**Style and Service**

Some men put correctness above  
everything else. They want  
stylish garments—first, last and all  
the time.

Other men make quality their  
only consideration. They demand  
wear, without much regard for  
fashion.

At steadily increasing number of  
style and service in Fit-Reform  
here is the Fit-Reform label,  
in every Fit-Reform Suit and  
\$15. up.

JENKINS

Kingston, Ontario.

**Gas and Coal**

One range for both  
summer and winter—  
is in the summer and  
al in the winter—how's that?  
The PERFECT IDEA  
range is fitted at the back  
with gas burning rings. On  
a hot summer day, you can  
have a fire going with a single  
h; and in the winter  
the gas attachment  
not interfere with the  
of your range for coal  
food.

the PERFECT IDEA—the only  
on which the gas attachment is  
found—takes the place of two  
es.

sables and gloom in your conversation.

**Synopsis of Canadian Northwest  
HOMESTEAD REGULATIONS.**

Any event, homestead section of Dominion  
lands in Manitoba and the North-West Pro-  
vinces, excepting 3 and 26, not reserved, may  
be homesteaded by any person the sole head  
of a family, or male over 18 years of age, to  
the extent of one-quarter section, of 160 acres,  
more or less.

Application for homestead entry must be  
made in person by the applicant at the office  
of the local Agent or Sub-Agent. Entry by  
proxy may, however, be made on certain con-  
ditions by the father, mother, son, daughter,  
brother or sister of an intending homesteader.

An application for entry or inspection made  
personally at the office of the local Agent or  
Sub-Agent, and if the land applied for is  
not on receipt of the telegram such applica-  
tion is to have priority on the land will be held until the necessary pa-  
pers to complete the transaction are received  
by the local Agent or Sub-Agent.

In case of "personation" the entry will be  
summarily cancelled and the applicant will  
forfeit all priority of claim.

An application for inspection must be made  
in person. The applicant must be eligible  
for homestead entry, and only one application  
for inspection will be received from an indi-  
vidual until such application has been dis-  
posed of.

A homesteader whose entry is in good stand-  
ing and not liable to cancellation, may, sub-  
ject to approval of Department, release the  
land in favor of father, mother, son, daughter,  
brother or sister, or in favor of any other  
person, on being declaration of abandonment.

An entry is summarily cancelled or  
voluntarily abandoned, and the applicant  
for cancellation proceedings, the applicant  
for inspection will be entitled to priority  
of entry.

Applicants for inspection must state in  
what particulars the homesteader is in default,  
and if subsequently the statement is found to  
be incorrect, in material particulars, the ap-  
plicant will lose any prior right of re-entry  
should the land become vacant, priority being  
then granted it may be summarily can-  
celled.

Duties—A settler is required to perform the  
conditions under one of the following plans—  
(1) At least six months' residence upon  
cultivation of the land in each year dur-  
ing the term of the lease.  
(2) If the father (or mother, if the father  
is deceased) of a homesteader resides upon a  
farm in the vicinity of the homestead, the  
settler must give six months' notice in writ-  
ing to the Commissioner of Dominion Lands  
at Ottawa, of his intention to do so.

**QUEBEC UNDER FRENCH**

STATE OF PROVINCE WHEN CAP-  
TURED BY GEN. WOLFE.

Fortifications Were Good—Grain Im-  
pressed For King's Service—Civil  
Authorities Cheated Both King and  
People — Fisheries Neglected—  
Monopolies Had Disastrous Effect  
—Four Classes.

A valuable historical manuscript,  
the report of Gen. Sir James Murray,  
at one time Governor-General, to the  
British Government, regarding the  
state of government in Quebec in  
1763 had been purchased in England  
by the Toronto Public Library. The  
report is dated June 1763, and is the  
result of a request for the informa-  
tion from the Secretary of State,  
made on the 12th of December, 1761.

One hundred pages of foolscap, neatly  
written in Murray's own  
handwriting, tell of the state of Que-  
bec immediately after its capture by  
Gen. Wolfe.

To inform Commissioners.  
It is proposed that the report was  
required in order to furnish with in-  
formation the commissioners who were  
to attend the treaty of peace of  
1763 to settle the difficulties which  
arose between Great Britain and  
France.

