Daily Whig.

SCHOOL CHILDREN DEFECTIVE. The report of Dr. Knight will cause some parents of children who go to the public schools to think seriously. He had a definite aim in determining, to some extent, the deficiencies of the scholars. All who are in the profession have been attracted at times by the apparent dullness or incapacity of certain pupils, and they have been unable to understand the cause of it. Dr. Knight has let in some light. He has shown that a large proportion of the children are defective in sight and hearing, and the parents should be stimulated into such action as the merits of each case suggest.

It must be apparent, however, that the discovery of Dr. Knight might be to many in vain. Some parents will not take the warning of his report as they should, and will not take the steps which the welfare of the children demands. Bad teeth in little ones is not surprising, if they are of tender years. They may be expected in the near future to secure the teeth of which they must take care. But the sight and hearing cannot be neglected. They will not be improved by delaying the use of medical treatment or appliances.

Supposing the parents are not thoughtful nor convinced of the need of relief, or unable to supply it? Then the state has a duty to perform. It is interested in the development of young life, and must see that the conditions are favourable. In England children are cared for by the school boards, and in some instances fed. In the United States experts make examination of the eyes and ears and throat, and prescribe such remedies as they think best.

Canada is not advanced in its methods, because it is yet a young country. Yet its education department boasted, a few years ago, that it had the finest public school system in the world, and the ambition to hold such a reputation involves consideration for the bodies as well as minds of the children.

OUR BOYS AT COLLEGE. Montreal is deeply concerned about the cost of living to the students who desire to attend the university. This living, the Witness points out, has become more expensive, and no one can figure accurately how many it has kept from McGill and driven to other institutions. Kingston has been referred to as a place where cheaper accommodation can be had, and who knows but that this is to be credited in part for the larger number of applications which is reported in connection with the next session.

FOR HEADACHE, FOR DIZZINESS, FOR BILIOUSNESS, FOR TORPID LIVER, FOR CONSTIPATION, FOR SALLOW SKIN, FOR THE COMPLEXION. GENUINE WINDSOR SALT. Pure as sunshine—not the faintest suggestion of anything but salt—clean, delicate-tasting. That's WINDSOR SALT.

Montreal has been aided in accommodation by the generosity of Sir William Macdonald, and by the Y.M.C.A., whose buildings have afforded to young men the comfort and convenience they desired. Kingston so far has been able to meet the exigencies of the times through private enterprise, but the day is approaching when Queen's will have its share of anxiety, not as to the manner in which it may educate the young men who pass through its walls, but how they may be housed and fed and given the protection which their moral welfare demands.

A Question of Men. Administration of the liquor license law can only be worthy of respect in so far as a government will be obedient to the highest ideals of the party. The Whitney government was obedient to the worst impulses of the party in Toronto when it ousted the Flavelle-Davidson-Murray commission. The resignation of the first license commission appointed by the Whitney government has been abundantly vindicated. The commissioners would have had responsibility without power if they had consented to work with inspectors who satisfied the party instead of with inspectors who satisfied the commission.

EDITORIAL NOTES. Limiting the number of liquor licenses in some centres makes them more valuable. Is that the principal result?

No opposition to Mr. Graham. What is the matter with the opposition? The Montreal Star and the Toronto News said its function was to fight. Bishop Ingram has an idea that the church is too dignified to make a conquest of the world. That was Mr. Booth's idea when he founded the Salvation army.

SUMMER WANTS. Screen Doors and Windows, Ice Cream Freezers, Lawn Mowers and Charcoal Irons.

TOWN OF GANANOQUE THE CANADIAN CABINET COMPANY RESTRAINED

From Removing Its Machinery—Two Marriages Reported—School Teacher Resigns—Two Others Who Have Been Engaged.

Gananoque, Sept. 16.—Miss Fannie Balfour Timberlake, a fine young woman, resigned her position to accept a situation in Ottawa. At a special meeting of the board of education her resignation was accepted, and the services of Miss Florence Reid secured for the balance of the term. Miss Nellie Wright, Sydneyham street, was also engaged as assistant in Miss Nellie Whitmore's room in Stone street school, where the attendance is about 100.

The Perth Teachers' Association holds the education department responsible for examination papers which affect thousands of candidates adversely. The ordinary examination is expected to be a fair test of what the writer knows. There should not be anything tricky about it.

SPIRIT OF THE PRESS

A Great Debate. Montreal Herald. That British B.P., whose reputation was lost by his own brilliant career, would be something like our own Dr. Sproule, who can empty the house on any subject he cares to talk about.

The Leader's Partners. Toronto Globe. Mr. Borden continues to fly purely, but why does he need a whole swarm of wicked partners? If he cannot get any other kind of support, the fact is significant.

A Labourer's Regret. Montreal Herald. When Mr. Whitney's Toronto license inspectors got mixed up in charges of commission, Mr. Whitney appointed a commissioner, who, after waiting until everyone had forgotten all about him, brings in a report exonerating everybody but a poor Greek official, who long ago lost his job. There is nothing like being consistent.

Borden in London. London Advertiser. How can Mr. Borden hope to convince the electors of London of the sincerity of his professions when he brings the Pope to this city to speak from the same platform? Pope was one of the trio of conservative members of parliament who sought and secured secret information from railway corporations, and allowed one of them to finance their land speculation. Yet Mr. Borden comes to London to preach against graft.

Well, We'll See. Ottawa Journal. How I Well after the brewers who own the houses in Toronto, and the traffickers in the increment of licenses and Dr. Beattie Nesbitt and the rest of the people who don't agree with J. R. L. Starr's report on the liquor system as it has been operated in Toronto, and good and through their criticism the commission will have to look for his friends with a microscope. That is to say, if the Ontario government stands by Mr. Starr, and if the federal government stands by the insurance commissioner, but perhaps the Whitney government has a little more sand in its craw.

All City Vote. Hamilton Telegram. Not only has the general-vote plan failed to do away with the spirit and practice of sectionalism: It has defects in itself. It lends itself to the design of party machine politicians. Those who believe that civic affairs may legitimately be made subordinate to the welfare of a political party and used to further party interests do not, of course, regard this as a defect but as the chief merit of the general-vote plan. But it is doubtful if the majority of our citizens are of this opinion. Most of them, we believe, are the more intelligent of them, we are sure—are convinced that the business of the city should, as far as possible, be transacted mainly with a view to the welfare of the city, and not on a partisan basis.
