THE 5 P.M. EDITION AT THE POLICE COURT

COMMERCIAL MATTERS.

What is Going on in the Business World—The Markets.

The balance in Canada this week reached \$40,100,000, total same week, 1906, 19,000,000. The weekly wheat harvest is estimated at 2,100,000,000 bushels against 3,425,000,000 bushels in 1906.

The City Mailway company of Chicago has ordered 800 new cars on a pattern successful in Montreal, on special passenger pay as they enter.

The Canadian Northern R.R. will have completed 400 miles of new road in the western provinces by the end of the year, an agreement was signed last year. Edward H. Harrison is said to have concluded negotiations with George W. Miller, of Chicago, for the purchase from the latter of \$1,000,000 worth of 4000 shares in Modesto County, California.

Peterborough will have another new industry at an early date. A provincial charter has been granted the Dominion Tool company with a capitalization of \$100,000, divided into 1,000 shares at \$100 each.

The United States will produce in the current calendar year approximately 27,000,000 tons of iron ore, of the amount which will compare with 16,497,000 tons produced in the year 1904, and 18,000,000 tons produced in 1905.

The profits of the Bank of British North America for the half year ending June 30th, were \$1,007,451. The amount \$322,173.45 is available for the October dividend, payable on the 4th, at the rate of 6 per cent. per annum.

The ore tonnage of the Boundary district for August was about 25,000 tons less than July, amounting to 150,000 tons of ore, as compared with 150,000 tons in July. This falling off was largely due to the coke shortage, whereby the Grassy furnace were shut down four or five days.

United States Steel Corporation in current calendar year will show surplus available for dividends on common stock of close to 15 per cent. net earnings for the year, it is estimated, will run very close to \$100,000,000, or about \$3,500,000 in excess of the previous year. Most of the surplus will be appropriated for new construction, \$38,000,000 having already been set aside for this purpose.

EPHRAIM KELSO GOES ON SUSPENDED SENTENCE.

Admitted Assaulting His Wife, But Couple Will Live Apart—Dr. Evans Case Further Enlarged.

Ephraim Kelso, on remand on a charge of assaulting his wife, was allowed to go on suspended sentence, at the police court on Saturday morning. He pleaded guilty through his counsel, and J. L. Hitting, N.C., explained that Mrs. Kelso would not press the charge, if Kelso would promise to keep away from his wife. This Kelso promised to do, and it was on this condition that he was allowed to go on suspended sentence.

John Miller, proprietor of the Troquois hotel, was charged by Sarah Beilly, with non-payment of wages, amounting to \$4.75. The plaintiff said that she was a chambermaid, and was hired by the month, but that Miller said she did not want to continue in this way, as she might have to leave the city. Mrs. Miller told her that she could quit when she wished, and that she would be paid for her work. She gave due notice that she would leave.

As the evidence of Mrs. Miller is required, and she is at present in New York, the case was enlarged for eight days.

The case of Dr. J. G. Evans, charged with refusing to remove ashes from his cellar, adjourned last Saturday, was resumed.

City Engineer Beckwith testified that there was no drain in the cellar of Dr. Evans' house, and Thomas W. Timms, foreman of streets, said that a new drain was being made into Dr. Evans' cellar.

Constable Arnold said that he examined Dr. Evans' cellar, in company with Mr. McCannion, the sanitary inspector. In the cellar, there was ash, clay and water on the surface. The water tap was broken, and the water was running.

Dr. Evans was sworn. He said that six years ago, he moved into the house at 121 1/2 Wellington street. When he went into the premises, there was a large quantity of earth and other matter on the floor. There was one water tap for four families. The water was not running, and it had become hard, and it had been necessary to place them there to get near the tap. He would be the last one to have anything in the cellar that would be detrimental to health.

