NEW SCIENTIFIC PROCESS.

A Preparation Discovered That Will Destroy the Dandruff Germ.

For some time it has been known that dandruff is caused by a germ that digs up the scalp, into little white flakes, and by sapping the vitality of the hair at the root, causes falling hair, and, of course, finally baldness. For years there have been all kinds of hair stimulants and scalp tonics on the market, but there has been no permanent cure for dandruff until the discovery of a preparation called Newbro's Herpicide, which destroys the dandruff germ. Destroy the cause, the effect will cease to exist. Kill the dandruff germ and you'll have no dandruff, no itching scalp, no falling hair. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and \$1.—G. W. Mahood, special agent.

An Appreciation.
 Rev. J. de P. Wright, M.A., rector of Ameliasburg and Hillier, was recently the recipient of a purse of money from his parishioners to purchase a coal stove. E. Terry, church warden, of Hillier, in making the presentation, stated the people wished to show some token of affection to their rector and Mrs. Wright, and also an appreciation of his services since coming to the parish, for which purpose the purse had been donated. The rector, in accepting the gift, said he prized it not so much for its intrinsic value, but for the spirit in which it had been given. His parish was an extensive one and it was most cheering to find his efforts so well appreciated. The coal stove would ever remind him and Mrs. Wright of their parishioners in Ameliasburg and Hillier, whose warm hearts had prompted so generous a gift.
