QUITE A QUEER CASE.

WOMAN SEIZED WITH LOCK-JAW, DOCTORS PUZZLED.

Nothing Could Be Done For Her and She Died Yesterday—Did Not Remember An Injury.

St. Catharines, Ont., Jan. 18.—Local physicians are greatly puzzled over the death of Mrs. Sarah M. Leith, the young wife of Peter Leith, which occurred at her home in Welland avenue, yesterday. Mrs. Leith, a day or two ago, suffered from what she believed to be cold, there being no trouble with swollen glands and stiffness of the limbs. A doctor was called in but he did not think there were any serious symptoms. At four o'clock yesterday morning Mr. Leith was awakened by low growling of his wife. Her jaws had become so rigid and she was unable to speak. The doctor was hurriedly sent for, and he at once pronounced it a case of tetanus or lockjaw. Death occurred some hours later after a series of convulsions. The family and the physician are unable to account for the lockjaw, as far as they know there had been no injury recently. Mrs. Leith herself declared that she did not remember receiving any bruise or injury.

QUEEN'S WON EASILY.

Defeated McGill By Seventeen Goals to Three.

Montreal Gazette. Queen's overwhelmed McGill in the opening game of the intercollegiate series, last night. The Kingston seven defeated the local student team at the Victoria rink, by a score of seventeen goals to three. The attendance was small, some three hundred only, chiefly students, being present. The one-sided scoring killed the interest in the game at an early stage in the play.

McGill, with an almost entirely new team, was defeated at almost every point by Queen's, whose line-up was largely composed of players with two or three years senior experience. Bennett, in goal for Queen's, is a newcomer, but McDonnell, point, Crawford, centre, and Benson, right wing, were members of Queen's championship seven of two years ago, while Pennock, cover point, and Campbell, rover, were playing senior last season. Benton, at left wing, is a former McGill player. McGill presented an entirely new and untried forward line, while Cassille, the cover point, was also a new one. Mather and Wallace were the veterans of the team.

Queen's should stand a good chance for championship honors this season. The team is a good one from goal to centre, the forward line playing a nice combination game, and having speed, while the defence is of the new style, one that can rush as well as block.

Williams, one of the town's very prosperous and popular men. The pretty bride was given away by her father, and wore a wedding gown of point d'esprit, over silk with trimmings of Irish point and satin ribbon. Her shower bouquet was of bride's roses, and her hair was caught to her prettily coiffed head, with orange blossoms. The pair were attended, Rev. J. W. Baird officiated, and the guests numbered about twenty. The groom's gift to his bride was a sapphire ring set in diamonds. Mr. and Mrs. Williams left, after the wedding breakfast, for a trip to Buffalo, Toronto, and Ottawa. The bride has many warm friends here, who she spent her girlhood, and congratulations of the heartiest nature accompanied her westward to her.

CURE RHEUMATISM DR. WILLIAMS' PINK PILLS WILL DO IT. Every Form of the Disease Yields to This Blood Purifying Remedy—Reasons and Proofs. It is easy to make the statement that a medicine will cure rheumatism, but a rheumatic sufferer must have more than mere statements—he must have both reasons and proof. Dr. Williams' Pink Pills cure all forms of rheumatism. Here is the reason: Rheumatism is a disease of the blood. Every dose of Dr. Williams' Pink Pills actually make new, rich, red blood—this new blood drives out the poisonous acid, loosens the aching joints, and rheumatism is banished. Thousands have testified to the truth of these statements, and here is further fresh proof. Rachel McEntegry, of St. Jerome, Que., says: "For many years I was a victim of rheumatism and was almost a cripple. My work made it necessary for me to be on my feet a good bit of the day, but my limbs became so swollen and the pain so agonizing that I was forced to stop work. I tried remedy after remedy, but nothing gave me relief and I began to think I would never get better. At last I was persuaded to try Dr. Williams' Pink Pills. In less than a month I noted a slight change in my condition. I continued the pills for three months and at the end of this time the swelling had disappeared; every pain and ache had left me and I felt better in every way. I was completely cured and once more able to go about my work with ease. Dr. Williams' Pink Pills are certainly worthy of all the praise I can give them."
