DOINGS AT OLD QUEEN'S

THE MEDICAL ELECTIONS IN PROGRESS TO-DAY.

McMaster Wants to Enter the Intercollegiate Debating Union—The Hockey Prospects—Injured Freshmen Vow Vengeance.

The annual election of the Association of Students is taking place to-day, and hence considerable excitement has prevailed among the medical students during the entire day. Acclamations are: Honorary president, Dr. A. B. McIntyre; president, H. Dunlop, B.A.; orator, J. G. Bailey.

The freshmen in science have organized for the approaching session, with P. E. Skinner as president and W. C. Anderson as secretary.

It is probable that Hale and May, two former members of the first team, who arrived at college a few days ago, will appear on the line-up of the second team, in its game at the R.M.C. to-morrow morning.

The freshmen year in arts has appointed a committee, consisting of Misses Birley, Price, Daley and Messrs. Kelsey, Danby and Melanoff, to draft the constitution which will be employed during the freshmen's course.

The preliminary round of the tennis tournament was concluded, on Tuesday, and the second round is now at the height of its progress.

The Engineering Society's annual elections take place next Friday. Nominations are being made at this afternoon's regular meeting.

There is no denial to the fact that the sophomores in practical science completely vanquished the freshmen at the initiation of the latter, yesterday morning. The freshmen presented a sorry sight indeed, as they waddled aimlessly to and fro, bootless and with the letter "F" stamped upon their cheeks and foreheads. This is a period that the freshmen are planning vengeance which will be terrible to witness, and in view of which it would be well for the sophomores had they never been born.

The regular meeting of the college Y.M.C.A. is being addressed this afternoon by M. N. Omond, the newly-elected president of the association.

The secretary of the debate committee is in receipt of a telegram from McMaster University, Toronto, soliciting the aid of Queen's in the Intercollegiate Debating League. It is understood that Queen's regards with favor the proposed admission of McMaster to the league.

The following men have been selected by the Track Club executive to train for the intercollegiate track meet to be held here on Thanksgiving day: Cadenhead, Leatherland, Gallagher, Trousdale, Laughton, McKay, Cormick, Bateman, Saint, Foster, E. Carmichael, V. Carmichael, McKinnon, Wile, Mohan, Stott, Bertram, Forrester, Purdon, Orr, McCann, McEostie, Dunmore, Macdonnell.

Although football is so exclusively in vogue at the present time, the word hockey is heard more frequently at the days past. "Dick" Mills will not be present to defend the nets this season, but Macdonnell at point and Pennock at cover will, by no means, leave the defense weak. Crawford, McLaughlin and Campbell, of last season's forward line, will be on the ice and Holson, the stellar right wing of the championship 1906 team, has returned to college after a year's absence. Thus it will be seen that Queen's is assured of a speedy setback, even in the event of there being no first-class material among the freshmen, a condition which, accord-

No Woman

Wants to be dressed exactly the same as her friends (or her enemies), Fashion is all right, but fashion leaves room for individual details. Women without unlimited means are obliged to rely upon their ingenuity and taste for the expression of individuality. This is where our Cloak Department offers the chance. Practically everything we offer this fall is different from what is usually offered elsewhere.
