## CROWN WITNESSES

### WERE NOT PRESENT TO DAY IN BRIBERY CASE.

Fire in Toronto Shop Did \$25,000 Damage—All the Christmas Stock Destroyed—C.P.R. Issues Writ Against Fall Power Co.

Toronto, Nov. 26.—No evidence was taken in the London election case this morning. None of the crown witnesses were present, consequently an adjournment was made until two o'clock this afternoon.

The Canadian Pacific railway, today issued a writ against the Falls Power company of Niagara Falls at Welland. A perpetual injunction is asked for, restraining the defendants from placing poles and wires on Heilens avenue and from touching the plaintiffs' poles or wires or erecting poles and wires that would interfere with the property of the plaintiffs, or endanger the lives of their employees.

A fire broke out between two and three o'clock, this morning, on the premises of Canadian New York company, Ltd., 49 Scott street, and did about \$25,000 damage. It started in the second floor, among the silks, and this floor was gutted. Water did considerable damage to the stock on the floor below and smoke to the stock on the floor above. All the Christmas stock was destroyed. The firm carried \$28,000 insurance.

It is likely among the legislation to be introduced at the coming session will be an amendment to the truancy act. The necessity of some improvement of the existing act has been brought to the attention of the education department by Inspector Fotheringham, who reports that the present act is inoperative in rural districts. Dr. Seath, superintendent of education, said, this morning that the truancy act was "not worth a row of pins," as it stood, so far as the rural districts were concerned, because, apparently, there was no one to put the law in operation. He considered an officer should be appointed in each district to enforce the law.

## DIS DE BAR IN ENGLAND.

Attorneys Make a Formal Demand For Deeds.

Windsor, Ont., Nov. 26.—Mother Elinora L. Mason, the notorious confidence woman, who is alleged to have "talked" the Flying Rollers colonies of Detroit and Windsor out of about \$10,000, and fled with David Livingstone McKay, the pillar of the Windsor colony, when her true identity as Ann O'Della Dis de Bar was exposed, is known to be in England. Mackenzie & Son, attorneys, Montreal, have made a formal demand upon D. B. Richardson, a lawyer in Detroit, for thirty-one deeds, covering 3,000 pages of manuscript, which she turned over to Alfred Staddon, treasurer of the board of trustees of the Detroit colony, who has since fled. He thought they were worthless, she used to good advantage in deceiving the Rollers into believing she was a woman of unlimited means.

## DEATH OF OLIVER McADOO.

Old Resident of Village of Dufferin Passes Away.

An aged and much respected resident of the village of Dufferin, passed quietly away Saturday evening, in the person of Oliver McAdoo, at the advanced age of eighty-five years. Mr. McAdoo was one of the pioneer settlers of the township, coming to this country with his father, when a boy. He was a member of St. John's Presbyterian church for many years, and also an elder. Besides his wife, he leaves four sons and one daughter, Mrs. Frederick Whitney, of this city, to mourn the loss of a loving husband and father.

The late Mr. McAdoo was highly respected as a friend and neighbor. The funeral took place Tuesday morning, at ten o'clock, and was largely attended. Services were conducted at the house by Rev. W. McQuarrie, of St. John's church. The pallbearers were his four sons and deceased's grandsons, Benjamin Whitney and Frederick Whitney, his son-in-law, of this city.

## MORE CAN BE DONE

In Reducing the Water Rates Still Further.

It is said that there will be some opposition in the city council to the reduction of the water rates and a motion may be made to give part of the waterworks surplus to the streets committee. Such a motion would be snuffed under. It is suggested, however, that the water rates charge \$750 per acre-foot for hydrants, street watering, etc., might be struck out. The waterworks finances would easily permit that. By striking out this amount all the people would benefit. If that is not done, it is still possible to strike off all the bath charge, instead of a portion as recommended by the committee. The rates can be reduced to the extent of \$4,000. The proposed rates are only \$3,500. The sum of \$1,500 extra would cover the remaining portion of the bath rates.

## HOWLS OF JOY.

Dogs Sole Occupants of Abandoned Ship.

Hamburg, Nov. 26.—The captain of the steamer Rhosodus, which has arrived here, reports that he met a Dutch fishing schooner which had been abandoned by her crew. Four men of the Rhosodus boarded the derelict. Two dogs, the sole occupants of the abandoned ship, greeted them with howls of joy.

Everything on board the schooner appeared to be in order. A lamp still burned in the cabin and the life-buoy hung in the davits. Closer inspection showed that the rudder was broken, and this was thought to be the reason for the flight of her crew. The ship was also damaged in other ways. Papers in her cabin showed that she belonged to Groningen and had 100 tons of fish on board.

