

"Life in Every Dose"

"I cannot speak too highly of Pyc... for it is the greatest medicine I ever used. I was just about 'all in' when I began the treatment, and in three months I was as well as ever. It is a great tonic for weak and run-down people. There is new life in every dose."

JAS. STOLKER.

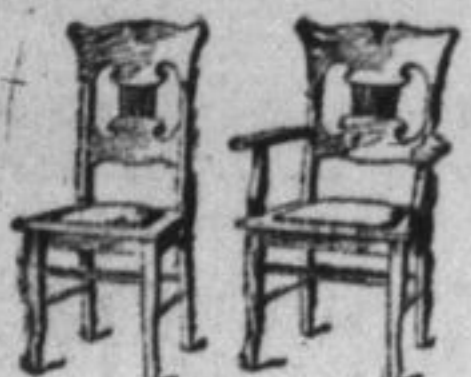

Ridgetown, Ont., Dec. 19th, 1906. It is a sin not to tell your friends about this wonderful prescription. Throat, lung and stomach troubles, and all run-down conditions quickly cured by its use. At all druggists, 50c, and \$1, or Dr. T. A. Sloucum, limited, Toronto.

We Have All Sizes from 60c.

R. McFaul Carpet Warehouse.

A GOOD HOME

Is the best legacy left to one's family. Why not own your home? Thousands are enjoying the privilege.

It is no longer a luxury, but an economy. A home of your own, a constant bulwark against adversity and a comfort in old age.

You will find a choice selection of homes and investments in real estate at McCann's, 51 BROOK ST.

THE SPORT REVIEW

LAVAL II-QUEEN'S II GAME WAS CALLED OFF.

Queen's III and R.M.C. II Meet Again This Evening—What 14th Has to Do to Win the Eastern Senior O.H.A. Group.

The Laval II-Queen's II game hurriedly called for this evening has been hurriedly called off again. The rink received a message at nine o'clock, Tuesday morning, saying that Laval would play on Wednesday evening. At nine o'clock, Tuesday evening they got another saying that Laval could not come.

Work Before the 14th. The 14th team will work out at the Kingston rink after "the game" tonight. The boys realize that they will have a hard game in Toronto on Saturday and are working very hard. They have to defeat both Parkdale and St. Georges to win the group, but they feel that they are capable of the task. They play Parkdale in Toronto on Saturday and St. Georges here next Wednesday.

Waldron's Won Out. In a city league basketball game at the Y.M.C.A., on Tuesday night, Waldron's defeated St. James, by a score of 15 to 11. The game was a very interesting one throughout, both teams showing up well. Physical instructor Burton was referee, and W. Henderson acted as umpire.

G. T. Railway Hockey Team. The following team from the Grand Trunk would like to play the K. & P. team for money, marbles or doughnuts: Hallgate, goal; Jones, point; Somersby, cover; Hunter, rover; Driver, centre; Bagge and Joyce, wings. Trainer "Terry" O'Neil says that this bunch can lick any team in the city.

Play Again To-Night. Queen's III and Cadets II will come together this evening to decide the championship of this district. The "Indians" have a load of four goals to overcome, but they hope to do it. The game should be one of the best of junior hockey played this year.

Queen's Had Laval Seniors. Queen's I had a full team out to practice at noon and all showed up well. They hope to turn the tables on Laval here Friday night.

Eastern League Standing. Wanderers... 4 1 32 29. Ottawa... 3 2 34 30. Victoria... 3 2 47 40. Shamrock... 2 2 21 15. Quebec... 2 2 40 31. Montreal... 0 5 26 62.

Sporting Notes. The Montreal Shamrocks have brought Deane back from Pittsburgh. The Trent Valley League hockey match, between Havelock and Tweed, resulted in a score of 13 to 4 in favor of Tweed.

The Intracolligiate League basketball at the Varsity gymnasium between McGill University and the University of Toronto, was won by Toronto by 21 to 22.

Ottawa Free Press: "Marty" Walsh is rapidly acquiring to himself the reputation of being the best man for playing in front of the nets as a scoring medium in the league.

Roesler, the Toronto St. Georges' clever little cover-point, is out of the game for the rest of the season. He was hurt in the first game with Parkdale, and his physician has ordered him to cut out hockey.

Ottawa Free Press: Phillips was so sure that the hoodoo was still abroad that he wouldn't let "Marty" Walsh sing and the centre man went into the struggle in the first quarter.

At Honolulu the American record for the fifty-yard dash was broken by In Sue during a Chinese field meet. His time, 5.13 seconds, is one-fifth of a second faster than the record established by Victor S. Rice, February 20th, 1901.

