COAL

THIS IS THE POINT There's no use buying coal unless it's the right sort. The "right sort" means well screened, full weight, leaving as little ash as possible, and that's the only kind we handle.

THE WHIG, 74th YEAR

DAILY BRITISH WHIG, published each evening at 306-310 King street, Kingston, Ontario, at 50 per year. Editions at 2.50 and 4 o'clock. Attached is one of the best Job Printing Offices in Canada; rapid, stylish and cheap work; nice improved presses. The British Whig Publishing Co., Ltd. EDW. J. B. PENNE, Managing Director.

Daily Whig.

HIS OWN AVENGER.

People have almost rejoiced, in a hard-hearted way, when a railway director suffered in a smash-up, feeling that the incident might lead to greater vigilance. The arraignment of a clergyman in Brooklyn, for criticising a judge's decision in a social reform crusade case, is eliciting strong opinions from pulpits and press. The indecency of a judge trying a man for an offence against that judge's own feelings has gone on for generations. A man being both prosecutor and judge is destructive of impartiality. The secular press has long suffered injustice in the practice, but the pulpits made no protest till Canon Chase was involved. Now even Secretary Taft speaks out in disapproval. If only a bishop or a senator would put himself in the way of arrest a better law would come surely. The defendant should have the privilege of demanding reference to another judge, and even then he will have a hard time of it, so great is the force of judicial etiquette and sympathy on the bench.

ENTRANCE TESTS ARE GONE.

The education department has reached the same conclusion that the education of our youth is not to be regulated hereafter by their ability to stand certain specified tests. The minister (or the superintendent of education, as he is the technical authority), has decided that the progress of many students has been seriously affected by the examinations. There has been only one way of passing from the public school to the high school, and from the high school to the university or training school, and it has reduced all the candidates to a common level. It is conceded to be right and just that those who are going into the professions should be adepts in certain subjects, important in themselves and essential in certain walks of life. But those who are going into industrial pursuits and seek the highest technical training the colleges afford, should not be handicapped by a devotion to studies which can have no material relation to the work they have in view.

Hence the abolition of the entrance examination, and the adoption of the "approved school system," which will allow students access to the secondary schools with the understanding that they, the model and normal schools, and even the school of education, will give to the requirements of the teaching profession the attention that will overcome any defects in the standing of the students in the lower schools. Here is the point of special interest to our school board, as it touches a question which came up last year, and was referred to the school management committee.

"Subject to judicious departmental control and direction, it is the aim of the education department to place upon the trustees and the teachers the responsibility of providing, according to local needs, the education for his life work which every pupil has the right to receive. As a result largely of the dominant examination influences, our school system has failed to take sufficient account of our economic condition. We have educated too many for clerical and professional pursuits, in which there is little room, and too few for industrial pursuits in which there is always room. The future of Ontario demands that this shall cease."

The proposal to found a class in connection with the public schools, to do advanced work and have reference to those who are destined for industrial and commercial service, takes on an important aspect in view of this latest declaration from the education department.

EDITORIAL NOTES.

Seeing that Quebec has so little consideration for Mr. Borden and his friends they had better abandon it to its fate.

There was no comfort in the Stantest election for the conservative party and it has been already forgotten.

If Mr. Ames thinks the public documents are not correctly copied, or that they are tampered with, why does he not say so? Is he afraid of a test?

The World is alarmed over the incursions of the Clan Maclean into the House of Commons. The new representative of the clan will not do discredit to his friends or namesakes.

Hon. Adam Beck, an anarchist! That is the term applied to him by the Toronto News. He is attempting to do the impossible, namely, prevent the extension of business by capitalists in the west.

Tom Lawson essayed to serpe people, to guide them in their investments or speculations, so that they would get the best of the Wall street gang. His advice does not seem to

have been taken, and Mr. Lawson has abandoned them. Smarting under a sense of their ingratitude, he calls them "safrican blooded apes."

Mr. Hughes is said to be willing to have his name offered as that of a presidential candidate. He is in some respects the superior of Roosevelt, who seemed until lately the only possible resort of his party.

Beattie Nesbitt, thrown down real hard by the electors of Toronto, declared that he would live to make a new fight, with partyism pre-eminent in everything. He is at work in the Albany Club. It remains to be seen with what success.

Mr. Hess, now in Kingston, said when in Toronto; that if the women of the United States wore shorter gloves and gave the value of the kid between their wrists and elbows to missions, there would be an offering of twenty million dollars.

WILL IT BE LEASED?

Offer Made For Use of Steamer Wolfe Islander.

Wolfe Island, Jan. 24.—The newly-elected council took their seats last Monday. Very little business was transacted, owing to the absence of one of its members. The reeve and Councillor Keys were delegated to settle the threatened action of the Cataract Bridge company against the township, caused by the steamer Wolfe Islander last summer. There are several applicants for the captaincy and purserhip. A manager will have to be appointed, as ex-Reeve Brice-land's time expires the first of February. It is stated that Thomas Hutchinson is anxious to charter the steamer, and when the council convenes the first of February, he will make an offer. Many hold to the opinion that it would be better if the boat was chartered to some individual, proper security to be given, the counter to fix rates and specify trips. Very many thinking the contrary, and for that reason the pros and cons are being discussed.

William Card will break the road over the ice and build the approach to the wharf at Kingston. Mr. Allison's many friends are glad to learn that he is able to be out again. John O'Reilly, who has spent the past week with his friends here, will leave for his home in Portage la Prairie tomorrow. James Berry, Jr., will accompany him to take charge of a farm of his in the west. The A.O. U.W. will hold its annual ball on February 12th. The C.M.B.A. will hold its ball the following week. The sailors also talk of having a ball shortly. The familiar faces of Thomas Muckian and William Horne are again to be seen driving the Cape Vincent stages. A gang of men are busily engaged repairing the telephone line, after the recent sleet storm.

