

### From Trapper To Wearer Direct

The raw skins come to us direct from the trappers, are dressed and made up in our establishment and represent but one step from trapper to wearer.

This Store holds first place by having no doubt whatever about its furs. This business is not dependent on facts furnished by manufacturing factories—our knowledge is of the furs themselves. We avoid worry by handling only such furs as we can thoroughly recommend.

Buying furs is a matter that requires good judgment and careful selection, and ought never to be hurried. Direct dealing with us as manufacturers makes us directly responsible to you. You run no risk at all if you come to the right store.

## HE SLEW HER

### His Gold Teeth Gave Him Away.

## BODY IN A TRUNK

### WAS THE REMAINS OF GERTRUDE DAYTON.

Murder Charge at Hong Kong—Chinaman Said the Robber Who Unlocked Safe Was "the Man With the Golden Teeth."

Hong Kong, Oct. 7.—The body of a woman, later identified as Gertrude Dayton, was found in a trunk on board the Royal mail C.P.R. steamer Montague, and H. Adsets, formerly a sergeant in the American legation guard at Peking, has been arrested, charged with murder. The circumstances of the killing are shrouded in mystery and the forthcoming trial of the suspect is expected to be one of the most sensational cases brought before the criminal tribunal here in recent years.

The woman apparently was strangled. The circumstances surrounding the case will not be disclosed before the preliminary trial of Adsets, but it is believed that robbery was the motive. Adsets, when arrested at Chafso had \$2,400 in gold and several valuable jewels. A Chinaman said that Adsets, the man with golden teeth, had unlocked a safe in Hong Kong.

The seven golden teeth of Adsets brought the police first on the track of the alleged murderer.

### BACK TO THE OLD FIGURE.

That is Where Text Book Prices Will Go.

Athens, Oct. 7.—Will the reduced prices for public school readers last only until after the coming provincial elections?

Hon. A. G. Mackay, the leader of the liberal party, thinks such will be the case. In an address here in the interests of Mr. Lewis, the liberal candidate in the forthcoming by-election, the government announced leader of having let the present contract for the production of school text books in an amount to a trial of the experiment.

Mr. Mackay said, had declared that when the present contract expired the people would probably have a new set of readers and that when the quality of the books was placed where it should be, their prices would be back at the old figure.

### KAID MACLEAN'S RELEASE.

Seems Possible—Britain Will Give Ransom.

Tangier, Oct. 7.—The release of Kaid Sir Henry Maclean, who for some time has been held captive by the bandit Raisuli, at least seems to be within measurable distance. It is stated, on the best possible authority, that the British government has accepted Raisuli's reduced terms for Maclean's release, the principal items being \$150,000 ransom and British protection for Raisuli and his family. Great Britain's advance of the ransom will be guaranteed by Sultan Abd el Aziz. Sir Henry Maclean's brother is now at Rabat, bringing the negotiations with the sultan to a close.

### A FLOOR COLLAPSED

And 150 Fell Into Cellar—Lamps Exploded.

Waterbury, Conn., Oct. 7.—During a national rally in the North End Athletic club rooms, last night, the floor collapsed, precipitating 150 men into the cellar of the building. By the explosion of a lamp the building was set on fire, and the crowd of men struggled in the flames and debris almost helplessly. Several persons were injured, one perhaps fatally.

### Killed By Disappointment.

Paris, Oct. 7.—According to the Petit Journal, M. Coez, a retired major, seventy-four years of age, who was at one time mayor of Elincort, Nord, has been killed by disappointment.

Despite his many years, he was very active, and while out shooting a day or two ago he wounded a hare, which another shooter managed to kill at the very moment, M. Coez thought he would secure it.

So keen was the disappointment of the major that he fell to the ground, and every effort to bring him to consciousness was in vain.

### Roosevelt Honored.

The Hague, Oct. 6.—In the final act of the peace conference it was decided that President Roosevelt shall be mentioned, first, in the introduction of the act as the summation of the conference, the names of the Emperor Nicholas as its convoker and Queen Wilhelmina as its hostess following.

In addition, President Neidoff in his speech at the last plenary sitting of the conference will refer to President Roosevelt's efforts in behalf of peace.

