FREE INFORMATION

This is what one of the most prominent physicians of to-day says: "One ounce of sweet spirits of nitre, one ounce of compound tincture, and four ounces of syrup of rhubarb mixed together and taken in desert spoonful doses after meals and at bedtime in water will effect a permanent cure for the most severe cases of kidney, liver, bladder and urinary troubles. He claims that a few doses will positively cure the worst cases of backache and rheumatism arising from disordered kidneys and impure blood. These drugs are of purely vegetable nature and inexpensive, and can be obtained at any drug store and mixed together at home."

Why Bovril Strengthens

Leaving the scientific argument and taking the bare facts BOVRIL is a distinct food product differing essentially from all fluid imitations and solid substitutes.

It is the only preparation of Beef that retains all the properties in a highly concentrated form. It is prepared by a scientific process which ensures its absolute uniformity and then it is standardized.

As a nutritive stimulant derived solely from Beef, Bovril stands alone.

In its many uses it has the triple values of palatability, stimulation and nutrition.

SCHEME VOTED DOWN

THE COUNTY COUNCIL STRONGLY OPPOSED

To Councillor Stoney's Road Improvement Plan—Only the Perth Toll Road to Be Dealt With at Present.

The county council resumed its session on Friday afternoon. Councillor Foley raised the question as to whether Albert Glover, who recently purchased the W. R. McTear property, had encroached on county property in building an addition to an outbuilding, which was up against the jail wall. Councillor Stoney advised the county council to take steps to determine the exact limits of the court house and jail.

On motion of Councillors Foley and Truscott, the reports of the roads and bridges and property committees, concerning the work they had performed since June last, were adopted.

Warden Drew reported upon the amended by-law regarding the Perth Road which the county had taken over. The by-law had been accepted by the municipalities of public works for Ontario, and in view of this the county would be entitled to share in the government grant for good roads.

Councillor Stoney said that his by-law covered sixty-eight miles of Frontenac roads. The government would pay one-third of the cost of improvements and of building bridges. It was advisable that the council adopt the large system of improving the county roads, and receive the government grant. The Perth Road scheme covering twelve miles was all right so far as it went, but the county should not stop there. His scheme for the improving of sixty-eight miles would be more satisfactory to the county as a whole, because all the townships would receive benefits.

The twelve mile road scheme provides for repairing the Perth Road, removing the tolls, and making the following compensation grants to townships which will not directly benefit:

Barrie, \$50; Bedford, \$30; Clarendon and Miller, \$50; Garden Island, \$20; Howe Island, \$20; Hinchinbrooke, \$75; Kennebec, \$35; Olden, \$35; Oso, \$25; Portland, \$25; Palmerston, North and South Canoto, \$50; Wolfe Island, \$150; Pittsburg, \$250, or \$300 in all.

Councillor Stoney's larger scheme provided for the following road improvements: Perth Road, York road, Sydenham and Railton road, Harrow Smith road, Ganaquoque road and Paterson-Sunbury road, or sixty-eight miles in all; and making the following grants to certain townships not interested in the above mentioned roads, to make improvements to their own main highways: Hinchinbrooke, \$110; Bedford, \$150; Olden, \$70; Oso, \$60; Kennebec, \$50; Clarendon and Miller, \$50; Barrie, \$50; Wolfe Island, \$330; Portmouth, \$55; North and South Canoto, \$50; Garden Island, \$35; Howe Island, \$50.

The council took a vote on Councillor Stoney's large scheme, and defeated it by 11 to 5. The vote was as follows:

For—Councillors Shannon, Franklin, Stoney, Purdy, Brash, and Councillors Brieland, Wood, Truscott, Thomson, Miller, Hamilton, Foley, Calvin, McElroy, and McGregor—11.

Councillors Aylesworth and Fisher were absent.

It was moved by councillor Miller seconded by Councillor McDonald that Dr. William McCarthy be appointed to attend the county poor in the House of Industry and House of Providence, at a salary of \$300 a year from January 1st, 1908. The motion was carried unanimously.

