The post office authorities are demanding a change. By the new G.T.R. time-table, the western mails reach Kingston at 11 p.m., but he usual 1.45 p.m. before a train can bring them to the city. This is outrageous for it means distribution after 2.30 p.m. Better time must be made in handling the mails.

AT THE GRAND.

"The Blue Moon" To Be the Attraction.

James T. Powers comes to the Grand on Wednesday, October 2nd, under the direction of Samuel S. and Lee Shubert (Inc.), presenting the latest international success, "The Blue Moon," which ran for two years in London, and one full year at the New York Casino, with Mr. Powers as the star.

"The Blue Moon" won great success in England, and since its introduction on this side the water, its Americanized version has won equal popularity.

There are some twenty-five musical numbers on the programme, and numbered among them are several which promise to be great popular successes. Naming a few we will find "Why Don't You Take One Little Boy," "Burmah Girl," "She Didn't Know," "Crocodile," "How's Your Luck at Time," "Merry," and a specialty by Mr. Powers and Miss Palmer, entitled, "Popular Entertainments."

The scenes of the play are laid in British India, which offers a wide opportunity to get into the most beautiful and scenic and costume effects, and it is said that the Messrs. Shubert have provided a setting beautiful to behold.

"Six in New York."

"Six in New York" is the title of the new series of comedy adventures that befall our old friend, the funny rural Indiana lass. The play-builder has certainly selected a spot prolific in opportunity to get Six and her friends in any amount of trouble, and this season's offering is said to be just a bit the best and the funniest pep we have had at Six. It comes to the Grand on Saturday, October 5th, matinee and night.

ADMITTED HIS GUILT.

The Varied Career of a Convicted Forger. Claude N. Johnson, who served a term in the Kingston penitentiary, pleaded guilty to a charge of forgery, at Stratford, and was remanded for sentence.

The prisoner had a varied experience, in the past four years. He forged cheques in Stratford, three years ago, and was sent to the penitentiary. Upon his release, some two months ago, he stole a suit of clothes, a pair of shoes and a hat at Kanawville, a town in Western Ontario, where he is now wanted by the police of that place. He was arrested in London, on the forgery charge, and pleaded guilty. He at first denied having taken the clothes, but when the police decided to have a man come from Kanawville, to identify him, he admitted his guilt.

Johnson is only twenty-four years of age, but already his criminal career has been very lengthy.

Painted Stovepipe Green.

City Auditor Miller is on the war-path. He is looking for the person who entered his office at noon, yesterday, when he and the painters were at lunch, and painted half of the stovepipe green. The Auditor says it was a decidedly mean trick, and promises a deal out stern justice to the culprit. He suspects three brother city officials, but is uncertain which is the guilty party.

THE SPORT REVIEW

HALE OF QUEEN'S HAD HIS KNEE INJURED.

May Be Out of Game For Some Time—The Limestonees to Practice This Evening—Larger Turnout Wanted.

Queen's football team had an excellent work out at the campus yesterday afternoon. The students are nearly all here now, and many of them are getting into the game. During the practice Hale, one of the best senior scrummers, met, received a twist to his right knee. The knee was knocked out of joint and the cartilage displaced. He was carried to the gym, where his injuries were attended to, and it is sincerely hoped that the accident will not put him out of the game this season. Norman Crothers was out coaching the team and showed them a few useful tricks of the trade.

Limestonees This Evening. The Limestonees will hold a practice at the cricket field to-night at seven-thirty when everyone is requested to be on hand. Another practice game will be held on Saturday with either Cadets or Queen's. Godfrey Baker, of last year's Queen's team is still in the city and will in all probability appear on Limestone's line-up this year.

He is one of the best all-round men in the game, and in some years will be a good addition to the city team.

The Cadets At Work. Capt. Carson has the cadets at work faithfully every afternoon and they are certainly making rapid strides in the game. A few new men are being tried out, and some of them are reported to be "fits." Their first game is with Queens II a week from Saturday, the same day that Queen's I play in Ottawa.

The Captain Is Out. Capt. Kenneth Mundell, of the Collegiate football team, has completely recovered from the accident he suffered to his ankle while in practice a few weeks ago. "Ken" will likely be in the game at Ottawa, a week from Saturday, when the locals will endeavor to give Ottawa as good a trouncing as they did last year.

