In comparing the two teams the above seven played the better game. Anglin, Robertson, Macdonnell was always there when called upon. The Frontenacs clearly showed the want of practice and a general on the ice. Their combination was very poor and their team work and combination was conspicuous by its absence. They were badly crippled on the forward line by the loss of Hunter, who was injured in practice last week, and Cooke's ankles were giving him lots of trouble. Ainslee and MacDonald were the stars of the forward line, the latter putting up a fine game. He is a worker from start to linish and is up to all the tricks of the trade. The team was also a litfense, and many times he would break up the charges of the St. "Georges forwards, when a goal seemed certain. Sowards, in goal, played a good game, and Dowsley showed up well at over. Lalonde, at rover, played fairly well, but is very slow in getting started, and can check back better than he did on Wednesday night. With a few good hard practices the Frontenacs should improve a hundred per cent., and when these two teams meet. again a good game should be the re-

At the end of the first half the score stood 2 to 0 in favor of St. Georges. Macdonnell getting both goals, after the whole forward line had made rushes the length of the rink. In the second half the first goal was scored by Robertson, after a nice rush unassisted. This was disputed, but afterwards allowed. The goal judge was displaced.
