ed to be expended in devising plans for the extension and increase of the foreign trade of this country. At least much of trade of this country. At least much of the eloquence on the floors of congress directing their attention to Asia as the cured by arrangements to be made with China and Japan, which would greatly China and Japan, which would greatly exceed that with India which made Great Britain so rich. There is a good deal of glamor about Asiatic trade. It fills the imagination more than the purse. A little consideration of details should is not all it is painted. In the first place, the inhabitants of Asia—especially the Indians, Chinese and Japanese—are miscrably poor, and consume very little of the things our costly labor produces. They cannot afford to pay for either our food or our manufactures, and they do food or our manufactures, and they do for our manufactures and they do for our manufactures. food or our manufactures, and they do not need them. Whatever they may want of ours which they have not yet learned to make, they will not be long their age would naturally place them. The statistics for New York, The Post says, cannot be very far different from those for Boston, Philadelphia and Chicago. in learning, and when they have done so, they will be apt to sell to us rather

-An illustration lies right at our door. We have been trading with the Asiatics since a considerable time before the revolution. We began trading with Canto-day the six millions of Canada buy from us and sell to us more than twice as much as the whole eight hundred millions of Asia. We are not aware, either, that the Washington government sits up nights devising means of extendalong the border to interrupt and embarrass it. A neighbor's trade is always more valuable than that of people at a distance, for it costs less for transportation. Canada's trade with the United sideration, is now next to that with Great Britain, Before many years, should the present rate of increase be portance and amount. The Dominion's otal foreign trade has increased in the \$100 per head for every man, woman and child, including Indians, in the country. With the same per capita our own foreign trade would be over eight billions, instead of a little over three. It is evident to any rational mind that cial barriers now along the borders instead of increasing them. To remove Detroit river or a bridge over it.

Facts About The Ocean.

Where's Mother ? This is what the children say: Prooping, crowding, blg and small Ever as the days go by. Where's mother?"

rom the weary bed of pain From the boy with sparkling eyes, Bearing home his earliest prize ; From the bronzed and bearded son, Perils past and honors won ; Where's mother ?"

In view of what we have above

A "Hecla" Furnace

will always keep your home warm and comfortable, and provide in addition a system of ventilation that will always keep the air fresh and pure and free from gas, smoke or dust.

Hecla Fused Joints guarantee this purity of atmosphere, because they are made by fusing the iron and steel of the Hecla together at a white heat in such a way as to make a joint that is absolutely tight for all time. In all, other furnaces, this joint is made with bolts and cement, and the difference in the ratio of expansion between iron and steel soon strains the bolts and loosens the cement, leaving openings for the escape of gas and dust. Fused Joints are everlasting.

Sectional Fire Pots.

I make Hecla Fire Pots in sections to prevent cracking in the centre where most fire pots give way. I provide for expansion and contraction in such a way that there is no strain on Hech Fire Pots. The flanges, cast on Hecla Fire Pots, add 50% to the heating surface.

Triangular Grate Bars

keep the fire clean with less trouble than any other grate bars made; one turn of the crank clears out the ashes, removes clinkers and leaves a bright, clean fire.

If you are building a House

or installing a heating system, you should know why the Hecla is the most sanitary, the most efficient and most economical furnace made. See our nearest agent or write the Clare Furnace Builder for the latest catalogue and a free