Sporting Notes. John Stahl will sue the Washington and Chicago ball clubs and the National commission for not allowing him to play this year.

Ottawa Citizen "Chaucer" Elliott raises a terrible howl if one of the Montreal men fail to turn out to practice. Ottawa needs a man like Elliott in the season closing.

Hans Wagner easily leads the National League in stolen bases. He has more than fifty to his credit already, and expects to pass the sixty mark before the season closes.

Montreal Gazette: "Chaucer" Elliott is keeping right after the boys and making them go the pace, and both the seniors and juniors are showing signs of his coaching.

Stinson, the ex-Hamiltonian, who failed to show up for the final rugby game with Montreal at Hamilton last year, is out with Montreal again, and will probably make the full-back position.

Edward Walsh, the Chicago White Sox pitcher, has made a new record for chances accepted this season, having pulled down 228 of 242 offered him. His accepted chances include 206 assists in fifty games.

Arthur Ross, at present of Brandon, the well-known hockey player, has signed to play during the spring season with the Hampshire Wanderers, of Montreal, and expects to leave in a few weeks for the east.

James O'Kelly, of Pembroke, has bought a California trainer, Charley De Ryler, the cream-colored pacing mare, the Donna, 2:07 1/2, by Atholton. De Ryler will keep the mare in his stable until after the Lexington meeting, and will then ship her to her new owner. The Donna is a game and consistent race mare, and will be a factor at the Canadian meetings next year.

"Bill" Squires, heavy-weight pugilist, who came to the United States with the avowed intention of wrestling the title of pugilistic champion of the world from James Jeffries, went down to defeat for the second time. He was virtually knocked out by Jack "Twin" Sullivan in the nineteenth round of a twenty-five round contest in the Mission street armory, San Francisco.

FIRE BRIGADE THANKED.

For Their Good Work at Steamer Bickerdike.

The fire in the after hold of the steamer Bickerdike, of the Merchants, Montreal & Lake Superior freight line, was got under control about four o'clock, Monday afternoon. The blaze originated in the port side of the after hold, from some unknown cause among some cotton goods. This fire was right in the bottom, and on top was some acid and a large quantity of glass, mostly photographic supplies. It was the fumes from these last two articles that prostrated the fire fighters.

It was only the work of a few moments for the local brigade to extinguish the blaze after some of the cargo had been unloaded, and they could see what they were doing. Capt. Moore thanked the brigade heartily for their work in the fire, saying that only for their timely arrival and quick action his boat might have become the prey of the flames. The cargo was reloaded and the steamer left at midnight for Toronto, where the freight will be discharged and an estimate of the loss prepared.

Fireman Andrew McKee is greatly improved this morning, and is nearly full recovered from the effects of the acid fumes encountered in the hold of the steamer. "Andy" received the worst dose of the hot acid and had to be removed from the scene. The firemen greatly appreciate the kindness of Mrs. Robert Long for the assistance rendered at yesterday's fire. She aided Dr. Bogart in many ways in bringing around the half-suffocated men.

The captain offered work to a lot of men standing around the boat, but, as usual, they would rather stand around with their hands in their pockets than earn a few dollars by honest labor.

Are Rather Scarce. A lake captain, who is in the city yesterday spent a very busy time looking for a cook for his vessel, and it was not before he had done some good hustling, that he was able to fill the bill. It is reported that cooks are very scarce, both in the male and female sex, and the captains on some of the boats have had their hands full, in endeavoring to keep the positions filled. Some become tired of the job after they make a few trips, and there are also some who quit after making their first trip. Others become afraid, especially so when it becomes this late in the season, that good cooks need never be idle during the navigation season. There is good pay, too, but this does not appear to be a good inducement for some.

In Winter Quarters. A large number of the local gasoline launches are being put up for the season. The season has been a most successful one in every way, and the owners of the boats are well pleased. There has been a great sale of gasoline launches the past few months.

Marine Intelligence. Steamer Alexandria was at Folgers' Monday night, on her way down, and took on quite a cargo of general merchandise.

Several schooners on their way to Oswego, cleared last night, after being tied up for a couple of days by the storm.

The tug Emerson, arrived from Montreal, with four light barges, for the M. T. company, and engaged for Montreal, with four grain laden barges to-day.

