## SUNDAY AT THEATRES

### EVANGELICAL ALLIANCE TAKES UP QUESTION.

Will Ask Proprietors to Close Theatres on the Lord's Day—The Annual Meeting.

The opening of the theatres on Sunday, was a question discussed at the annual meeting of the Evangelical Alliance held on Wednesday afternoon, in the Y. M. C. A. parlors, when it was decided to wait upon the proprietors of the theatres, and ask them not to open the theatres on the Lord's day. The time for this interview was not set, but in all probability, it will be held during this week. The president, Rev. Dr. Macgillivray, presided at the meeting, and there was a good attendance of members, the secretary, Rev. Mr. Laird, also being in attendance.

Rev. J. Charles Villiers, introduced the question, and there was some discussion. G. M. Macdonnell said that it would be wise to have the Evangelical Alliance write to the Lord's Day Alliance, the latter body was now watching proceedings.

Dr. Macgillivray also favored cooperation with the Lord's Day Alliance, with the object of having the laws enforced.

Dr. Lake asked how it was that the city would supply the theatres with their electric power on Sunday. He moved that a committee wait upon the proprietors of each of the theatres, and ask that the theatres be closed on the Sabbath. Should the proprietors refuse the request, that the matter be taken before the city council and further, that the city fathers be asked why the theatres were supplied with electricity on the Sabbath. This motion was seconded by Dr. Sparks, and carried.

Rev. Dr. Macgillivray was again nominated for president of the alliance, but declined. Rev. Dr. Ryckman also nominated, withdrew.

Rev. Mr. Villiers then nominated Rev. W. H. Sparling, and he was elected president by a unanimous vote.

Rev. Mr. Laird explained that owing to other duties he would be compelled to give up the position of secretary, and a motion for his reappointment was withdrawn.

On motion of Rev. G. A. Macdonnell, Rev. Mr. Villiers was elected to the position of secretary. The secretary also acts as treasurer. A report of the finances, showed them to be in good shape.

A committee composed of Rev. W. H. Sparling, Rev. Dr. Macgillivray, Rev. Mr. Laird, and Rev. Mr. Villiers, was appointed to arrange for the usual week of prayer, to be held during January next. This time, these special services will be observed in these churches: First Congregational, Bethel church, St. Andrew's, Cooke's and Queen Street Methodist.

### COMING TO GRAND.

#### A Comedy That is Really Very Funny.

"A Dutchman's Honeycomb" is a musical farce comedy, up-to-date and clean. The company consists of bright lively funmakers. Good earnest work and an evident desire to please their patrons creates a more than favorable impression for this organization. There is a continual round of entertainment, throughout the performance. New songs, pretty music, sprightly dances, funny comedians, and all the pleasing features one expects to see in a show of this kind are to be seen. If you want two hours and a half of solid, wholesome fun that will drive away the "blues," see "A Dutchman's Honeycomb," which will be at the Grand Opera House, Saturday matinee and evening, November 30th.

#### "The Man On The Box."

The much-talked-about comedy, "The Man on the Box," in which the eminent comedian, Jamson Lee Finney, is the star, under the management of Walter N. Lawrence, tells a beautiful love story, its hero being a dashing young army officer, who to please the interest of a girl with whom he is in love usurps the place of her coachman, runs away with her, and is arrested for reckless driving. Finally she engages him as her coachman for a short time, of course not knowing his real position in society. It is not long, however, until he impresses her so favorably with his manliness that she falls head over head in love with him, and in the end there is a wedding, and both are married at the church. Local theatregoers will have the opportunity of seeing Mr. Finney and his associate players at the Grand, on Tuesday, December 3rd.

#### SCHOOL GREATLY AIDED

By Prof. D. Marshall's Lecture on Australia.

In St. Andrew's Sunday school hall, on Wednesday evening, a very interesting and instructive address was delivered to a large audience by Prof. David Marshall, on his recent trip to Australia. The lecture was illustrated by some of the best slides ever seen on a local canvas, all prepared from photographs, especially for Prof. Marshall.

The speaker took his audience on a two hours' trip to Australia and returned, showing them all the places of interest, and explaining everything in the most interesting manner. Mr. Marshall spoke of the people, the native tribes and their habits, and the work done by them and for them. The trade and commerce of the commonwealth were also dealt on. Many little stories, cleverly interwoven in the lecture, made it all the more interesting for the audience. Prof. Marshall also spoke of the trip out and back, and many other trips he has taken.

The lecture was given in aid of the Sunday school library, and a neat sum was realized. The committee greatly appreciate Prof. Marshall's kindness in giving the lecture for the school's benefit.

## DROPS OF WATER

### Are a Powerful Agency in the Way of Torture.

A drop of water, even three or four drops, falling on the head seems a thing unworthy of attention; nevertheless in China a slow and continuous dropping of water on the head has been found to be a method of torture under which the most hard-hearted criminal abjectly bows for mercy.

