THE 5 P.M. EDITION HELD FIRST MEETING

MATTERS BEFORE FIRE AND LIGHT COMMITTEE.

Fire Chief's Report and Recommendation to Be Taken Up at Next Meeting.

The inaugural meeting of the fire and light committee, of the city council, was held on Friday afternoon. The chairman, Ald. Rigby, was in the chair, and also present were Alds. Nickle, Robertson, McCartney, and secretary, Dr. Sande.

The report of Fire Chief Elmer, which came before the city council at its inaugural meeting, was read, and allowed to remain over until the next meeting, as the members wish to have the chief present at this session to secure certain information regarding the department. The members have not yet "got into business," as it were, and it was felt that these matters could best be taken up at the next meeting. The statistics concerning the fires during the year, have already appeared in the Whig.

Fire Chief Elmer is asking for an increase in wages for the firemen, stating that the increase in the cost of living has made it necessary for the men to ask for more money.

"If it is the intention to retain No. 2 fire station," wrote the chief, "I would advise the installation of the hot water system for both the fire engine and the building, in place of the gas as at present."

The chief also asked for winter uniforms for the men, or that a yearly allowance be given to have a standard cloth selected, each man to furnish his own suit, and keep it in good condition.

In the matter of securing hose, to replace that which was destroyed in the recent fire at the waterworks building, it was decided to ask Mr. Mitchell to fill out his contract, and supply Peerless hose.

It was decided to ask the finance committee for the sum of \$200, to meet contingencies, and an account for \$75.30, a gas bill from last year, in connection with the fire steamer, was referred to the chairman, and excused from the committee. There are no funds of the committee left from last year, and it will have to come out of the general fund. The chairman and members of the committee did not see fit to pass the account.

The committee will take up the estimates for the year, at the next regular meeting.

A devotional meeting was conducted by Mrs. (Rev.) Dr. McCullum, with great helpfulness to all present. Three new members were received. The auxiliary added to their long list of furnishings, new chairs, for the boys' department, and other articles, which go to make the association attractive. Monday evening at 6.30, the ladies entertain Mrs. E. M. Thomason and members of the board of directors. A report was given of the Washington convention, to which an association delegate had been sent.

Electric Light Reduced.

Electric light is reduced to 10c per kilowatt for private use. One five-candlepower lamp will consume one kilowatt in fifty-eight hours. A light is burned on an average two and a half hours each night. You can see that one kilowatt will be consumed in twenty-two days and the cost is 10c. Much cheaper than coal.

Not Approved Of.

The action of Ald. Gaskin, chairman of the board of works, in barring the reporters from the meeting, on Thursday, is not approved of by the citizens at large, and several have spoken to the Whig about it. "The aldermen are elected to serve the public and to spend the people's money, and they have no right to keep out the members of the press," said one ratepayer. And this was the opinion expressed by a great many more.

WAS GIVEN SIX MONTHS.

Agnes Jones Will Go to Mercer Reformatory.

Although she protested very strongly that she was not guilty, Agnes Jones, a young woman, was sentenced by Magistrate Farrell, at the police court, Saturday morning, to six months in the Mercer reformatory on a charge of vagrancy.

The young woman was placed under arrest Friday night on Princess street, at 10.30 o'clock, by Constable Mullinger, and that officer gave evidence against her. "She is on the street every-day, and half the night," said the officer to the court. "She is not working and has no home in the city."

Constable Mullinger further stated that the accused was a chum of the two wayward girls sent to jail last week.

"I don't know about that," said the prisoner.

The magistrate said that the prisoner should have learned by this time, that there was but one end to this sort of life and he would send her to the Mercer reformatory for six months.

"But I was going home Monday or Tuesday," pleaded the young woman. "All I can say is that you should have gone before this," said the court.

A drunk was arraigned, pleaded guilty, and was fined \$1 and costs, or ten days.