Russell's expulsion from M.A.A.A. has been ratified by the votes of 443 members of the association, who thus sustained the action taken by their board of directors in expelling Russell for not playing with the Montreal hockey team this season after, it was alleged, he had promised to play.

Morris Wood defeated Johnny Wilson, the world's champion, at Minneapolis. In a one-mile pursuit race the former amateur champion set sail for his opponent at the start, and before three-quarters of his distance was covered he was within striking distance of his man. In the last quarter Wood glided along smoothly until the last hundred yards, and then displayed a burst of speed that carried him over the line several yards in front of the race champion. Those who saw the race declare that the eastern skater is the fastest in the world.

Fred. Vokes, an English soldier, now resident of Toronto, is out with a novel proposition. He is forty-six years of age, weighs 170 pounds, and has been successful on the track and in the squared circle at Aldershot, his best performance being in 1889, when he ran three miles in sixteen minutes. Mr. Vokes would walk 6,000 miles in six months without shoes or stockings. Mr. Vokes proposes to hoof it barefooted over the C.P.R. tracks, 3,000 miles, out to Vancouver, and back, starting opportunely on April 1st.

Alcohol

Ask your doctor if a family medicine, like Ayer's Sarsaparilla, is not easily better without alcohol than with it. Strong Tonic - Without Alcohol. Body Builder - Without Alcohol. A Blood Purifier - Without Alcohol. A Great Alternative - Without Alcohol. A Doctor's Medicine - Without Alcohol. Ayer's Sarsaparilla - Without Alcohol. We have no equal in the world. J.C. AYER CO., Lowell, Mass.

THE HALLS OF QUEEN'S.

Arts' Court to Be Held This Evening.

The annual session of the arts court, which will be held this evening, is announced thus on the bulletin boards: "Oyez, oyez, oyez. Give ear and heed. This most ancient, honorable and venerable court holds a session in the old arts building on Wednesday, February 5th, at eight o'clock p.m., when justice shall be done and punishment meted out to those who are guilty of wicked and unlawful deeds. Fear, all ye, and tremble at this intimation." As a result of a pronouncement, exchanged by a rumor, that the science men will attempt to take a prominent part in the proceedings, the arts men have prepared to welcome them warmly.

This afternoon, Alexander Gray addresses the Engineering Society on "South African Diamond Mines." Students of all faculties have been cordially invited to attend.

The meeting of the Naturalists' Club on Tuesday afternoon was devoted to a general discussion of literature pertaining to natural science.

The junior and senior years in arts are considering the advisability of erecting memorials which will perpetuate their respective memories down through posterity. The last year memorial was a fellowship in English established by the graduating class of '01.

The annual meeting of the association football club will be held this week.

The many friends of Dr. "Bob" Paterson, '06, are delighted to hear of his success at post graduate work in England.

Although the musical clubs of the college will not go on a tour this season, the glee and mandolin clubs are preparing for a visit to Sydneyham, similar to that of two years ago. The glee club and orchestra are continuing their practices as there are yet several engagements to be filled in the city before the close of the session.

"Cherfulness" is the subject of discussion at the weekly Y. W. C. A. meeting this afternoon.

The final year arts students decided at their regular meeting on Monday afternoon to have a social in the near future before the year society joins the great majority.

Why are guilty students sad? What has caused their sorry plight? Why are other students glad? Arts court will be held to-night.

REMOVAL OF THE SNOW.

Many Walks Were Not Cleared Off After Storm.

Shovelling snow, with the thermometer registering about twenty degrees below zero, is no snap by any means. Even with moderate weather, snow shovelling is a hard job, and the men who have been engaged clearing away the snow on the down town street the past few days, have well earned their pay.

"I wouldn't take such a job at any price," one citizen was heard to remark, but then he was only "one," and it is well that all Kingstonians are not so chicken-hearted.

That there are a great many in Kingston who do not like shovelling snow, is shown by the number of complaints that have been made about walks not having been cleared off. Yesterday, the police kept a sharp lookout for all delinquents, and if the latter do not get busy, they will be summoned to the police court, and asked for an explanation. The list of delinquents is no small one, and should all of them be invited to the police court, they would make quite a very happy one.

"It is a shame the way some people act in the matter," said a citizen, yesterday, in speaking of the matter. "After a heavy fall of snow they never put a shovel on their walk, and appear to take a great interest whatever. And others are just the opposite. It would be an easy matter to keep good walks if each one would turn in and do his duty. It is often the case that the guilty party is well able to look after this work. Is it a case of being lazy or what?"

The citizen was told that it was the intention to have all the guilty parties summoned to police court, whereupon he replied: "I hope all the delinquents are called to account; it will serve them right."

