### Nervous Women

Their Sufferings Are Usually Due to Female Disorders Perhaps Unsuspected.

#### A MEDICINE THAT CURES

Can we depict the well-known fact that Canadian women are nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly," or, "Don't speak to me," "Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children."

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or melancholy and irritability are easily affected; so that one minute she laughs, the next minute weeps. Pain in the abdominal region and between the shoulders; loss of appetite, indigestion and peevishness; a tendency to cry at the least provocation—all this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Miss Leah Stowell, of 177 Wellington St., Kingston, Ont., writes:

Dear Mrs. Pinkham—

"Your Medicine is indeed a Godsend to suffering women, and I only wish that they all knew what it can do for them and that they would be so bold of their dragging out miserable lives in agony. I suffered for years with bearing-down pains, extreme nervousness and excruciating headaches, but a few bottles of your Vegetable Compound made life look new and promising to me. I am light and happy and I do not know what sickness is, and I have enjoyed the best of health now for over four years. Lydia E. Pinkham's Vegetable Compound has sent sunshine into thousands of homes and hearts."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you can not wish to remain sick and weak and discouraged, exhausted each day, when you can be so easily cured as other women.

### HOLDING ITS OWN

THE LIBERAL GOVERNMENT RETAINS CONFIDENCE

Of the People of Britain—J. Allen Baker Has Long Stood For Peace—Municipal Ownership is a Success.

Montreal, Oct. 5.—That the Campbell-Bannerman administration is more than holding its own in the estimation of the people of Great Britain, is the opinion of J. Allen Baker, M.P. for East Finchley, who is on a visit to Canada. Mr. Baker points to the recent bye-elections as evidence and confirmation of his opinion as to the strength of government, and he feels that the confidence of the electorate in the government is fully deserved.

"The government may not have been able to carry several of its important measures, owing to the opposition of the House of Lords," he said, "but on the other hand, it has succeeded in putting upon the statute books a very large number of laws that will have a direct bearing upon the welfare of the people. It may not be as an orator compared with other leaders of the liberal party in times past, but in ability to secure the passage through parliament of constructive legislation."

of great importance, I think he has few equals."

Mr. Baker is a Canadian, having been born near Belleville, Ont., but some thirty years ago he went to London, where he has been exceedingly successful in business. For twelve years he was a member of the London county council, and is now serving his second term in the house of commons. He has identified himself closely with all movements tending in the direction of international peace, and is strongly of the opinion that Britain should set an example to the nations of Europe by reducing her expenditures upon the army and navy.

He holds that the policy of building huge iron-fishings has simply created the spirit of emulation among the other nations, and that the discontinuance of this policy would lead these other nations to refrain from continuing their wasteful expenditure on their navies.

As chairman of the tramways committee of the London county council, Mr. Baker had much to do with the municipalization of the tramways in both North and South London, and with their subsequent electrification. He claims that the results, despite certain statements to the contrary, have been eminently satisfactory. In fact, Mr. Baker is one of the warmest advocates of municipalization of all public utilities. He claims that in his own electoral district the death rate has been reduced from forty-five per thousand to fifteen, as a result of the municipality undertaking to substitute well-built sanitary dwellings for tenements that have long constituted disease-breeding slums.

The Council Ashed For All Injunction in Case.

Hamilton, Oct. 7.—Jacob Sunfield, the foreigner who is to be tried at the assizes this week on a charge of murdering Andrew Rodsyk, has been so sulky during his confinement that the jail authorities refuse to take a chance on shaving him. But J. L. Connell, who is to defend him, wants him to have a clean shave before he appears before the court. As morning he made a motion, before Judge Monck, for an order for some person to go into the jail and shave him. The judge said it was beyond his power and referred Mr. Connell to the trial judge.
