Gips For The Farmers

April, of next year. The past seaso

at night is quite sure to produce colds and these quickly turn to roup. Seis well to remember that wind is even more penetrating than water; so close the cracks. A third precaution would be a more careful study than hereto-fore of food requirements. The hens have not begun laying must have an ate the ovaries to immediate action. No corn for them or the about completed their growth.

A good dairy cow should not show any marked falling off until after ter food for the formation of body tissue, and it is to be expected, therefore, that heifers will require a larger propagation of nutrients for the production of nutrients for the nutrie

One Too Many.

Lookon Union.

A lawyer died in a provincial town and his fellow lawyers wrote over his grave: "Hertein lies a lawyer, and an honest man."

Not long afterward a great personage visited the town, and among others that whiskey was vile stuff and he was taking a final to it. It was only too true, for the first of the lawyer were the standard when the first only dispersed directions and the standard was a seasy to find now as it will be five weeks hence. And on the final point of convenience to the shopper, and all of them put together.

Even a hungry man draws the line at eating his words.

IRVINE

What Does Your Mirror Say?

Does it cheerfully report an abundance of beautiful, well kept hair or does it regretfully tell the story of hair neglect?

Your mirror may be anxious to please, but if you permit your friends to see dull, brittle and lustreless hair, with possibly dandruff and falling hair, your mirror will have to reflect the same condition.

All of these unfortunate EFFECTS can be overcome by destroying their CAUSE with

NEWBRO'S HERPICIDE

TheOriginal Remedy that "Kills the Dandruff Germ."

Dandruff, with its consequent hair injury and hair loss, is now known to be a highly contagious germ discase. It is caused by an invisible growth of vegetable character that finds lodgement in the sebaceous glands of the scalp. This growth disturbs the functions of the sebaceous glands, causing excessive oiliness or extreme dryness of the hair. It also sets up an inflammatory process that extends down the follicle to the papilla, where the adhesions are loosened and the hair slips out. The value of Newbro's Herpicide in such cases is quite extra ordinary. Its intelligent use will correct every condition short of chronic baldness and thus permit the hair to resume its natural lustre and abundance.

MISS EDNA IRVINE

A noted Theatrical Star whose photograph is here reproduced WRITES AS FOLLOWS: "I can most heartily endorse Newbro's Herpicide. It is delightful for the hair and Hotel Westminster.
