Winter. The third member of the party was a young man, Patico, secured by Ahtunaha.

On the second day of February the

RIND OF ARCTIC OCEAN.

Character of Land, Lakes and of the abduction of his brother's kewuk and had been storm-stayed or had halt-

The change of route to the higher land was justified on the following day, for Caldwell writes:—"Started early; the dogs go much better than one would expect. After travelling ten miles we saw fresh caribou tracks. Five miles further we came to higher land, and shortly afterwards sighted a band of four deer. Ahtunaha started after the deer on the hunt and dropped one of them." After the feast another famine, for of the next day Caldwell writes that it was all travelling and no feeding "We made cold headway all day," he says, "and saw several bands of deer. The dogs kept trying to break away after them." Of March 11 this is his his brother and says, and saw several bands of deer. The dogs kept trying to break away after them." Of March 11 this is his his brother and says, are of rare occurrence, as the general good conduct of the coast to each of our five best dogs. I wanted to had on the followed this them on what they should give the woman up. One of the party, so Ackpee stated, started for him with a kinife and Ackpee shot and killed him and nothing to eat, and at the end of that time they had been fed the little fat which was being used as fuel for the party, five in all, and took his brother's wife back with him. Since that time Ackpee was killed in 1904, and in 1904, and it is brother was killed in 1904, and it is brother was killed by Keheskloth in January, 1906, and the feud is still going on. However, murders, such as the general good conduct of the coast to each of our five best dogs. I wanted to each of our five best dogs. I wanted to each of our five best dogs. I wanted to expositulated with them on what they should give the woman up. One of the party, so Ackpee shot and killed him that time they had been fed the little fat which was being used as fuel for the cooking lamp after the coal oil had nothing to eat, and at the end of that time they had been fed the little fat which was being used as fuel for the cooking lamp after the cooking lamp after the cooking lamp after the cooking lamp after the co The change of route to the higher land he says:—"Hard pulling, and made only twelve miles. The dogs seem to be playmercial quantities.

lakes and streams. He reports that in and I yielded. In any event, it would have given them only a biscuit and half apiece. The four miles we had to half apiece. The four miles we had to half apiece. The four miles we had to half apiece.

day he writes:—"Still storming and very cold; the two dogs returned; Patico killed two more caribou to-day. The lie back from the western shore of Hudaccumulation of meat at this time was son's Bay. The beginning of January fortunate, for the weather got so bad that it was impossible to move from the snow shelter which had been thrown up." For six days they were there, and of that time Caldwell writes:— der Mr. Low, on the Neptune expedi-"Have no thermometer, but have learned of March, when we were storm-stayed, it was 50, 52 and 50 degrees below zero at Churchilk." The rest must have done and done a