### London Landmark Reappearing.

London, Oct. 7.—Another historic London landmark, Barnard's Inn, in Holborn, will close its doors on Monday. The house was the Red Lamp of "Barnaby Rudge," and many men whose names are now historic, have forgotten in the old parlor behind the bar.

## THE APPEAL

### Is To Be Issue Re House of Lords.

### IS VERY ARROGANT

### AND MAY BE IN SACKCLOTH AND ASHES.

Certain Bills Passed by the Commons to Go Before the House of Lords Again—and if Rejected Then the People Will Be Asked to Decide the Issue.

Edinburgh, Oct. 7.—Premier Henry Campbell-Bannerman returned to the attack on the House of Lords, Saturday evening, when in an address before a gathering of Scottish liberals, he reviewed the measures that had been rejected by the House. He dwelt with vehemence upon what he called the arrogance and high-handedness of the Lords and said he hoped to see them in sackcloth and ashes before another session had gone by. It was the intention of the government to send certain bills back again to the House of Lords, after their passage by the House of Commons. Whatever the result, the premier said he believed that, on the main issue, the government must ultimately go to the country and he knew it would not appeal in vain.

### STOP LEGACY FAKE.

Request of Canadian Postoffice Department.

Ottawa, Oct. 7.—The Canadian post office department has written to Washington requesting the postal authorities of the United States to take such steps as are necessary to put an end to the legacy fake which is being worked for an alleged lawyer's office in New York.

### OVERSUPPLY OF WHISKY.

Enough Scotch on Hand to Last Four Years.

London, Oct. 7.—It has been decided to call a meeting of the Highland malt whisky distillers to endeavor to come to an agreement with the view of advancing prices during the forthcoming distilling season.

Owing to the great increase in the price of coal, amounting all round to fully 100 per cent., and the high price of barley as a result of the sunless summer, working costs have been raised to a point which leaves little or no margin of profit.

It is fully recognized that the difficulties in the way of advancing prices are very great, in view of the fact that there are too many producers and that the stocks already in bond are overabundant.

### CHILD'S AWFUL DEATH.

Little One Played With Fire—Clothes Ablaze.

Belleville, Oct. 7.—A fatal burning accident occurred in Murray township at the home of S. B. Yarrow. Mrs. Yarrow had made a fire in the stove and then went into a neighbor's to borrow a saucepan. While she was away her child, a boy, played with the fire and ran out with his clothes ablaze. A neighbor put the fire out, but the child died six hours later.

### Highly Increased Cost.

New York, Oct. 7.—The increasing high cost of doing business is becoming a vital matter in net earnings, for they are gradually, but surely, diminishing. Such a situation almost invariably marks the turn of the tide.

In July the results which furnished returns showed an increase in gross earnings of \$18,500,000, yet over \$16,000,000 was absorbed by increased expenses. Figures for seven months of the year show a gain of nearly \$111,000,000, of which \$93,000,000 was consumed by increased expenses, leaving less than \$18,000,000 increase in net earnings.

### Insured Against War.

London, Oct. 7.—The interpretation which Europe places on the policy of sending the American battleship fleet to the Pacific has received its first practical application. A large steamship, flying the Japanese flag, sailed from Antwerp, yesterday, to join the fleet from San Francisco to Japan, insured, with its cargo, against war risks, the shippers having notified the owners of the vessel that they would withdraw their shipments unless this was done.

The English cricketers sailed for home from Quebec on Saturday. Watson, a Toronto man, wanted by the police, was arrested in Quebec.

### Forfar Facts.

Forfar, Oct. 3.—John Russell, Delta, was in the village recently. N. Mattingly, the Japanese flag, sailed from Antwerp, yesterday, to join the fleet from San Francisco to Japan, insured, with its cargo, against war risks, the shippers having notified the owners of the vessel that they would withdraw their shipments unless this was done.

E. Barker has returned to Kingston, to resume his studies. Miss Davis, our school teacher, will attend the teachers' convention, in Elgin.

### White Slave Traffic.

Washington, Oct. 7.—Secretary Strauss, of the department of commerce and labor, and Francis P. Sargent, commissioner-general of immigration, have determined to eliminate the "white slave" traffic from the United States, if possible.