A proposal had been made to hand  
Canada over to the French and re-  
tain the Gaspere Islands instead,  
as it was thought that the latter ter-  
ritory would be more profitable, and  
it was probably in order that the com-  
missioners might form correct views  
on this question that the report was  
made.

Contents of Report.  
The report constitutes ten sections  
under the following heads:  
1. Return of His Majesty's forces in  
his Government and dependencies  
thereof.  
2. The state of the fortifications.  
3. State of the Government under  
the French administration.  
4. Revenue and expenditure under  
the French administration.  
5. Church government.  
6. Indian nations residing within  
the Government.  
7. Nature of the soil and its pro-  
duce.  
8. The population.  
9. The trade.  
10. Character of the people.

Gen. Murray takes some space to  
tell of the fortifications, saying that  
they were advanced owing to the  
irregularities of the slopes. The en-  
trance of Quebec, he says, was very  
large, and that it would take a large  
force to defend it.

Government of Province.  
Speaking of the French Govern-  
ment, he says that the Governor-Gen-  
eral was chief in all military and in-  
tendant in all civil affairs. Justice,  
police and the finances were under  
the immediate supervision of the  
province was under laws consisting  
of the edicts of the King, orders of  
the Council of State, and the in-  
terdicts of the Pope. The age of ma-  
jority was 25, but upon marriage at  
15 letters of emancipation were issued  
entitling the holders to enter im-  
mediately into the exercise of their  
movables and incomes of their  
estates.

Lead to Abuses.  
Under the French administration  
the church government at that time con-  
sisted of a dean and 12 canons, who  
provided, and Gen. Murray observes  
that this was liable to lead to abuses.  
The inhabitants who produced grain  
were often wrongfully taxed upon it  
to furnish grain for the soldiers, and  
this was often shipped to the  
French island and sold. In case of  
famine the grain was sold back to the  
people who supplied it at a much  
higher price.

The system of bookkeeping was so  
bad, the general says, that the reve-  
nuers and expenditure were so mixed  
that it was almost impossible to sepa-  
rate them.

The civil authorities neglected their  
duty because of the small salaries  
paid to them. They were en-  
riched themselves by cheating both  
the King and the people.

Church Government.  
The Chapter of Quebec, or the  
church government at that time, con-  
sisted of a dean and 12 canons, who  
drew their income from the abbey  
in France, and had a supplementary  
bonus given them by Louis XIV. The  
religious orders were a source of re-  
quirements, the Recollets, the Seminary  
of Quebec, under the direction of  
the secular clergy, the Convent of the  
Hotel Dieu, of Quebec, where the sick  
and the poor were looked after by a  
number of nuns, the Convent of the  
Urulines, a cloistered institution de-  
voted to education of ladies, the  
Convent of the Congregation, a simi-  
lar institution, although not cloistered,  
and the General Hospital, near Que-  
bec, under the direction of 33  
nuns.

Neglected Agriculture.  
The country was rich, and grain and  
produce were raised without any diffi-  
culty. The inhabitants, however, pre-  
ferred the gun and the robe to tilling  
the soil, and they neglected to raise  
any more grain than was necessary  
for their own consumption. The  
monopolies also had a disastrous ef-  
fect at the time, being the means of  
having inhabitants sent on duty to  
different points, so that they could  
profit by their absence.

The country was rich in mines and  
valuable mineral springs, which pro-  
mised to be of great value to the  
country.

Indian Nations.  
The Indian nations residing within  
the Government were known as the  
savages of the north shore and those  
of the south shore. The north shore  
Indians were the Esquimaux, the  
Montagnais and the Hurons, the lat-  
ter being more civilized than the  
others. The ones on the south shore  
were the Micmacs, the Kanibas, the  
Malécites and the Ojibwas.

The people were divided into four  
different sets; the gentry, or what  
was called nobility; the clergy; the  
merchants, and the trading part of the  
population, the peasantry or what was  
styled the "habitants."

**THIS IS WORTH SAVING.**

Put it in Safe Place For it May  
Come Handy.

Here is a simple home-made mixture  
as given by an eminent authority on  
kidney diseases, who makes the state-  
ment that it will relieve almost any  
case of kidney trouble if taken before  
the stage of Bright's disease is reached.  
It states that such symptoms as lame  
back, pain in the side, frequent desire  
to urinate, especially at night, pain-  
ful and discolored urination, are easily  
overcome. Here is the recipe; try it:

Fluid extract dandelion, one-half  
ounce; compound Kargon, one ounce;  
compound Syrup Sarsaparilla, three  
ounces. Take a teaspoonful after each  
meal and at bedtime.