When a professor in the Corbione stated this to his class the other day one of the students laughed incredulously, and said it would take a good deal of that sort of thing to affect him.

The professor assured him that even one quart of water dropped slowly on his head would be beyond his endurance. He agreed to experiment.

A quart measure filled with water was brought in, a microscope hole was bored in the bottom, and the performance began, the professor counting.

During the first hundred drops the student made airy remarks. With the second hundred he began to look less cheerful, then gradually as he talked died away, and his face took on a haggard, tortured expression. With the third hundred the hand began to swell and look red. The pain increased to torture. Finally the skin broke.

At the four hundred and twentieth drop the septic acknowledged his doubts vanished and begged for mercy. He could bear no more.

## HOKEY AT QUEEN'S.

Queen's hockey enthusiasts are anxiously awaiting the cold weather, that the defenders of the tri-color may get at work. Queen's I will likely have a stronger bench than last year. Bennett, Macdonnell and Penlock will make a strong defense, and Crawford, Johnson, McLaughlin and Campbell are a good bunch of forwards. It is very seldom that the freshman class does not contain one or two good men, for either the first or second year. The Intercollegiate League this year promises to be no exception.

Indoor Baseball.

Six games of indoor baseball will be played by the armoured corps. A double header will be played Tuesday, Wednesday and Thursday evenings, the first game starting at 7:30 o'clock. On Tuesday night, "G" company play "H" company, and Wednesday night, "B" company play "D" company, "E" company play "C" company, and on Thursday night "F" company play the staff, and "H" company play "I" company.

## INCIDENTS OF THE DAY.

Both Portsmouth and Barriefield will likely make application to enter teams in the City Hockey League, and will likely be admitted. The City League, this year, promises to be stronger than ever, as several new organizations are entering. New trophies will be put up for each series, senior, intermediate and junior, and they will all be good ones.

Left For Watertown.

The Y.M.C.A. basketball team left for Watertown, this afternoon, and will play a game with the team there tonight. The team will very likely be crippled, owing to the fact that

## THE SPORT REVIEW

### THERE'LL BE A STRONG CITY HOCKEY LEAGUE.

Several New Teams Entering—Frontenacs to Meet Next Week—Queen's Favors Admitting Laval to Intercollegiate.

A meeting of the Frontenac Hockey Club will likely be held early next week, when arrangements will be made for the season. Everything bids fair to an excellent season being placed on the ice. Nearly all the old players have signified their intention of turning out again this winter, and a few dark horses are in the minds of the management.

"Chaucer's" Baseball League.

The Oswego, N.Y. Times says: The possibility of "Chaucer" Elliott trying through his International League scheme interests Oswegoans, especially the baseball element. It is the general opinion of the Oswego would have a team in the proposed league and that baseball in this city would be a financial success if this were done. Whether or not the International League is organized, Oswego is sure to have professional baseball next season, even if it must depend on the Empire League. "Mike" Roach says that the league will be continued, and that the armoured corps will play in smaller towns, if possible, and fill their places with larger cities.

The dose of the Diamond Cough Remedy is small. The remedy is pleasant, it is free from opiates, it is healing, soothing and expectorant. Cures coughs, colds, sore throat and hoarseness. No waiting for results. 25c. at Wade's drug store.

## THE NEW ART QUARTERS.

The first meeting, in their new rooms, on Brock street, of the Women's Art Association was held on Wednesday. The evening sketching meetings will be begun by a meeting at Miss Gierle's, King street, next Thursday. The afternoon readings on art will also go on this year.

Being Well Received.

Ald. Toye continues to be met with favor in all parts of the city, where he has canvassed for the mayoralty. The people seem to think that one like him, who has served ten years in the city council, and made a success of all civic matters that have come under his jurisdiction, would make an excellent mayor.

## HAD A GOOD TIME.

Last evening the members of No. 6 Loyal Orange Lodge, were hosts at a very pleasant smoker in their cosy rooms, on Princess street. An excellent programme was put on by the members and their friends, making the evening a most enjoyable one for all present. The committee in charge of the affair were Messrs. Milligan, Granger and McCann.

Board of Works Matters.

The city engineer's department has fifty men employed on new drains being constructed. All the drains will not be completed this year.

The board of works, yesterday, completed its tour of the city, making the purpose of deciding what walks needed replacing. There will not be nearly as many to build next year as during the past three years.

## THE SONS OF JACOB.

About six months ago, a new Jewish society was formed, under the name of the Sons of Jacob. Out of the forty-five families in Kingston, the Sons of Jacob have about thirty-five good standing members. During the six months much has been done in favor of Judaism. Last Sunday a meeting was held in the Y.W.C.A. building, on the corner of Sydney and Princess streets. It was resolved that the society should buy a piece of ground for a cemetery, and a committee was appointed of the following members: I. Zacks, J. Bennett and S. Shugerman. E. Zacks occupied the chair.