## FITH OF THE NEWS.

The Very Latest Culled From All Over The World.

Another London, Ont., man has offered \$10,000 towards a hospital for consumptives.

The Pennsylvania Iron Works, Lancaster, Penn., employing nearly 500 men, has resumed operations after being closed since Nov. 1st.

Sweeping the province of Diarbekir, Asia Minor, with a force of Kurds and the regular Turkish troops Abraham Pasha has plundered about a hundred and fifty-one villages and massacred hundreds of Armenian Christians.

J. M. Barker, proprietor of the Flamboro Hotel, was sent to the central prison for eighteen months by Judge Snider, on Tuesday morning. The charge was cutting and wounding Frederick Jaggard in a Botel row. Frank Anderson, a purse snatcher, received three years in the reformatory for robbing Mrs. Burgoyne, Toronto, and Miss Duncan, East Hamilton, on lonely roads on the mountain.

## BERESFORD-SCOTT INCIDENT

Announcement Made That it is Regarded As Closed.

London, Nov. 26.—Efforts to force an official enquiry into the entire British navy strength, owing to the Beresford-Scott incident, having failed, the announcement is made, on claimed to be good authority, that the incident is regarded as closed. Indications are that pressure has been brought to bear by zealous friends of both parties concerned, and the result is that either Beresford or Sir Percy Scott evinced any desire to have the quarrel reopened. As the matter stands, the only interpretation of the attitude of the lords of the admiralty is that Beresford's resignation has adequately met the circumstances of the case.

## ACCUSED OF CRIME.

Said to Have Slain Wife—Burned in Lime.

San Francisco, Cal., Nov. 26.—The police of Oakland have taken into custody M. A. Wilkinson, stationary engineer, formerly of York, Pa., and will charge him with the murder of his wife, whose body was found during a quicklime underneath a shed in the yard of the Wilkinsons, in Elmhurst, a suburb of Oakville. The finding was the result of a dream on the part of Mrs. J. M. Anderson, of San Francisco, a friend of the dead woman.

## UPAID CITY TAXES.

The unpaid city taxes at this date amount to about \$3,400. The delinquents are gradually paying into the treasury. There is one single amount of \$1,300 or more to come in yet, and that will make a further good-sized reduction in the whole.

## BOSTONIAN IN TOILS

### ARRESTED BY MONTREAL FOR THEFT.

Said to Be Manager of Club in Cultured City—Longshoremen Say They Won't Take Strikers' Places in St. John, N.B.

Montreal, Nov. 26.—Samuel E. Footman, said to have been the manager of Boston club, was arrested at the general post office, this morning, by one of Chief Carpenter's men, on a charge of stealing \$1,500. Word was received here, that Footman was wanted in Boston, so that the Montreal police were asked to be on the lookout for him.

Longshoremen assert that members of their ranks will not take the place of the strikers at St. John, N.B. No concerted action has been taken, by the shipping federation, in connection with the strike, except in taking what measure to reduce the ordinary channels, people who are in need of money have resorted to the loan features of their life policies. The insurance companies in Montreal have never been asked to effect loans in that line of work. It is estimated that in this city, alone, within the past few weeks, a million and a half has been loaned by the insurance companies to their policyholders.

## FIRST PASSENGER TRAIN

Run on G.T.R. Fifty-Two Years Ago.

Fifty-two years ago, on Nov. 19th, Robert Whiting, Esq., of St. John, retired railroad engineer, ran the first passenger train on the Grand Trunk railroad between Cornwall and Brockville. Just think of it, only fifty-two years ago when the first passenger train was run on the Grand Trunk, where to-day fully a dozen passenger trains run daily between Montreal and Chicago. Mr. Whiting was born in 1829, on the day of the disaster, and will soon be seventy-eight years of age. He is still hale and hearty. His birthday was on the same day of the month as that of the late Sir John A. Macdonald, and he and the late Canadian premier were great friends.

## WEALTHY HEBREWS MARRY.

Hundreds of Magnificent Presents For Duvennas.

London, Nov. 26.—Geoffrey Duven, son of the head of the art firm of Duven Bros., of London and New York, was married at the Central Synagogue, in this city, yesterday, to Ethel, the daughter of Isaac Lewis, of Lewis & Marks, South African mining magnates. By the ceremony two of the wealthiest Hebrew families in England are united, and the colossal fortunes brought under one management.

## PROOF OF MARTIAN LIFE.

That life is there (in Mars) is founded on no assumption, but on massed evidence that is conclusive, and the reader should realize that opposition to the idea that we now have proof of life on Mars is not based on reason, but on emotion, however speciously cloaked. All scientific objections have been met and show untenable as to temperature, snow, etc., but human prejudice, as with the Copernican system or the origin of species, time alone can dispel.

