"Its Only a Cold, A Trifling Cough."

Thousands have said this when they caught cold. Thousands have neglected to cure the cold. Thousands have filled a Consumptives grave through neglect. Never neglect a cough or cold. It can have but one result. It leaves the throat or lungs, or both, affected. Dr. Wood's Norway Pine Syrup is the medicine you need. It strikes at the very foundation of all throat or lung complaints, relieving or curing Coughs, Colds, Bronchitis, Asthma, Croup, Sore Throat, and preventing Pneumonia and Consumption.

It has stood the test for many years, and is now more generally used than ever. It contains all the lung healing virtues of the pine tree combined with Wild Cherry Bark and other pectoral remedies. It stimulates the weakened bronchial organs, allays irritation and subdues inflammation, soothes and heals the irritated parts, loosens the phlegm and mucous, and aids nature to easily dislodge the morbid accumulations. Don't be humbugged into accepting an imitation of Dr. Wood's Norway Pine Syrup. It is put up in a yellow wrapper, three pine trees the trade mark, and price 25 cents.

Mrs. C. E. Bisnette, Lombardy, Ont., writes: "I have been troubled with a hard dry cough for a long time, especially in the mornings, but after having used Dr. Wood's Norway Pine Syrup, for a few weeks, I find my cough has left me. I can positively say that this remedy is well worth a trial."

Synopsis of Canadian North West

HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

An application for entry or cancellation made personally at any sub-agent's office may be wired to the Agent by the Sub-agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" or fraud the applicant will forfeit all priority of claim or if entry has been granted it will be summarily cancelled.

An application for cancellation must be made in person. The applicant must be eligible for homestead entry, and only one application for cancellation will be received from an individual until that application has been disposed of.

Where an entry is cancelled subsequent to institution of cancellation proceedings, the applicant for cancellation will be entitled to prior right of entry.

Applicant for cancellation must state in what particulars the homesteader is in default.

A homesteader whose entry is not the subject of cancellation proceedings may subject to the approval of Department, relinquish it in favor of father, mother, son, daughter, brother or sister if eligible, but to no one else, on filing declaration of abandonment.

DUTIES—A settler is required to perform the duties under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother.)

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowance crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may upon having a survey made, and upon complying with other requirements, purchase the land at $1 per acre.

The patent provides for the payment of a royalty of 2½ per cent on the sales.

PLOUGHING NEAR SASKATOON

Cheery Voice From the Far North West.

Perdue, Sask., Jan. 15.—As an old resident of Kingston, I send New Year greetings. This town lies about forty-five miles west of Saskatoon, on the C.P.R. new line. There is fine farming country for wheat on three sides of this town, about eighteen miles north to the river, about the same distance east, and as far as you like to go south. But towards the west you come into the hills, which, however, make fine pasture lands. Farmers are selling wheat now, No. 3 northern, for seventy-five and eighty cents per bushel. Oats are worth forty cents per bushel. Hay is six dollars per ton, and straw can be had for the drawing, as most farmers burn it after threshing. They use straw for fuel in threshing and grinding feed. Good cows are worth from $40 to $50 apiece.

An old resident of Kingston township, E. Lafonteese, raised for his first crop about 950 bushels of wheat and 1,000 bushels of oats—not a very big crop, but he was late getting in a year ago last spring, and did not get much breaking done. We can raise almost anything in vegetables and keep them without freezing. This is my first year out here, but the weather is everything a person could wish. We have had no rain since the last week in September, but that did not affect the ploughing, and, strange to say, people were at work last week on their land, harrowing it and getting it into shape for an early spring. I would hardly have believed it, had I not seen it myself and never saw land work up better down east in the spring than this does now. Very little snow on the ground and heavy loads nearly all go on waggons. The roads as yet are nearly all trails and not much grading. To give you an idea: I wheeled into Saskatoon from here in less than eight hours, for Christmas, and wheeled out again, after New Year's, in about the same time.

Trains are not yet running, but we expect them in the early spring, as they are running within fifteen miles of here, to a town called Asquith. We have two general stores, a hardware store, a feed barn, a dray barn, and we expect two churches in the spring, also a resident doctor, a graduate of good old Queen's, Dr. Snider. We expect to see the town take a big jump next summer, as everything goes to show it will be big. I was put in as councilman for this township by a good majority, for 1908. The townships here are six miles square, and only have one man each, and four townships make up the council board. —Yours very truly, JACOB J. GARDINER.

The Vile Usurer.

Toronto News.