A year ago, the board of health had passed a resolution, ordering that his cellar be cleaned out. He received no notice to clean the cellar. No notice was given him until September 17th. Dr. Bell, medical health officer, being called, did not recognize the plan furnished by Dr. Evans, as an entirely correct one, as witness did not remember two distinct cellars, as Dr. Evans spoke of. He said that if the ashes were not there, the water would not be there long. Cross-questioned by Dr. Evans, witness said men had shoveled a quantity of ashes out of the cell to make way for the new drain. Witness could not say who first put in the ashes.

"Will you swear doctor that I put the ashes there," said Dr. Evans.

"I will swear you said so before the board of health," answered Dr. Bell.

P. C. Hughes was the next witness called by the prosecution. He stated that he inspected the cellar, this morning, in company with Dr. Bell. He found ashes on the lawn that had been thrown out of the cellar. It was a solid rock bed from where the ashes had been removed.

In reply to the magistrate, as to who had taken any ashes from his cellar since the time the resolution was passed until the present time, Dr. Evans said that none had been carted away, because he received no notice on the seventeenth and the case was on the nineteenth.

After looking up the by-laws and some cross-firing between the counsel, the case was enlarged for a week. "In that time I expect the cellar to be cleaned out," said his worship.

The next case called was the adjourned one of Mrs. Brown. She said she should "Mr. Shaw's" and yard cleaned and is now ready for the drain. She also stated she would go on with the work on Monday. Mr. McIntyre said the work done was not quite satisfactory, as the sink and water tap drained into the sink, and man named Parks is engaged on the job and he is thought to be incompetent, and a competent man must be secured.

The case was enlarged for another week, and the work must be done in that time.

Henry Playter, charged with being drunk, was fined \$1 and costs or ten days.

FOOTBALL MATTERS.

The Local Men Are Growing in Favor.

Manager A. C. Byers, of Queen's 1 rugby team, arrived in the city, yesterday, to resume his studies. He will get right after the pickup chasers and K.C. men into line next week manager, thinks he can pick a winning bunch, this year, from the student body, if they will only get out and practice.

The players had another good workout, yesterday, and are showing the results of the week's work. The early morning run is of great benefit to the men and all should put in an appearance. College opens on Wednesday next when all the men will be back.

The Limestones had a very good workout last evening at the cricket field. As yet not enough men have put in an appearance to have a good practice, but next week, it is hoped that the boys will get out.

Croquet Tournament.

A single was played in the croquet tournament on Friday, Mrs. Herbert Dawson defeating Miss Helen Fraser.

Made Fair Record.

Pretty Nellie, owned by McCue Bros., secured second place in the 2.22 class at Sandown, on Friday. The mare would have made a better showing, only for an accident.

Yacht Club vs. Crystals.

The team representing the Kingston Yacht Club will play the Capitals, of Toronto, in the roller rink to-night. The Toronto are amateur players, but are the fastest bunch up there.

The teams will line up in the following order:

Y.C.C.—Burton, goal; Wilkinson, point; Strachan, cover; Crawford, rover; Oldrieve, centre; Campion, right wing; Roney, left wing.

Capitals—Bennett, goal; Cowan, K.V.C. rover; Winchester, rover; Griffith, centre; Monteith, right wing; Caslor, left wing.

The local bunch should make a good showing against the visitors. Capt. Guthrie, of the Capitals, is a very fast man, and has played the game for some time. Winchester is one of the fastest hockey players in Toronto, and this pair are the only two on the team that need worry the locals to any extent.

Sporting Notes.

The Toronto Irish-Canadians have named their date, October 25th, for their attempt upon the Hamilton-toledo record. The record is the one hour fifty-two minutes, held by the Central Y.M.C.A. team, made June 20th, 1906.

At Stamford bridge, London, Eng., F. B. Thompson (English) won the London Athletic Club's seven miles walking challenge cup, in 54 minutes 17 seconds, thereby beating the former best on record of 54 minutes 22 seconds, accomplished by Harry Venn thirty years ago. S. L. Sarsby, second, in 57 minutes 30 2/5 seconds.