Dr. Edwards who has been attending the poor in the above institutions from June last was voted a half year's salary at the rate of \$300 a year.

STANDS ACCUSED

OTTAWA COLLEGE PLAYERS' STANDING.

Bawlf is Charged With Professionalism in Soccer and As a Result the College Championship is Hung Up.

Montreal, Nov. 23.—A charge of professionalism against a member of the Ottawa football club, and the decision of the Intercollegiate Rugby Football Union to withhold the championship cup which was to have been presented to that club at the annual dinner of the union, at Ottawa, to-night, is the latest sensation in athletic circles.

Nicholas Bawlf, the College football star, is the accused man and he is charged with professionalism in hockey. Pending an investigation, which has been ordered by the officials of the union, the championship declaration will be withheld.

Austin Pratt, president of the McGill rugby club, is in Ottawa, with the championship cup, but he has been notified by wire, not to present the cup to Ottawa College under the circumstances.

DANCE AND SUPPER.

Sergeants of the R.C.H.A. Entertained Last Night.

The sergeants of the R.C.H.A. entertained last night at a dance and informal supper, and the event, which was the opening one of the season, proved a most delightful one, to the guests present. The affair was held in the large mess hall, and the members of the staff, with their wives, attended. A number of the honorary members were also present. Included among the guests were: Capt. Falgout and wife, Capt. Paine, Lieut. Bank, Lieut. Eaton, of Army Service Corps, Halifax; Lieut. Stroud, adjutant of the 5th Hussars, Lieut. Albert Stroud, D.S.O., and ex-M.C. Cadet Canfield, Mr. and Mrs. William Harris, and Dr. Evans, representing the Military Gazette.

At midnight supper was served, and at one o'clock dancing was resumed, and continued until 2:30 o'clock. Music was furnished by the R.C.H.A. orchestra, a choice programme being rendered. The floor was in the best of condition.

The sergeants excelled themselves in the arrangements, as they were perfect, and are deserving of great credit for the success of the evening's entertainment.

FOR MUNICIPAL HONORS.

Labor Party Are Now Arranging Their Slate.

At a meeting of branch No. 1, Kingston Independent Labor Party, held last night, a slate was drawn up for members to stand for municipal honors at the coming election, but no names were given out today for publication, the members stating that they wish to wait until the organization is more complete. Another meeting will be held on Monday night, when arrangements will be furthered.

Jimmy Reynolds, of Port Hope, and Dave Hartley, of Peterboro, started at eleven o'clock this morning in the Mutual street rig, Toronto.

As a direct result of the murder of E. S. Jefferson, at Burlington, N.J. on Thursday night, Policeman Gungar was murdered on Saturday morning by a mysterious stranger who attempted to commit suicide.

Sixteen fine looking young men, anesmen for the Canadian Westinghouse company, visited Detroit, on Friday, as a part of their annual outing, in which business and pleasure were combined.

The SS. Montclair is at anchor at Point Maurier, awaiting the arrival of the steamer Lord Strathcona, with pumps, before leaving for Quebec. As Point Maurier is over 500 miles down the gulf, the Lord Strathcona will hardly reach there until this morning.

The steamer Lizzie Madden, Bay City, was destroyed by fire, off Point Tawas, Lake Huron, early on Friday morning. The crew of thirteen men took to the small boats and were picked up later by the steamer Langell Bay. The wreck was on her way from Bay City to Little Current, Ont., for a cargo of lumber.

AN INSANE HUSBAND

Shoots His Wife and Burns His Home.

New York, Nov. 23.—Nicholas M. Smith, Jr., a wealthy manufacturer, lost his wife, Grace, who was found shot to death in their blazing home, New Rochelle, early this morning. The Smiths had killed his wife, fired the house in hope that it would hide his crime, as he had killed himself, was plainly proven in a note which was found in the room, and which also indicated his insanity. Smith was in the automobile business in New York, and suffered heavy financial losses during the present money stringency.

AT THE POLICE COURT.

One Case Before the Magistrate on Saturday.

