chinese at Sidney, who paid no entrance fee to get into Canada. The head official of the bank has authorized an explicit denial of the rumor that the Canadian Bank of Commerce contemplates absorbing the Sovereign bank. Such an arrangement has never been discussed. R. L. Borden leaves Toronto for the Pacific coast on September 14th. He will stay a day in Winnipeg on his way west, reaching Vancouver September 21st. He will address meetings at Vancouver, B.C., September 24th, at Victoria, September 25th, at New Westminster September 26th.