A well-known local druggist is au-  
thority that these ingredients are all  
harmless and easily mixed, and that  
shaking well in a bottle. This mix-  
ture has a peculiar heating and soothing  
effect upon the entire kidney and  
urinary structure and often overcomes  
the most obstinate cases of kidney  
trouble. It is a most valuable remedy  
for a little while. This mixture is said  
to remove all blood disorders and cure  
the rheumatism by forcing the kidneys  
to filter out of the blood the uric acid,  
and system all uric acid and foul, de-  
composed waste matter, which cause  
these afflictions. Try it if you aren't  
well. Save the prescription.

**THE TESSERGRAPH.**

Invention to Check Sales of  
Tickets.

A machine called the tessergraph  
for doing away with the necessity for  
printing in advance the thousands of  
various kinds of railway tickets, is  
the invention of Roberto T. Piscicelli,  
of Florence; it also automatically re-  
gisters the amounts cashed. Each tick-  
et is printed separately by a machine  
from a slip of check paper, all the ne-  
cessary particulars such as station  
names, date, price, class, etc.—being in-  
serted; and on a second paper strip  
within the machine is printed, as a  
cheque, a duplicate of the ticket sold.  
The money values of the tickets issued  
are totalized according to classes  
and series. A machine constructed for  
the Naples-Rome line can print and  
register 400 different kinds of tickets.  
The various mechanisms are interlock-  
ed together, and no tickets can be is-  
sued until the inspector in charge, upon  
opening the office in the early  
morning, has freed the machine and  
brought all the totals back to zero.

**The Progress of Canada.**

New York, Oct. 12.—From time to time we have  
commented on Canada's economic pro-  
gress, the growth of her foreign com-  
merce and the development of her pro-  
ductive industries. In many ways her  
pace during the last ten years has  
been more rapid than that of the United  
States. Unless there shall occur  
some unforeseen catastrophe, which there is  
to-day neither sign nor hint, her pro-  
gress during the next ten years will  
far outstrip that of the last ten.

**And the Farmer Was Greatly  
Humiliated.**

Martin Beck, a farmer on the Con-  
sawgo Hills, is humiliated to admit  
that three of his geese went on a dis-  
graceful spree after having eaten some  
pulp from a cider mill.

Sometime after eating of the pulp,  
the peculiar action of the fowls at-  
tracted the attention of the farmer.  
They swayed from side to side and  
cackled hoarsely. Finally one by one  
they fell limp and lay motionless.

Mrs. Beck carried the fowls into the  
house, with the intention of plucking  
them, when they revived.

Since then the geese have kept away  
from the cider mill, and have tried to  
prevent other geese from going near it.

**Jas. Schrum of Dartmouth  
Makes Valuable Discovery**

Says the Most Obstinate Case of  
Stomach or Liver Trouble is  
Quickly Curable.

Dartmouth, N.S., Oct. 12.—There is  
a moral in the statement of  
James Schrum, of Pleasant street.  
Like thousands of people, he was  
failing in health because his stomach  
and digestive organs were out of re-  
quirement. His vitality was slipping away,  
he was losing ground every day.

"I could not have held on much  
longer. I was wasting away simply  
because my stomach was out of re-  
quirement and strength to my stomach  
that it craved food. The vital forces of  
my system seemed dead. I was ad-  
vised to try Dr. Hamilton's Pills.  
What had they working they searched  
out I don't know, but in a miracu-  
lous way they have made a new man  
of me. My stomach troubles are cured,  
rich blood now runs through my  
veins, they have renewed my vitality,  
evidence of health and vigor I feel  
every day. Dr. Hamilton's Pills have  
certainly mastered the secret of curing  
the sickly, emaciated man, and I  
strongly urge everyone in failing or  
lost health to use this grand remedy.

Dr. Hamilton's Pills of Mandrake  
and Butternut are purely vegetable—  
all the ingredients come from the  
great storehouse of nature, they can't  
help but heal, strengthen, cure.

**THE POWER OF STEAM.**

Many May See But It Takes  
Genius to Realize.

