MISTOOK FOR A BURGLAR. Held in Connection With Boarder's Death.

Philadelphia, Nov. 9.—The shooting affair in which Harry Ferree, of this city, was killed last Tuesday night by Andrew J. Detach, a boarder, at his home, where Ferree boarded, was enquired into by the coroner. Detach was held for the grand jury.

Police, attending to the shooting, found Ferree lying in the hallway outside the bedroom, occupied by Detach and his wife. Detach claimed he mistook Ferree for a burglar and shot through the door without investigating. The police, in searching Ferree's effects, however, found many endearing letters from Mrs. Detach to Ferree. Mrs. Detach confessed her relations with the boarder and said her husband had learned of her conduct. Detach, however, stoutly maintains that he mistook Ferree for a burglar, and that he did not know that there had been anything wrong between his wife and Ferree. Detach is twenty-three years of age and his wife twenty-two. They have one child.

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

La Grippe Is Epidemic Catarrh. THE disease now known as 'grip' used to be called 'influenza.'

It very closely resembles a cold, but is more tenacious in its hold upon the system and produces more profound disturbances.

Grip is in reality epidemic catarrh. When it once begins it spreads over the country very rapidly.

People do not catch the grip from each other, but each one catches it from the atmosphere.

"Most Effective Medicine Ever Tried for La Grippe."

Robt. L. Madison, A. M., Principal of Cullowhee High School, Painter, N. C., is chairman of the Jackson County Board of Education.

He is a writer of occasional verse and has contributed to a number of leading papers and magazines,—religious, educational and secular.

In speaking of Peru-na, Mr. Madison says: "I am hardly ever without Peru-na in my home. It is the most effective medicine that I have ever tried for la grippe."

"It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils."

In consequence, an inflamed condition of the throat was brought about, getting worse and worse and yielding to no remedy until Peru-na was tried."

Healthy Mucous Membranes. Those who are fortunate enough to have perfectly healthy mucous membranes ordinarily do not catch the grip.

The mucous membranes lining the nose, throat and lungs, when in a normal state, are an effectual barrier against the invasion of grip.

But, if there happens to be the slightest catarrhal derangement of the mucous membranes, then the victim becomes an easier prey to the grip.

This in part explains why some people get the grip, while others do not. The rational thing to do is to keep the system free from catarrh. In attempting to do this most people have found Peru-na to be invaluable.

Systemic Catarrh, the Result of La Grippe. Pe-ru-na Recovers Credit for Fur-ru-na Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., formerly House-keeper for Indiana Reform School for Boys, writes:

"Six years ago I had la grippe, which was followed by systemic catarrh. The only thing I used was Peru-na and Manilla, and I have been in better health the last three years than for years before."

"I give Peru-na all the credit for my good health."

Mr. Victor Patneaud, 222 Madison St., Topeka, Kan., member of Knights and Ladies of Security, writes:

"Two years ago I had a severe attack of la grippe and I never really recovered my health and strength—but covered my weaker every year, until I was unable to work."

"Two years ago I began using Peru-na and it built up my strength so that in a couple of months I was able to go to work again."

"This winter I had another attack of la grippe, but Peru-na soon drove it out of my system. My wife and I consider Peru-na a household remedy."

Pneumonia Followed La Grippe. Mr. T. Barnecott, West Aylmer, Ontario, Can., writes:

"Last winter I was ill with pneumonia after having la grippe. I took Peru-na for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time at little expense."

Pe-ru-na—A Tonic After La Grippe. Mr. Chas. E. Wells, Sr., Delaware, Ohio, writes:

"After a severe attack of la grippe, I took Peru-na and found it a very good tonic."

Mrs. Jane Gift, Athens, Ohio, writes:

"Six years ago I had la grippe very bad. I read a testimonial of a woman who had been cured of grip by Peru-na. My husband bought me a bottle of Peru-na. I was soon able to do my work. I continued using it until I was cured."