They have determined to round up all alien immoral women in large cities and those who have not been in the country three years, and were brought in illegally will be deported, if possible, those responsible for their presence in America punished.

### Clifford Shelton Killed.

Ottawa, Oct. 5.—The mangled body of Clifford Shelton, a resident of Harlow's Bridge, was found on the C.P.R. bridge over the Rideau river, quite near where the young man made his home. Only four months ago Shelton's brother, Henry Clifford, was killed and within half a mile of the spot where today's fatality occurred.

### World's Only Woman Jailer.

Geneva, Oct. 7.—Swiss justice has been the only woman jailer in the world. She is Mme. Porchet, "governor" of the jail at Aigle, in the Rhone Valley, for seventeen years. The jail has been a model of efficiency, and its inmates range from a month to two years' imprisonment.

## LONGS FOR PRIVATE LIFE.

### Business Interests Require His Personal Attention.

Berlin, Oct. 7.—Ambassador Tower has taken President Roosevelt, calling that he be permitted to retire from the diplomatic service next spring.

Tower's reasons are understood to be that having been abroad for

## LEVEL JAPS

### Are Pouring Into the United States.

### IS TO BE STOPPED

### EXTRAORDINARY MEASURES TO BE ADOPTED.

Not Only Japanese, But Other Asiatics Are to Be Kept Out—Big Increase of Inspectors Along Canadian Border to Keep Out the Coolies.

Washington, Oct. 7.—Immigration of Japanese into America is increasing at so alarming a rate that it has been determined by the United States government to adopt extraordinary measures to prevent the introduction into the United States, not only of Japanese, but also of other Asiatic coolie laborers. One result of the fact that there is distinction in the department of commerce and labor, along the Canadian border and the Pacific coast, has been an order increasing the force of immigration inspectors along the Canadian border, with a view to controlling, if possible, the flood of Asiatic immigration into this country.

### SCARES THE BURGLAR.

Tin Horn Used to Good Advantage.

Watertown, N.Y., Oct. 7.—A loud blast from a tin horn, in the hands of Amelia Harris, an invalid at Sackett Harbor, last Wednesday night, proved a most effective burglar alarm and saved her home from being ransacked.

An ordinary occasion, the horn is used to call neighbors in case of illness.

The other day Mrs. Margaret Crimmins paid a visit to the harbor as the guest of Mrs. Harris. Mrs. Crimmins carried a roll of bills with her, something like \$100 in all. She carried the roll in a satchel. The women were alone and, about midnight, a man came to the window. She reached for her horn and awaited developments. A moment later and a pane of glass was smashed, and the burglar was seen to reach for the window. A terrific blast came forth. The burglar did not stop to listen for further sound.

Neighbors who heard the horn got out of bed and searched the streets without discovering the would-be house breaker.

### WOULD DIE FOR SON.

Mother Confessed Murder Then Tried to Kill Herself.

Detroit, Mich., Oct. 7.—Impelled by mother love and a desire to shield and save her son, Mrs. Minnie Chadwick has made a remarkable confession in the woman says she shot and killed her husband, Charles Chadwick, a mill foreman, whose body was found in the rear near his home ten days ago.

Footprints near the body and other circumstances led to Chadwick's long confession, being suspected of the murder, and he is under arrest. In a written confession, Mrs. Chadwick says she shot her husband with her son's revolver, because he abused her. She says she put on a pair of the boy's shoes, followed her husband down the road and killed him. After writing the confession she tried to commit suicide, but a deputy burst into her room in time to take the revolver from her.

### A REMARKABLE LAUNCH.

Bow of a Ship Takes to Element at Belfast.

Belfast, Ireland, Oct. 7.—A most remarkable launch occurred here, this morning, when the new bow built for the new White Star line steamer, Suez, to replace the one left on Stagrock, near the Lizard, March 17th last, slid into the water. The Suez, during a fog, ran on the rocks and after a long and ineffectual attempt to refloat her, the salvagers cut away her forepart, refloated the rest of the ship and towed it to Southampton, where it is now in dock and ready to receive the new bow.

### "White Slave" Traffic.

Washington, Oct. 7.—Secretary Strauss, of the department of commerce and labor, and Francis P. Sargent, commissioner-general of immigration, have determined to eliminate the "white slave" traffic from the United States, if possible.
