### Goldwin Smith Condemns Local Option

WIRITING to the Toronto Globe, Professor Goldwin Smith thus expresses his views on Local Option "I do not think it possible

to enforce total abstinence The taste for fermented liquors is common to all races of mankind, and it antedates the beginning of history. This taste the extreme prohibitionist hopes to eradicate by a single stroke of prohibitive legislation. Unless he can eradicate the taste, experience shows he cannot put down the habit. In the attempt radically and suddenly to change the habits of mankind by law, I have no faith whatever, and I appeal to multiplied and decisive experience as a warrant for my unbelief."
