THE FIRE COMMITTEE

ANOTHER REDUCTION IN INSURANCE RATES

May Be Asked From the Underwriters Shortly—The Firemen Do Not Receive Winter Clothing Have Made No Complaint.

At the fire and light committee, yesterday afternoon, were: Ald. Ross (chairman), Angrove, Nickle, Millan and Robertson.

The chairman said that the fire committee should approach some of the other civic committees and ask them to replace some of the hose. For instance the board of works had used 100 feet, and the water works committee 100 feet, the latter being used at the water works coal shed fire.

Ald. Nickle brought up the question of winter clothing for the firemen, referring to the article in the Kingston News, which stated that the firemen had not sufficient clothing and were shivering from the cold.

The chairman asked if something further should be done to approach the underwriters to get a further reduction in the fire insurance.

The fire loss here for the past ten years has been tremendously low. The citizens had to pay for the high fire rates, notwithstanding the fact that the fire loss here for the past ten years has been tremendously low.

It has the same power to-day. Boys and girls who are pale and weak get food and energy out of SCOTT'S EMULSION. It makes children grow. : : :