The steamer Hamilton, down to-night; steamer Dundas, up, Monday, twenty-four hours late; steamer Belleville, up, tomorrow; steamer Aletha, from bay ports, to-day.

The steamer Ottawa arrived from Detroit, Monday afternoon, and entered the dry dock, where she will be examined. The steamer was ashore near Trenton, but no serious damage was done to her hull.

Richardson's elevator, Schooner Ford River, loaded with feldspar, cleared for Charlotte; steamer Morley loaded with corn, from Chicago, expected on Wednesday; steamer Lexington on her way from Fort William, with grain.

Mica Mine Worked By Americans.

United States Consul H. D. Van Sant reports that at Sydenham, Ont., sixteen miles from Kingston, is located the largest mica mine in the world. The product is mostly amber mica, with some silver amber, the highest quality mined. The mine is one mile from the upper end of Sydenham lake, and the mica is transported in bulk from the mine by barge to the railroad at Sydenham, where it is shipped to Detroit, Monday afternoon, and enters the dry dock, where she will be examined. The steamer was ashore near Trenton, but no serious damage was done to her hull.

The Charge Withdrawn. Three weeks ago at Chatham, William J. Strong, aged thirty, of Detroit, a former agent of the Commercial Telegraph company, was arrested on the charge of having embezzled \$393.75, some time between July 8th and 16th. He was admitted to bail. The case came up on Saturday, but was dismissed, the complainants withdrawing their charge. There was no criminal offence, the case being purely of a civil nature, with the proceedings simply between the parties. Mr. Strong is a former Kingstonian.

Effects Of Poor Year.

Milk has advanced to seven cents per quart by dealers to-day. Bran has advanced in price from \$10 to \$24 and may bring in \$8 to \$15 since spring.

No Police Court To-day.

For the first time in several days, there was no session of the police court, this morning. For the past week or so, business has been very brisk in police circles, one day there being no less than ten cases before Magistrate Farrell.

Students Arriving.

Nearly every train arriving in Kingston these days, brings students for Queen's. The members of the mining class, who have been at Bedford mines the past few weeks, have returned. Prof. McPhail was in charge of the party, and they report having had a most profitable time.

All Football Players.

TWENTY YEARS AGO

THE CITY TOOK OVER THE WATERWORKS.

A Comparison of Then and Now—The Rates are Now About One-Quarter of What Was Charged in 1887.

It is just twenty years since the city took over the waterworks plant. The growth of the water service in that time can be shown briefly by a few figures:

In 1887 there were 900 consumers. Now there are about 3,850.

In 1887 there were 226,273.355 imperial gallons pumped. In 1906 there were 756,101,000.

In 1887 there were ten miles of main pipes in use. Now there are thirty-one miles.

In 1887 there were 42 hydrants. Now there are 237.

In 1887 there were 1,100 services; now over 3,400.

The revenue from water rates in 1887 was \$24,153.41. Since that time the rates were reduced 20 per cent. in 1888, 25 per cent. in 1890, 15 per cent. in 1895, and 12 per cent. in 1899. With these reductions the revenue is now about \$37,000.

The working expenses in 1887 were \$8,446.65. Now they are \$13,146.48. The total ordinary expenditure in 1887 was \$17,564.65. Last year it was \$30,553.73.

In 1887 the average water rate for each taker was \$26.83. Now it is \$9.68.

Since 1887 about \$200,000 has been spent on new mains and service pipes. Fuel cost \$2,480.20 in 1887. Now it costs only \$3,386.15.

In 1887 the city paid \$1,575 for hydrant supply. Now it pays \$6,750.

The present debt on the waterworks amounts to \$230,900. It will take twenty years to pay this.

Thomas Hewitt was appointed superintendent in 1887, and still retains that position.

Waterworks' Committee.

The waterworks' committee met yesterday afternoon with Alderman Carson (chairman), Rigney, Henderson, Siddle and Craig in attendance.

A dispute with the Canadian Oil company as to the quality of oil supplied for the pump house was referred to the city solicitor for report.

The committee agreed to pay one-third the cost of the adding machine which has been of great benefit to the treasury and other departments.

The coal contract of James Swift & Co. will be paid according to the bills of lading, if the city solicitor approves.

The petition of W. Randall for a water main on John street was granted.
