COMMERCIAL MATTERS.

What is Going on in the Business World—The Markets.

Cheese exports from Montreal up to Sept. 29th, 1,347,308; over 200,000 less than 1906.

From April 29th, to August 31st last, 26,000,000 bushels of wheat were carried from Port Hudson and Port Arthur, 52 vessels.

In 1906 New Zealand exported 27,779 tons of hemp, of which United Kingdom took 21,438 tons and the United States 5,622 tons.

In 1907, according to the bureau of statistics, the production of cotton in this country has increased from 155,556 bales to 11,345,988 bales.

The export receipts for the dominion for the six months since March amounted to \$11,412,135, which is an increase of \$4,418,200 at the last year.

The Chicago, Burlington & Quincy will pay in dividends in December \$8,000,000, the Union Pacific \$6,878,561, the Canadian Pacific \$5,115,000, and the Great West \$4,040,000. The Southern Pacific will make a dividend distribution of nearly \$2,000,000. The New York Central \$2,685,000, and the Rock Island \$1,300,000.

The United States will produce in the current calendar year approximately 27,000,000 tons of all classes of pig-iron, which will compare with 16,497,000 tons produced in the year 1904, and 18,099,000 tons produced in 1905.

The production this year will represent an increase of nearly 65 per cent., as contrasted with 1904, the largest increase reported in any similar period in the history of the iron and steel industry.

The Wall Street Journal notes that Canadian lumber limits are being looked up extensively by American manufacturers, as suitable wood for pulp-making purposes in the United States.

Some of the mills are contemplating turning up Canadian trade, but the Journal says they will probably have to grind their pulp in Canada, as there is a good deal of opposition developing in the exportation of pulpwood.

It is estimated by a competent authority that the surplus of the United States Steel Corporation for the current calendar year available for dividends will represent about 15 per cent. earned in the common stock. It is paying 2 per cent. on the preferred stock.

The net earnings for the year 1907 promise to be in the neighborhood of \$100,000,000, or \$2,000,000, or so in excess of 1906. About \$33,000,000 so far this year has been set aside for construction and most of the surplus will go that way.

THE R.M.C. FIELD DAY

RESULTS OF THE CONTESTS THIS MORNING.

Craig, of Queen's, Won the Half Mile Race—A Cadet Disqualified in the Broad Jump For Stepping on the Board.

The annual athletic sports of the Royal Military College began this morning, before a large and fashionable audience. These sports are all ways of the best and this year is no exception. Half the events were run off this morning, and were all keenly contested.

Sergt. Adams, who won the half mile race, will likely be again this year, as he was ahead at the close of the morning contests.

The following events took place this morning:

100 yds. race—Sergt. Adams, 1st; Bell-Irving, 2nd.

1/2 mile race (open to Queen's)—Cadet Watts, 4 minutes and 43 seconds; Orr, Queen's, second.

Throwing cricket ball—Sergt. Adams, 287 ft; Cadet Lawson, 2nd.

Hop, step and jump—Sergt. Adams, 40 feet; Cadet Danvers, 2nd.

Hundred yards dash, semi-finals—Sergt. Adams, 1st; Cadet Adams, 2nd; McKenzie, Cadet Hilliard, 3rd.

100 yds. preliminary, teams of six—"C" Co. defeated "B" Co. and "D" Co. defeated "A" Co. "C" and "D" will pull this afternoon.

The best event was the running long jump, given to McKenzie, who jumped 17 feet 10 inches, with Sergt. Adams, who jumped 17 feet 8 inches, second.

Each contestant was given three trials, in one trial Sergt. Adams, in jumping, stepped, not over, but on the board, and jumped 15 feet 4 inches. The line judge disqualified him for putting his foot on the board.

The boys did not care much for the decision given, as the sports are run under the C.A.A.U. rules, and these rules say that a man may put his toes on the board as long as his foot does not go in the pit.

Putting the shot—Cadet Parr, 28 feet 3 1/2 inches; Cadet Bengowd, 27 feet 8 inches.

Craig, Queen's representative, won the half-mile race in fine shape, covering the distance in 2 minutes and 1 second.

After the close of the contests this afternoon, the prizes will be awarded the winners by Mrs. Taylor, wife of the commandant.

Bankers vs. Advertisers.

In discussing the question of advertising recently, a banker declared that it was beneath his dignity to advertise, that while it was undoubtedly the proper thing for commercial houses, it was clearly infra dig in reference to a bank. There are four exchange managers and one paying teller in the Kingston penitentiary. A small pamphlet once regularly printed in the Iowa State penitentiary has been discontinued, because there was not a printer to work on the publication. At the same time, the institution held over twenty bankers, and four more were on their way. It makes one smile when a banker speaks of newspaper advertising as infra dig.

JUMPS INTO FALLS

LEFT NOTE SAYING HE STOLE FROM COMPANY.

Writes That He Took Money For Two Women, One a Girl and the Other An Actress—Police Are Investigating.

Niagara Falls, N.Y., Oct. 2.—A Buffalo bank defaulter is supposed to have committed suicide by jumping into the Falls from Luna Island. A reservation officer found a man's coat on the island, in the pocket of which were letters, one to the coroner, the other to a woman in Buffalo.

The letter to the coroner read: "Don't take the trouble to try to identify my body, if it is found. I stole from a Buffalo trust company by falsifying my accounts. I took the money for two women, one a girl, the other an actress; but they did not know I take this means of ending the trouble, for my folks would not want to bury a thief. Don't bother the woman."