## AT THE UNIVERSITY

### DIVINITIES DEFEATED BY THE PHILISTINES.

He who thinks that the terms athlete and theologian are not synonymous is seriously in error, according to the following communication received by the secretary of final year science: "We, the venerable and august body of that most honorable order of theologues, duly descended in order from the sacred lineage of the house of Levi, and entrusted with the ancient archives and traditions of the fathers, and anxious to maintain the honor, and the untarnished name of that noble succession and to hand down to our successors in office a goodly report of our scholarship, do most openly and earnestly challenge, defy, even entreat our ancient adversaries of the Philistine camp of final year science to meet us in honorable combat at association football. . . . But the pulpwood problem bids us cease. The challenge is accepted by the prediction that "science shall be subdued so that they shall lift up their heads no more, that divinity may have rest and all her enemies be scattered." The challenge was accepted and the game was played on the lower campus, yesterday afternoon. It resulted in a victory for the "adversaries," by the score of one to nothing. The game was an interesting one, and was witnessed by a large crowd of students.

## SPORTING NOTES.

Ottawa College have decided not to enter a team in the Intercollegiate hockey series this year.

Oliver Davis, considered by many of the semi-professional fans in Chicago as the best pitcher of that class of the past year, has been signed by Manager Kelley, of the Toronto team, champions of the Eastern League.

There promises to be an abundance of hockey in Brockville this winter. The best aspirant for honors is the 41st Regiment, which is arranging to put a team on the ice that will likely figure in the O.H.A.

Harvey Pullford, the well-known Ottawa athlete, who witnessed the Harvard-Yale game, comes back with the idea that the forward pass would help the Canadian game, while now the American Rugby authorities are advocating to do away with the forward pass next year.

The Eastern Canada hockey season will open in Montreal on Saturday, Dec. 28th, with Montreal and Shamrock the contesting teams, and the schedule will end on March 7th with Quebec playing Shamrock in Montreal, and Montreal meeting the Senators on Ottawa ice.

An expert opinion on the disbanding of the International Hockey League is "The fall of stocks and reduction of wages has been the cause. Calumet, Houghton and the two Soos are mining centres, and there has been a great setback in trade there the past summer. The hockey players wanted more money, and it simply became impossible for the league to continue. Money is pretty tight out west now.

The Peterboro Rugby club, O.R.F.U. senior champions, are in good shape for their match in Montreal on Saturday for the Dominion Rugby Championship. Secretary McDonough received a wire from President A. B. Irvine, of the Montreal team, stating that if the Intercollegiate League is dissolved next year Peterboro can count on the support of Montreal for admission to the Western division. Montreal suggested as officials Russell Hamilton, of Gananoque, and Philip McKenzie, of Montreal, who refereed the game between Peterboro and Westmount two weeks ago. The officials are acceptable to Peterboro.

## THE FIRST INTERCOLLEGIATE DEBATE

of the session will take place next Thursday evening in Convocation hall, when Toronto University and Queen's will battle for supremacy. Queen's will be represented by D. C. Caverly, '08, and A. P. Menzies, '09.

G. A. King has resigned the position of curator of the arts reading-room, as he will not return to college this session.

At the regular fortnightly meeting of the Arts Society on Tuesday afternoon it was decided to purchase prints of the masterpieces of the ancient and modern masters of art, for the adornment of the arts class rooms. It was pointed out that these specimens would greatly facilitate the work of Prof. Cappon, who is delivering a series of lectures on "Art" to the honor English students.

"Observations in Manitoba" was the subject of a paper by R. Rose at this week's meeting of the Naturalists' Club.

A large number of the science students have become student members of the Canadian Mining Institute in accordance with the custom which has long been in vogue, at Queen's. B. R. McKay, '08, is engaged in enrolling new members.

A schedule of weekly inter-year basketball games has been arranged, the last game of the session to be played on February 29th.

H. W. Young has been nominated by the arts faculty for the office of treasurer of the Alma Mater Society.

The flurry and excitement of Alma Mater elections, now pervades the air. Meetings of election committees are numerous, groups of students are constantly to be seen conversing in ominous undertones on matters pertaining to the elections, and enthusiastic canvassers are stalking about among the "doubtful" ones, waxing eloquent in their solicitations of support. There is much enthusiasm but not the slightest trace of jealousy. Next week will be a busy week at Queen's, and the afternoon of Saturday, December 7th, will end it all.

At the regular meeting of the Arts Society on Tuesday afternoon, there was given notice of a motion that \$5 be granted the student who compiles the best art's yell. The science students have been in quest of a new yell for a considerable time.

The members of the freshman year in arts held their first annual social evening. One of the pleasant features of the evening was the address of the honorary president, Prof. G. R. Mitchell. A splendid programme was rendered by several members of the year and the informal hour of social intercourse which followed the refreshments brought to a close an evening of thorough enjoyment.