If They Would Do It.

Rev. Isaac Hess, in the city with the Christian Alliance workers, believes that the waste of people would float the missionary enterprises on the top wave. "If the women of the world," he said, "were to wear short-gloves, and give the value of the kid between their wrists and elbows, to missions, it would add \$20,000,000 to the income of missionary societies." Thirteen millions is spent by American women on poodle dogs, in a year; the people chew \$14,000,000 worth of gum, consume \$176,000,000 worth of confectionery; spend \$700,000,000 on jewelry, \$800,000,000 on tobacco, and the enormous sum of \$1,200,000,000 on whiskey and beer. He declared, further, that if unnecessary things lying around the homes of Christian people of the United States were to be gathered up, they would bring enough to buy 500 ships, load them with Bibles for ballast, fill them with missionaries, and maintain them in the foreign field for fifty years.

A Sacred Recital.

A complimentary recital of sacred music will be given in St. George's cathedral, by the Kingston Vocal Students' club, on Tuesday evening next, Jan. 28th, at eight o'clock. The general public is cordially invited to attend.

A Pole In Bad Place.

One of the poles erected, last spring, and located at the corner of Wellington and Gore streets, was the means, yesterday, of causing an accident. It stands right at the corner, and in the road, and teams frequently collide with it. On Sunday a local doctor's rig ran into the pole, and sustained some damage. Citizens complained of the location of the pole last summer, and still point out that an accident is sure to result.

Explains Why Doctors Fail To Cure Many Sick Women.

Disease in the kidneys is one of the last ailments for which a doctor looks when treating women. This is a great mistake. Women are very prone to kidney troubles and in fact many physicians attribute a woman's languor and ill-health to a derangement of the genital organs, when it's simply plain kidney disease, and nothing else. Many so supposed female complaints are either kidney or bladder diseases. Sick kidneys of course make associate organs sick also. The result is back pain, bearing down sensations, utter weariness and headache. But Dr. Hamilton's Pills go right to the spot. They put life into the kidney that makes a worn out woman feel like new. Indirectly the blood and nervous centres are assisted by Dr. Hamilton's Pills, and the result is a proper performance of the function and a

CHALLENGE FALSEHOOD.

About Time to Put a Stop to It.

Kingston, Jan. 23.—We, the undersigned deny in all its details the statement made by the Kingston News of Thursday, that one of its reporters was present in the operating room at a recent date and witnessed stitching by the operator while working the machine. This story is made of whole cloth. No investigation of the Bijou theatre was ever made by any reporter or editor of the News. We challenge the editor of the News to confront us with the man who makes this false statement. If there is any truth in it, the editor will not be afraid to give his authority.—John Cairns, Operator; Gordon Staley, ex-Assistant Operator.

Simple Life For Sweden's King.

Stockholm, Jan. 27.—The Aftonbladet publishes an account of an interview with the king of Sweden, who is reported to have said that the decision not to let himself be crowned was taken on his own initiative, as he considered a coronation an unnecessary ceremony and one not in accordance with the spirit of the age. His majesty also said that the ceremonial at the opening of parliament would be simplified, as he had for a long time regarded it as antiquated. He added that so far as his personal inclinations were concerned he wishes for nothing better than to lead a simple and frugal life.

When Stomachs Falter.

When your digestion is imperfect the whole system suffers. Other organs become involved and headaches, biliousness, heart and nervous troubles may arise. Day's Dyspepsia Cure removes the original trouble as well as the complications and symptoms. This preparation has digestive, tonic and laxative properties. Each bottle contains sixteen days' treatment. For sale only at Wade's drug store.

Harvesting In January.

Liverpool, Jan. 25.—The unique sight of harvesting corn crops in January has been witnessed in Bransford Fen, Lincolnshire. Several fields of wheat, barley and oats have been cut by auction as they stood in the fields. A miller purchased the crops, which have just been cut and gathered. It is proposed to celebrate the novel event with a harvest supper to the men engaged in the work.

Swiss Musician For Berlin.

Berlin, Jan. 25.—M. Marteau, who has been professor at the Geneva Conservatoire for many years, states that the news of his appointment as Dr. Joachim's successor at Berlin is premature, though an offer has been made. Negotiations are proceeding with the approbation of the kaiser, and a settlement is expected this week.

Vegetable Cough Specifics.

The Diamond Cough Remedy, made of Wild Cherry, Hoarhound, Elocampans and like remedies. No opiates. Pleasant, prompt and certain cure for Coughs, Colds, Sore Throat and Hoarseness. Equally good for young or old, 25c. at Wade's drug store.

Church Relics As Bedstead.

London, Jan. 25.—The vicar of Henfield, Sussex, has secured at a sale painted boards containing the Creed, Lord's Prayer and the Ten Commandments, which formerly hung in the church, but had been converted into a four-post bedstead. The boards will be restored to their place on the walls of the church tower.

Nonagenarian Drover.

London, Jan. 25.—David Strange, a ninety-four-year-old drover, wearing a smock, applied to the Ipswich magistrate, yesterday, for a license exemption for his "dog." The mayor told him the law did not allow this to be given, but paid for his license.

Corns Will Go.

You have no corns that cannot be thoroughly removed in a few days with Peck's Corn Salve. The remedy does not fail. In boxes, 15c. at Wade's drug store.

Gas Company And Council.

Dublin, Jan. 25.—The Fermanagh Urban Council has refused the local gas company permission to open roads unless the price of gas is reduced. The company retaliated on Saturday by reducing pressure, and the town was plunged in semi-darkness.

CHEAP, EFFECTIVE, PALATABLE. APENTA HUNGARIAN NATURAL PURGATIVE WATER.