The big storm has indeed given the man of the house a great deal of extra work. The snow shovel has been worked overtime, and a good touch of Canadian winter has been experienced. Old Prox promises another flurry of snow to-night.

Very Cold Work.

The snow shovelling gang found it a pretty tough job, this morning, when they turned out to work. They have finished Princess street and are shovelling down Brock and along King streets. The men driving the sleds appear to feel the cold more than those shovelling. Some of them had their ears and noses nipped badly on Tuesday.

B. A. Hotel Arrivals.

J. E. Morden, A. T. Smith, J. Steward, R. F. Sugfield, H. N. Stewart, P. Marks, Toronto; W. H. Henderson, A. Gould, London; John D. Parry, St. John, N.B.; Arnold C. Gyle, O. E. Stanton, H. Dubin, John J. Redmond, Montreal; J. O. Nyer, Boston; E. C. Brown, Brighton.

FINANCIAL POSITION

OF COUNTY OF FRONTENAC IS ALL RIGHT.

County Debt is Only About \$80,000—County Rate Has Been Too Low—In Ten Years, Debt Reduced, By \$127,000.

The county of Frontenac's financial position is good, notwithstanding the moment of hurry caused by Councillor Calvin's resignation of his position as chairman of the county council finance committee, last Friday. Councillor Calvin informed a Whig representative that his resignation was decided upon merely as a protest at what he considered extravagant expenditure by the council. He didn't want to be held responsible for providing money for the county's needs, when more was being expended than the revenue would permit. The extravagant expenditure referred to by him is chiefly in connection with roads and bridges. Another extravagant might be the cost of last year's council which totalled \$3,900 as against \$2,100 the preceding year. The difference is made up of extra council committee meetings, some of which are held to have been wholly unnecessary. If the advice given the council last Saturday by Councillors Reynolds and Drew is heeded, this year's council proceedings should not cost more than \$2,500.

Frontenac, however, is in good condition, financially. It owes not over \$80,000. Last week its debt was figured at \$85,000, but when all amounts due to it have been paid, its debt should not exceed \$75,000. However, \$89,000 is a conservative figure.

On December 31st, 1897, the year of the Vanhuysen defalcation, the county debt was \$182,000. In these ten years the debt has been reduced by \$107,000. But in recent years the county has improved its court house, it has improved its bridges and bought the Perth toll road, so that its extraordinary expenditure has increased. Notwithstanding that Frontenac owes only about \$80,000 to-day, in other words, it is \$100,000 better off than it was ten years ago, and it has an improved court house and improved bridges. There has thus been steady progress.

The trouble has been that the county council has been trying to finance the county affairs with the same old rate of taxation, which is not enough, in view of necessary increased expenditures. The county buildings had to be saved from decay. At a big expense, and boundary bridges had to be maintained for the benefit of the people. This required large expenditures.

For instance, last year the sum of \$30,000 was spent on roads and bridges. The Perth Road and Loughboro Lake bridge cost \$20,000.50; Oso bridge, \$1,807.00; Bedford, \$75; Kingston, \$2,171; Kennebec, \$286.00; Portland, \$101.80; Pittsburg, \$598.

Last year it cost \$88,000 to finance the county's needs. Of this amount only about one-third, or \$31,593.49, was yielded by the county rate.

At the present time the county owes the Bank of Montreal \$80,000. Against this there is about \$35,000 owing the county. The bank overdraft of \$80,000 is far too large, and the county council has appointed Councillors Calvin, Hanson and Reynolds to go to Toronto to ask the Ontario government to pass a bill giving the council authority to issue debentures for this amount, and so relieve the situation.

It must be pointed out that of late years the county council has been borrowing on its own authority, more than the law allows, and that its members are liable to disqualification for two years for voting for such measures. The law allows the council to borrow (without the vote of the people) an amount sufficient for its necessities, and the clearing the ice surface. A space sixty feet square has so far been cleared. Below the snow, there is much slush. The ice is only seven inches thick, as the heavy snow has kept it from getting the advantage of being old or the past week. Now being cleared, it will soon double its present thickness. The men find it awfully hard getting the surface clear.

NO ICE CUTTING YET.

Snow and Slush Has First to Be Cleared.

H. Small, manager of the St. Lawrence ice company, stated this morning that ice-cutting has not yet begun, and probably would not start till the end of the week. For several days, he has had a couple of ploughs and scrapers at work clearing the ice surface. A space sixty feet square has so far been cleared. Below the snow, there is much slush. The ice is only seven inches thick, as the heavy snow has kept it from getting the advantage of being old or the past week. Now being cleared, it will soon double its present thickness. The men find it awfully hard getting the surface clear.