## FATAL FIRE IN CINCINNATI.

Cincinnati, Ohio, Nov. 26.—One person was killed, two injured, five rescued with slight injuries, and a heavy property loss was caused by a fire, yesterday, in the six-story block at Twelfth and Main streets, occupied by the William Winthorst company, a retail dry goods firm, located in a crowded retail section. The fire caused much excitement.

## POST OFFICE ADDITION.

Plans have been prepared for an addition to the city post office building, and tenders will shortly be called for. It is not likely, however, that work will be commenced before next spring.

## BROKE HER WRIST.

An elderly lady named Mrs. McMott, fell down stairs this morning, breaking her left wrist. Her injuries were attended to at the Hotel Dieu.

## BRITISH ELECTIONS.

Excessive Rates Will Make Liberals Suffer.

Commenting on the result of the British municipal elections, the London Daily Chronicle says: It would be idle to deny the significance of the result of this year's municipal elections. The line of cleavage in municipal government is not the same as in national or imperial politics; and it would be a mistake to assume that the circumstances which have helped the conservatives in the municipal elections would operate with the same force at a general election. On the other hand, the conservative gain this year are on such a scale and so widely distributed that, whatever the local circumstances, a uniform tendency must also have been at work. Otherwise there is no adequate explanation of the fact that this year municipal elections 124 seats against 21 won by liberals, and 22 by labor candidates.

What, then, have been the causes of this tendency hostile to liberalism? The primary cause has undoubtedly been the fear of socialism. The conservative press has exploited the socialist party to excellent purpose. And the primary cause has undoubtedly been the fear of socialism. The conservative press has exploited the socialist party to excellent purpose. And the primary cause has undoubtedly been the fear of socialism.

## PEAR HEAR, HEAR!

Children Can Be Raised Too Much.

E. S. Martin writes philosophically about "Raising a Family," in the December number of Harper's Magazine, and Elizabeth Shippen Green has made beautiful paintings of children to illustrate it. These are some of the things he has to say on a subject of eternal interest:

"A family can be raised too much—so much that it doesn't get a fair chance to grow."

"Children have the best chance when there are enough of them to insure a wholesome diffusion of the parental energies."

"The best thing we can leave our children is freedom, and, whether parents realize it or not, it is to leave the children free from that most parents aim. Free from want, or any reasonable fear of it, if we can, though most of us can't. And if we cannot do that for them, we are the more solicitous to put them in a position in the way of doing it for themselves."

"A child that has been so raised that it can't conveniently lie, and is instinctively averse to deception, has been well started in the direction of right living. One way to promote that disposition is to respect a child's legitimate reserves."

"The philosophic parent will be wary of expecting too much gratitude from the young while they are still young. . . . To inculcate in children an undue sense of debt to their parents seems a mistake. An oppressive sense of obligation may mar the beauty of the relation."

## Pepper Cured Hiccoughs.

A new and immediate remedy for hiccoughs was discovered at the Hahnemann hospital, Friday evening, by Dr. Peters, by whom George McClellan was cured of hiccoughs, which began two days ago, by means of a pinch of pepper.

McClellan had tried all kinds of remedies before coming to the hospital, but without avail. Two hospitals were visited, but the treatment he received was apparently as little good as the drugs he had taken at home. He became weaker and weaker and could not eat or sleep.

It was in this condition that he appeared at the Hahnemann hospital last evening.

"Here is something that you never tried," said Dr. Peters. He gave the man a pinch of pepper. The man was hiccoughing violently at the time, but managed to swallow the stimulant.

"You came from his eyes as he did, and he sneezed violently. He sneezed again and when he was through sneezing the hiccoughs were gone." Philadelphia Inquirer.

## Work In The Country.

Gomber Herald.

Workmen in the country have been scarce. The day of the fall went up as high as \$1.25 for boys to pick apples, and still the shortage was great. Many a youth could find employment on the farm even yet. There are plenty of farms where the farmer would care to secure a winter's service sufficiently remunerative to keep them from want. Even if the young man would go out and work for his board, it would be infinitely better than lounging in a great city. To the unmarried man who is floating on the uncertain driftwood of employment, who seeks places, and hunt for honest work, is certainly not to be despised.

A financial journal, speaking of the tightness of money, wisely says: "Economy must be the watchword. A country cannot move its wheat and extend its factories buying automobiles at the same time. More than one far distant from the city hall, simply to see real estate values rise."

A Chicago business man has retired after amassing a single million, and has been highly praised for his moderation. Many people would consent to be moderate for less.

A revision of public school text books is urged by the advisory council of education at Carnovsky's.
