THE CANTEEN IN EVIDENCE. army canteen, and the very queerest appear in the report for 1907, of the war department's chief of staff. He undertook to collect information upon the subject, and on the strength of it declared that the abolition of the can-

een was an injury to the service.

As if anticipating the question as to why this should be so he declared: "When the canteen was in operation there were fewer desertions, fewer fines and forfeitures imposed by entence of court-martial, less alcoholism, and less venereal disease than prior to its establishment." This is a remarkable statement. The writbefore the canteen was abolished, and isfy most people that the liberal parer is contrasting conditions now and what happened before it was establerement. The opposition had great Offill

A CALL TO ORDER.

The Ottawa Journal has been of late regarded as among the most pronounced admirers of the conservative party and among the most persistent critics of the liberal party. But has made a declaration on one question which recalls the time when it was independent and discussed political subjects upon their merits.

There was a demand, it will be remembered, some days ago for the production of original state papers when copies of them had been supplied. The discussion became acrimonious. Later Mr. Borden, in going into supply,

made a motion the subject of which was to ascert the right of a member to have the original papers when he wanted them. The premier agreed, adding that there should be reason for 10 degrees stronger, \$3; No. & for special cases, \$5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE SOUR MEDICIES GO., TARONTO, ONT. Cormerly Windsor.

Mr. Foster sneered at the premise.

Mr. Foster sneered at the premier, and some of the party papers spread broadcast the idea that Sir Wilfrid had surrendered! The Journal contrasts the position of the men, saying that one played the part of a statesman, and the other the part of a politician. It proceeded:

"A wast proportion of Canadian liberals are as honest and patriotic as the vast proportion of Canadian conservatives, and public administration under liberal auspices is certain to Boll Bacon, 124c. per lb. For a quick include a great deal that is admirable as well as some things that are not. Anybody who sneers at everything that is done by his opponents is sure to make himself of little effect as a critic of anything they do at all. Sir Wilfrid Laurier showed his strength of mind and honorable public spirit when he withdrew from the position first taken regarding public documents. Had Mr. Foster bonestly and frankly congratulated him and parliament upon this vindication of constitutional would have shown not merely both a generous and a patriotic spirit but shrewd politics.

The Journal, in this tribute worth and rebuke to rank partizanship, reached a high plane of public criticism, and its remarks will be wellconsidered by both liberals and conservatives.

SPENDING THE PEOPLES' MONEY accounts, while in Europe on public business, has been carried to extremes. The contention of the critics is that the minister has been widely extravagant. It was not intended that he should seek the cheapest lodging houses of London and Paris while visiting them. Nor was it expected that he should live like a prince and in a flashy fashion because the people! were paying for it. The question is admit that the senate should be rewhether the expenses are reasonable, for him and his official party, and the auditor-general should answer that question to the satisfaction of the

OF MILITARY BUTTONS AND ACCOUTREMENTS.

Sergt. Brough, of This City. Has Served Eighteen Years in Service-Now Attached Ordnance Store Corps.

A collection of military buttons and other mintary accourrements which has taken many years to get together is in the possession of Sergt. Brough a well-known kingstonian, residing at 149 Barrie street. Sergt. Brough is attached to the Ordnance Store Corps of the old time funny shells, swords, The tories are very much opposed to things used in military circles, too numerous to mention. The buttons

> Sergt. Brough has taken a great deal of pains with his collection, and it is one that he has every reason to prize very highly. The collection has been placed on a shield which is starshaped, and everything has been arranged in perfect order, so as to give it a fine appearance. The shield is four feet in height, and as an ornament alone, it would be very hard to get something better. Some bullets fight, have a place in this fine collecion. The buttons have been used by

lantry, cavalry and artillery. It will be of interest to note, that Sergt. Brough has just completed 28 years in the service. The first time he enlisted, was on July 7th, 1874, when he was taken on in "A" battery. After he served several years he retired for a time, but soon returned to his first love.