Most Unjustly Attacked.

An attack made by the News upon County Councillor Reynolds for lack of economy in county matters. The attack is wholly unjustified. Mr. Reynolds has come back to the county council to serve this year, and he was the first one at last week's council to advise retrenchment. He spoke in favor of sending smaller deputations to Toronto, and of calling the committee together only when their presence was urgently desired. Some hundreds of dollars could be saved thereby. Notwithstanding this Councillor Reynolds is attacked by an old enemy, who refuses to give him credit for what is on record.

Distress After Eating.

If your food sours, ferments, or digests slowly, causing pain, or flatulence, take Day's Dyspepsia-Cure and restore your stomach to proper activity. It removes all evils arising from indigestion or dyspepsia. This preparation has digestive, tonic and laxative properties. Each bottle contains sixteen days' treatment. For sale only at Wade's drug store.

How Much Will It Cost?

It is impossible yet to give a close estimate of what it will cost the city to remove the surplus snow from along the street railway tracks. It is said that the figure will be under one thousand dollars. Some snow would have had to be removed from parts of Princess street, even without the opening of the street railway tracks. It will take all week to complete the snow removal.

Settler's Low Rates West.

The Chicago & Northwestern railway will sell one-way second-class settlers tickets daily from March 1st to April 30th next to points in California, Oregon, Washington and other western states, also to Victoria, Vancouver, Nelson, Rossland, etc. Toronto sleeping cars daily from Chicago to principal Pacific Coast points. For full particulars as to rates, routes and schedules, apply to B. H. Bennett, general agent, 2 East King street, Toronto.

HIS ARM WAS MANGLED

TERRIBLE ACCIDENT TO WILLIAM FRIENDSHIP.

At the Frontenac Cereal Works—Arm Drawn Into Wheels of Machine—Doctor Amputated it at the Elbow.

William Friendship, Frontenac street, was the victim of a terrible accident, while at work at the Frontenac Cereal company's works at 2:30 this morning. The young man has been employed at the works for some months of time and was looked upon as one of the best men at the works. He had been engaged in operating one of the mace rolling machines, and it was in this machine that he lost his left forearm. The machine is used to roll the mace, the rollers being run by a series of cog-wheels, at the end of the machine. The operator was clinging the cog, when his left coat sleeve caught in the wheels, and before he could help himself, or those around him could render any aid, his hand and arm were pulled under the wheel, as a pulp. When the unfortunate young man was released from the machine, it was found that his left hand and arm from the elbow was terribly mangled. Medical aid was quickly summoned and the general hospital, where Mr. Friendship found it necessary to amputate his arm at the elbow. Mr. Friendship went through the operation well, and is now resting as well as can be expected.

Mr. McCallan, manager of the cereal works, stated that Mr. Friendship had been with him for some time. This is the first accident that has happened at the works and the managers feel it very keenly. Mr. Friendship is fortunate that he was released before the deadly wheels got above the elbow joint, as he might have lost his life.

The injured man, who is about twenty-five years of age, has many friends in the city, who heard of his terrible misfortune with deepest regret, and sympathy. It also extended to the young man. Mr. Friendship was married only last summer, and his accident was a severe blow to his wife.

SOME FACTS ABOUT QUEEN'S.

In Regard to Her Registration and Revenue.

During the session of 1876-77 there were 130 students registered at Queen's University. The session of 1886-87 had 372, the session of 1896-97 had 564 and that of 1906-07 had 1,139.

The theology faculty has more students this session than ever before. There are fifteen in the first year, and an unusual percentage of arts men has the ministry in view.

This session's first year in science numbers 110, the largest freshman class in any faculty of the university. An interesting fact about the arts faculty is its growth of post-graduate and extra-mural work. This session there are registered 39 post-graduate students, of whom 26 are extra-murals. All told there are 359 extra-mural students.

Last session the revenue was: Arts and theology, \$65,175; School of Mining, \$69,075; medicine, \$25,912; total, \$160,162. Of this amount the fees constituted \$65,775, or a little over forty-two per cent.

Lord's Day Alliance Active.

Very busy with the good work, but not more efficient than the old reliable Putnam's Corn Extractor which cures corns and warts in one day. Fifty years' use proves the great merit of Putnam's. Use no other.

Corns Uprooted.

Peck's Corn Salve kills the corn, loosens it from the healthy flesh and takes it out root and all. No pain or soreness. In big boxes, 15c, at Wade's drug store.

Was Elected A Director.

In the report of the Y.M.C.A. annual meeting, last night, the name of David Ludlow was inadvertently omitted, as a member of the board of directors.

A \$1 two-quart hot water bottle for 50c.

at Wade's drug store.