When James Watt saw the steam  
causing the kettle lid to jump up and  
down he said: "There must be power  
in that steam that it can lift such a  
weight."

There was.

Millions prior to him had seen the  
same phenomenon and regarded it as  
an unexplained mystery.

Recent scientific research has put its  
finger on the "cause" of Dandruff, Falling  
Hair and subsequent Baldness, and  
has unearthed a tiny germ which  
eats the life from the roots of human  
hair.

Newbro's Hergicide destroys this  
germ and consequently restores the  
hair to its natural state.

Sold by leading druggists. Send 10c.  
in stamps for sample to The Hergicide  
Co., Detroit, Mich. Two sizes, 50c.  
and \$1. G. W. Mahood, special agent.

**PRODUCE AND PRICES.**

What is Offered For Growth in Can-  
ada Articles.

Kingston, Oct. 12.—The following  
prices prevailed in the city to-day:

Flour—\$2.10; feed—four, bakers', \$2.10  
to \$2.20; Hungarian patent, \$2.30 to  
\$2.50; oatmeal and rolled oats, \$4.40  
to \$4.50; cornmeal, \$1.50 to \$1.65;  
bran, \$1.10 to \$2.00; shorts, \$2.20 to  
\$2.30 a ton; straw, \$6 to \$8; hay, loose,  
\$9 to \$10; pressed, \$12 to \$14.

Eggs—New laid, 25c. per dozen.  
Grain—Oats, 40c.; wheat, 90c. (dif-  
ferent grades); buckwheat, 50c.; bar-  
ley, 45c. to 55c.; rye, 50c.; peas, 50c.;  
corn, 45c. to 65c.

Butter—Choice, creamery, 30c. a lb.;  
farmers' butter, in prints, 28c. a lb.;  
unsked, 25c.; rolls, 25c.

Meat—Beef, carcasses, \$6 to \$7 a lb.;  
cwt.; choice cuts, 12c. to 15c. per lb.;  
pork, 9c. a cwt.; veal, by  
quarter, 5c. to 9c. per lb.; cuts, 6c. to  
10c.; by carcass, 5c. to 8c. per lb.;  
cutlets, 12c.; hogs, live weight, \$9  
cwt., 12c. to 15c. a lb.; lambs, by  
pound, 10c.; chops, 16c. a lb., mut-  
ton, 8c. to 9c. per lb.

Fish—Salmon trout, 12c. a lb.;  
whitefish, 12c. a lb.; pike, 10c. a  
lb.; Chisco salmon, 30c. a lb.;  
Yarmouth, 20c. a lb.; kippered herring,  
Atlantic salmon, 30c. a lb.; salt codfish,  
7c. to 15c. a lb.; halibut, 20c. a lb.;  
fresh haddock, 10c.; bullheads,  
10c. a lb.; red herring, 15c. a box;  
mackerel, 15c. a lb.; trout, 12c. a  
lb.; perch, 30c. a dozen; frogs' legs,  
40c. a lb.; ciscow, 15c. a lb.; oysters,  
40c. a bush; peck, onions, 0.125  
bushel; carrots, 50c. bush.

Beef hides—No. 1, 6c. per lb.; No. 2,  
and bulls, 5c. per lb.; sheep, pelts,  
freshly taken off, 40c. to 50c.; calf  
skins, 2c. a lb.; pig skins, 1c. each;  
rendered tallow, 5c. lb.; bees wax,  
No. 1, 25c. lb.; wool, washed, 22c.; un-  
washed, 13c.

**INVENTION FOR SAFETY.**

Fine Scheme to Prevent Cage  
Accidents.

Many have been the inventions pat-  
ented to prevent cage accidents in  
mine shafts. There is now one on view  
in Sunderland. The invention consists  
of four clutches, a lever, spring, two  
wedges and sockets. The inner side of  
the wedges are rounded or concave to  
suit the diameter of the guide ropes.  
When the cage is being drawn  
upwards, should the main rope break,  
the chain (which is fastened to the  
lever) becomes slack. The spring im-  
mediately presses up the wedges and  
instantly grips the guide ropes, which  
run through the socket. The descent of  
the cage is at once arrested. The ac-  
tion is automatic, and only operates  
when the main rope breaks or is un-  
intentionally disconnected from the cage.  
The grips do not in any way injure  
the guide ropes, and this is a strong  
point in favor of the invention.