In London, England, a crusade has been started against the usurers who fatten upon the misfortunes of the poor and extract from their victims interest rates as high as 200 per cent. One charwoman has paid $1,050 on a loan of $105, and another has committed suicide after returning $15 on an original accommodation of $3.50. Two or three years ago several of these human leeches were driven out of business in Toronto and Montreal, and legislation was introduced to curb their activities in future. Nevertheless judging from certain tempting advertisements of money lenders, the Canadian usurer is again plying his infamous trade.

THE SPORT REVIEW.

Interesting News From the Various Sporting Fields.

Ottawa Vics and Cornwall are the only clubs left in the Federal Hockey League.

The baseball war wages merrily between President Pulliam and Patrick T. Powers with honors in favor of the Irishman, and the National League chief threatens to resign.

The E.C.H.L. race is going to be the most interesting for several years with so many teams about evenly matched. Montreal seems to be the only really weak team in the bunch.

Claude Pearce postponed his run from Hamilton to Toronto until today. Pearce had made all his arrangements for the run, yesterday, but the condition of the roads made the undertaking too strenuous.

Toronto Telegram: Those Parkdale Paddlers shouldn't try to play senior hockey so far away from home. Monday night's game was one to which distance didn't lend a trace of enchantment.

Toronto Globe: If that Pembroke constable would only "pinch" the whole Ottawa Valley and Federal League outfits he would confer a great benefit on hockey and on the communities they infest.

Porter, the champion indoor high jumper, who joined the Irish-Canadian A. C. when he came to Toronto some weeks ago, is in trouble with the A.A.U. His case was to have been disposed of last night, but it was laid over until Wednesday. Porter's offence consists in not having competed in games in New York for which he had entered.

Jake Gettman, the left-handed centre fielder of the Buffalo ball team for some years past, has been traded to Toronto for Hesterfer, the south-paw pitcher, and Keister, recently secured by Toronto, and for the past three years with Jersey City, in right field and second base. Gettman has no superior as an outfielder in the Eastern League.

Tyrus Cobb, champion batter of the American Baseball League last season, has returned unsigned to Mr. Navin, president of the Detroit team, his 1908 contract. Mr. Navin, however, says that Cobb's differences are not so great but that he and the club will come to an agreement all right. It is said that Cobb asked for a $5,000 salary and a three-year contract, with a stipulation that he be paid if injured or sick.

Montreal Star: Last Friday's game with Queen's at least had the advantage of showing McGill the weak points in her team, and with a general shake-up in their forward line the red and white will endeavor to retrieve their lost honors by administering to Laval the same treatment as Toronto gave. At last night's practice several new men were brought out, and desperate efforts are being made to coax some of the old stars onto the ice. Oliver Waugh is going to turn out, and perhaps one of the Raphaels. Ekers, Dunn, and Chrysler were out last night for the first time, and with several other good men in view the chances of the team are beginning to look up.

Toronto Star: The Soldier forwards simply ripped the Parkdale line and defence to pieces when they wanted to, and notched up goals. The Paddlers kept right at work all the way, and had the puck more than half the time, but they were ineffective. They beat the Soldiers' forward line time after time, but the defence was the rock upon which they wrecked the fondest hope of the few rooters they had. This Kingston defence is good—real good. The Soldiers' forward line is fast—like lightning—and they handle the puck well; but at that the chief feature of the Soldiers' game was the work of their defence. Every Parkdale man who went in there knew that he was in the enemy's territory by the way he was slam-banged. Powell and Steacy gave a correct imitation of the "take the man, and the puck will take care of itself" game. They took care of the Toronto forwards to the queen's taste, and the result was that inside of five minutes they had them shooting from away out or so, flustered when they did get inside that they shot any old way—and usually that was a very poor way. Kingston was good all the way. George Richardson was the bright and shining star, with dazzling speed and shooting ability, but don't overlook Crawford, a junior, at rover. He is good all the way. He handles his stick well, skates like a fiend, and bores in all the time. The Kingston defence was great. Hiscock is a wonder, and Powell and Steacy broke up the Parkdale rushes steadily and effectively. Parkdale was in there all too much for them.

Eating Carelessly

frequently causes stomach troubles, but careful eating will never right them. When your stomach is out of condition, it needs help that no food can supply. It must be thoroughly cleansed, settled and strengthened. Food never does this.

BEECHAM'S PILLS

Give Beecham's Pills a chance and you will again know the pleasures of a sound digestion. Appetite will return and the stomach again work without any discomfort.
