Ida Hill Budget. John Hill, Sept. 21.—Farmers in this locality have their threshing done for this year, and with a good yield of grain. Ensilage corn will be cut this week. The crop will be average. R. J. Keefe and wife, Jersey City, N.J., are spending a few days visiting with his parents, Mr. and Mrs. Robert Kells, of this place. A large shipment of dressed and planed lumber from Canada's quarries has just arrived. The quality is of the best obtainable in the province, and it is in much demand. The large amount that was sent down to Picton was for building a school. E. W. MacIntyre has some time been quite indisposed. William Rickard's new well is giving satisfaction. A good quantity of water was secured by the drillers. Benjamin Kinnison has removed his residence to a new place. The quality of his produce is being sown by the farmers. Pastures which only a few weeks ago looked bare and short have of late greatly improved. Some good feeding can be had. Miss Jessie McGillivray, of the city spent a few days with her grand-parents, Mr. and Mrs. Thomas Robinson this week. The result is again a victory for a local mail office. The daily amount of mail that comes here is large and the closest office is three miles or more away. When are the township road jobs to be started? The town of Picton is improving. Shannon Hill, for which two years ago a sum was granted still lies untouched.

What The Pink Tape Did. The United States consul of Birmingham, England, tells this story: "A farmer noticed customers in the grocer's shop picking over the celery, to find the best looking bunches, and it occurred to him to examine them with his celery and see if it would bring a better price. He bought some celery and tied the celery with it in neat bunches and found that it sold quickly and brought more money. After that he marketed all his produce in the most attractive manner, putting labels on his fruit basket with the name of the variety, weight, apples, selecting and labeling his tomatoes, always treating his fruit and vegetables as if they were worthy of distinction. The farmer's produce grew and enlarged his business and became a wealthy man, all because of the pink tape on the celery."

QUEEN VICTORIA'S HAIR.

Its Great Profusion Was Always a Cause of Wonder. Even at the age of eighty years Queen Victoria's hair was a marvel of luxuriance. The court physician, following Prof. Unna's discovery, undoubtedly treated her majesty's scalp with a germ destroying preparation that was not made public. It is now known, however, that the remedy for dandruff, the germ destroying element, is embodied in Newbro's Herpicide, the only hair preparation on the market that does destroy the dandruff germ. Without dandruff hair will grow profusely, and falling hair will be stopped. Destroy the cause, you remove the effect. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c, and \$1. G. W. Mahood, special agent.

On the 19th, Mrs. Minerva Allaire was found dead in bed by her two daughters. She raised at night in her usual health, having been to Flinton on the 18th. The doctor was called and gave his opinion a blood vessel had burst in the brain, causing death, and that she died as soon as she lay down. Mrs. Allaire leaves ten children to mourn the loss of a kind good mother—Charles and Joseph, Mrs. Doran, and Mrs. Mingham, in

THE PARAGRAPH PULPIT

Unitarian. REV. C. W. CASSON, OTTAWA. Standing The Test. One's religious belief is not worthy of one's loyalty unless it is able to withstand every test to which its veracity can be put. If, after the most searching investigation, it still remains true and real to you, you may know that it is worthy of all respect and allegiance. Do not fail to put it to the test. If it is true, it will stand firm against any shock of doubt. The test will only give to it greater value and vitality. If it is not true you surely do not wish to continue believing in a falsehood. Subject it to the test. Address, Mr. Casson for free literature.