Hal Walters says that there is no truth in the report that he is going to run Davis and North's relay.

Frederic Shrub, the English pro, is going to be a busy man for the next couple of weeks. Sunday, at Buffalo, he runs Frank Netherick, a return runner at three miles; next Wednesday he meets Davis, the Indian, who ran second to McCaffery the time he made the Boston Marathon record, at five miles. On Saturday, October 25th, he runs John D. Marsh, in Winnipeg, giving him a quarter-mile start in five, and the next week he returns to Toronto, and if the chances are good will run Davis and North's relay.

It is stated that the Montreal Herald had given up the idea broached by the Montreal A.A.A., of holding the Thanksgiving day road race around the mountains under the auspices of the Federation, which assumes to control athletic affairs here, but which had to abandon its own definition before it could hold the race. The Federation would be to ruin the race, which was to be held on the annual road race with any recognition of the Federation would be to ruin the race.

YEAR 74.

TWENTY

Sofia, Sept. 26.—Prince Ferdinand has just celebrated the twentieth anniversary of his accession to the throne of Bulgaria. There were a few fetes in the city, but it is if the prince or people care for their spirit, for the prince is popular, and, if the truth be told, most unhappy, that this day in the old European royalty friends; his own people are him, and he lives in terror of

ination.

The youngest son of the late Augustus, duke of Saxe-Coburg, the good Princess Clementine, a daughter of Louis, he was born in 1861. He was in the Austrian army in 1887. Prince Alexander of Battenberg, and Ferdinand was the position of successor, was promptly accepted. It was to him, the greatest statesman of Europe, and placed the crown on the head of the prince on the 18th of September. It was Stambuloff who turned the tide of revolution and ordered in Bulgaria—the pit of Europe—and placed the crown on the head of the prince on the 18th of September.

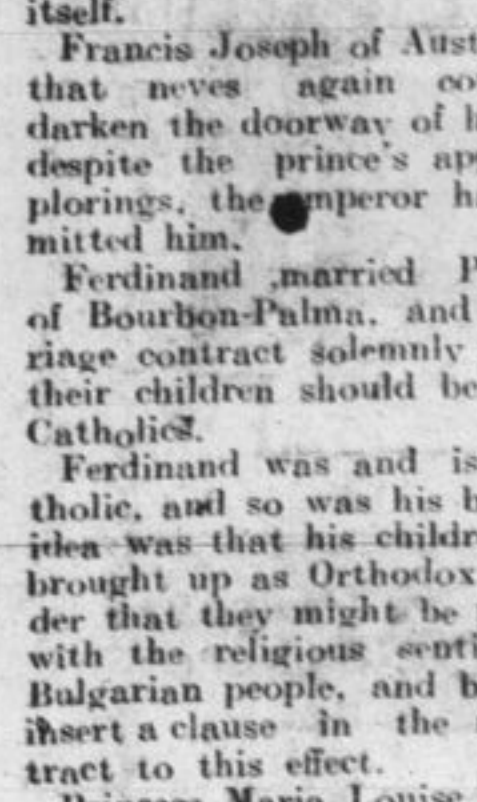

To Stambuloff Ferdinand, anything, and he repaid his base ingratitude. In 1895, Stambuloff was shot, and his death was a great blow to the Bulgarian people, and he was buried in the city of Sofia. There were no arrests, the crime unpunished, for it was the footstep of investigation logically stop only at the ver

Francis Joseph of Austria at that time again could be darkened the doorway of his country, despite the prince's appeals, plorings, the emperor has permitted him.

Ferdinand married Princess of Bourbon-Palm, and in a marriage contract solemnly promised their children should be brought up as Catholics.

Ferdinand was and is a Roman Catholic, and so was his bride, who was a Protestant. She brought up as Orthodox Greek, and that with the religious sentiment of the Bulgarian people, and he proposed a clause in the marriage contract to this effect.

Princess Marie Louise, how