**GEESSE GOT DRUNK**

And the Farmer Was Greatly  
Humiliated.

Martin Beck, a farmer on the Con-  
sawgo Hills, is humiliated to admit  
that three of his geese went on a dis-  
graceful spree after having eaten some  
pulp from a cider mill.

Sometime after eating of the pulp,  
the peculiar action of the fowls at-  
tracted the attention of the farmer.  
They swayed from side to side and  
cackled hoarsely. Finally one by one  
they fell limp and lay motionless.

Mrs. Beck carried the fowls into the  
house, with the intention of plucking  
them, when they revived.

Since then the geese have kept away  
from the cider mill, and have tried to  
prevent other geese from going near it.

**America's Manufacturers.**

Religious magnitudes and the variety  
of its manufactures the United States  
is far ahead of any other country in  
the world, and its lead is rapidly  
lengthening. Here are the principal  
figures: aggregate of rank second  
United States manufactures for 1907:

Capital, \$15,000,000,000.  
Employees, 6,000,000 persons.  
Wages received by them, \$3,500,000,  
000.  
Cost of materials used, \$10,000,000,  
000.  
Value of products, \$17,000,000,000.  
Value of exports, \$700,000,000.

The value of the products of manu-  
factures has doubled since 1898.  
The value of the exports of manu-  
factures has doubled since 1898.

The exports of manufactures were  
41 per cent. of the aggregate exports  
of all sorts of domestic merchandise  
in 1906, as compared with 21 per cent.  
of the aggregate in 1894.

The capital invested in manufactures  
is almost as great as that represented  
in railroads.

In the value of the property repre-  
sented and in the number of persons  
employed, manufacture of rank second  
among the great interests of the United  
States, agriculture being first. But  
in each item manufactures is far ahead  
of agriculture. And this lead is con-  
stantly increasing.

The capital invested in manufactures  
represents an eighth of the value of  
the property of all sorts in the United  
States real and personal.

**Schooner Cornelia Damaged.**

Oswego, N.Y., Times.

The schooner Cornelia, Capt. Den-  
more, arrived in port on Tuesday af-  
ternoon, from Pitcon, and made the  
harbor with difficulty. The schooner  
made fast to the barge Middlesex to  
allow the tug Tonawanda to turn so  
that the tug could haul the vessel  
and during the gale, which was blow-  
ing, the Cornelia's mainmast head  
was torn out and the mainmast was  
broken in two pieces.

Some men go to the dogs because  
they are muzzled.

**THE SHIRTS THAT FIT BETTER**

Because a Regatta Coat - Shirt  
is tailored to size and  
shape — not merely  
launched into shape,  
like most shirts, it  
conforms to every  
part of a man's figure,  
as well as to each  
exacting demand of  
his taste. Made of  
better fabrics, in a bet-  
ter way, so it wears  
better, and fits well,  
and ordinary shirt will  
It costs no more—but  
it pays best—when you  
demand this brand.

**LIPTON'S LIMERICKS**

In view of the tremendous interest which has been created  
through our last Limerick, we have decided to offer larger  
prizes, and so that our friends at a distance may have an  
opportunity of competing this competition will cover a period  
of three weeks, closing October 17th.

**\$500.00 IN PRIZES**

First Prize, \$150 Cash  
2nd " 50 "  
3rd " 25 "

25 Prizes of \$5 Each.  
75 Prizes of \$2 Each.

The conditions of this competition are perfectly simple. All  
you have to do is fill in the last line of the Limerick which is  
shown below and then send it, accompanied by a TEN LID  
(with label attached) of a package of LIPTON'S TEA, Gold,  
Red, Pink, Orange, or Blue Label, or LIPTON'S COFFEE, Blue  
Label, which entitles the reader to send in one Limerick. You  
may send in as many Limericks as you like so long as a TEN  
LID accompanies each Limerick.

**LIMERICK**

A lady of Sault Ste. Marie,  
Asked a friend from Toronto to tea,  
She wired back, on the spot,  
"Is it Lipton's? Eh! what?"

I agree to abide by the decision of Editor of The Toronto MAIL  
AND EMPIRE as final, and enter the competition on that distinct  
understanding.

Signature .....

Address .....