James Elliott, a middle-aged man, who has been working on a farm, was the only offender in the police court this morning. Drunkenness was the charge, and he pleaded guilty, a fine of \$1 and costs of ten days, being imposed. He had enough cash to pay his fine.

Elliott did not appear to be worrying very much over his trouble. "I'll be in here again soon," he said to one of the officers as he paid for his freedom. "The same thing happens to me every time I come into the city."

Took Their Lives.

Albany, N.Y., Nov. 23.—Yesterday, the dead body of Edward Heidley, thirty-eight years old, with two bullet holes in the abdomen, was found face downward in the bed-room of his home, and in the kitchen that of his wife, Anna, aged twenty-six, with a bullet through her heart and a revolver in her hand. It is not known whether Mrs. Heidley shot her husband and then herself, or whether Heidley, who just before had shot at his wife in the presence of her sister, killed himself, and she, finding him dead, picked up the revolver and committed suicide. The tragedy was the culmination, it is said, of years of wretchedness and quarrelling between the couple, who were married eleven years ago in Troy and had no children.

WHEN WILL END BE?

The York Loan Company Still Badly Tangled.

Toronto, Nov. 23.—The unravelling of the tangled claims for recognition or priority in the division of the assets of the once flourishing York Loan Co. still continues, and the difficulties to be adjusted and cleared up seem to be so numerous that the end of the winding-up proceedings is still enshrouded in the distant future.

Next week there will be a cessation of the proceedings here before Referee Kappel, while a commission will go to Nova Scotia to take evidence there regarding the claims of Nova Scotia shareholders and the legality of York Loan operations in the province. The decision there will also affect the Manitoba and British Columbia shareholders, the holdings in the three provinces totalling half a million dollars.

The question of when the York Loan actually became insolvent will be fought out some time in December and the evidence of the liquidator, former president and general manager now at Kingston, may be necessary in settling this matter, which is a very important one to several classes of shareholders.

Class eleven, which includes those who borrowed money from the York Loan on their shares, will be taken up for the first time on Thursday. W. E. Smythe is acting for those shareholders who borrowed altogether \$102,000 on some \$300,000 worth of stock. They claim to rank as shareholders for the difference between the value of their stock and the amount of the loan in each case, while the liquidator holds that the cash received by them as a loan should be considered as part of their ultimate winding-up dividend on the whole amount of their stock.

THE GREATEST YET.

Radium Produced at Academy of Science, Vienna.

Vienna, Nov. 23.—The Academy of Science has just made the largest quantity of radium yet produced, namely, forty-six grains. Ten tons of uranium and pitchblende, given to the academy by the government, from its mines in Bohemia, were used in the production of the radium, the work of extracting which cost \$10,000. The academy will present a small fraction of the radium to Sir William Ramsay, the well-known English scientist, for experimental purposes and will use part of the remainder to test Prof. Ramsay's theory regarding the converting of radium into other elements.

WOMEN'S MISSION TO WOMEN.

WOLFE ISLAND NEWS.

A Lad Swallowed a Copper, But Was Relieved.

Wolfe Island, Nov. 23.—On Wednesday, the remains of Miss Devenia McDonald arrived from Cape Vincent, and was taken to the Presbyterian church, where Rev. Mr. McQuaid officiated, after which the remains were placed in the vault. Deceased was a sister to Miss Christy McDonald, of the village.

On Monday, the youngest son of William Horne swallowed a copper stocking, which was located in his neck, and remained there till he was taken to the city and X-ray used.

Lloyd Card, who runs the pool room in the village, will hold a tournament on Tuesday evening, to decide the best player on the island. The winner will receive a revolver.

Two sales were held here Friday, those of Isidore Drush and Robert Barry. Mrs. A. Stevenson has been in the city lately attending to her daughter, Sylvia, who has been ill with typhoid fever. Mrs. R. J. Spoor will move from the city to Captain Grant Horne's house in the village. Her many island friends will be glad to see her back again. Olive Hawtister and O. Whitmarsh are around the island purchasing calves.

Clouds, white or cardinal, 25c.; stockings, cashmere, all kinds, special value, 25c. and 35c. New York Dress Reform.
