

Synopsis of Canadian North West

HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 8 and 20, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency. Entry by proxy may, however, be made.

Where an entry is cancelled subsequent to the date of cancellation proceedings, the applicant for cancellation will be entitled to prior right of entry.

(1) At least six months residence upon and cultivation of the land in each year during the term of three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has performed residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of roads, allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

BABY GIRL CRIED AND SCRATCHED

All the Time—Torturing Eczema Covered Her Body—Could Not Sleep—Doctor Said Sores Would Last for Years—Skin Now Clear.

CURED IN THREE MONTHS BY CUTICURA REMEDIES

"I take great pleasure in telling you what a great help it was for me to use Cuticura Soap and Cuticura Ointment for my baby niece. She was suffering from that terrible torture, eczema. It was all over her body but the worst was on her face and hands. Her hands were so bad that she could not hold anything.

GROWS HAIR

Cuticura Removes Dandruff and Soothes Itching Scalps. Warm shampoo with Cuticura Soap, and light dressings with Cuticura, prevent dry, thin, and falling hair, remove crusts, scales, and dandruff, destroy hair parasites, soothe irritated, itching surfaces, stimulate the hair follicles, loosen the scalp skin, supply the roots with energy and nourishment, and make the hair grow upon a sweet, wholesome, healthy scalp when all other treatment fails.

COAL FROM P. WALSH'S YARD, Barrack Street.

AN EATING ULCER.

Ulcers are a skin disease, and are more or less directly occasioned by a bad state of the blood, which produces acid humors and corrupts the secretions.

No one can expect to have a skin free from disease when the blood is in a diseased condition and the stomach and bowels acting feebly in consequence.

Through its wonderful cleansing, purifying powers on the blood, and its restorative action on the entire system, Burdock Blood Purifier has made thousands of cures of different skin diseases during the past thirty years it has been on the market.

Mr. Joseph Robinson, Hamilton, Ont., writes: "I had an eating ulcer on my neck. I took two bottles of Burdock Blood Purifier and it worked like a charm, cleaning out all the impurities from my system and improving my appetite. While taking the B.B.P. internally I used it externally to cleanse the sore, and it helped a lot."

Winnipeg Writer Refers to the Training to Be Received in Kingston—Helping to Develop the Dominion. The Winnipeg Free Press contains a well-illustrated article upon the Royal Military College, written by R. C. Bailey, which says: "Despatch after despatch from Kitchener, Roberts and all other generals have praised officers who had passed through Kingston. Kingston buried some of her sons, but enhanced her reputation in South Africa. The sword is, however, not the only instrument of which these young men are apt in the use. They shine in the task of cross-crossing this continent with railroads. The college records are packed with the names of men who are helping to develop the Dominion by slinging bridges across catanets, evolving machinery to diminish expenses and enlarge cities and generally assisting as only trained men can in the working of placing Canada at the top of the tree. A history is in the course of compilation of the college and the achievements of its sons. It will make amazing reading. But after all it has long been known that Canada possessed the best kind of brains and muscle and in that cluster of buildings on the promontory at Kingston, the training of them is attended to."

What is Transpiring in the Little River Town. Gananogue, Feb. 4.—Gananogue show lovers are in luck this week as a patient medicine company is giving a free entertainment every evening in the Colonial Theatre. At this "popular price" is drawing packed houses. The funeral of Sarah Booth, relict of the late John Booth, of this town, aged thirty-three years, who died from the effects of poison on Sunday morning last, took place from her late residence, corner of Charles and North street, yesterday afternoon to Christ church and thence to Gananogue vault. Miss Bessie O'Neil, spending a short time with friends in Kingston, returned home yesterday. William Edwards, Jr., of Waterville, Que., an old Gananogue boy, spent a few days this week in town the guest of his father, William Edwards, King street. Mrs. J. Thomson, First street, left last evening to spend a week with her parents in Oshawa. Mrs. William Donnelly, of Minto, Man., who has been spending a few weeks with relatives in town and vicinity, left for home yesterday. She was accompanied by her brother-in-law, William Pratt, King street, who will probably in the near future settle in that locality.

Street Costume. Violet satin-face cloth developed the stylish suit shown above. The skirt was made of five gores and is trimmed around the bottom with a four-inch fold of velvet three inches above the hem. The coat is cut-away tight-fitting in the back and semi-fitting in front. The collar is made of velvet. The sleeve is the regulation coat sleeve, with a back-turn cuff. The vest is of heavy white satin, trimmed with silver braid.

Girls Tortured. Charles Gordon Golden, Rushworth, of Nether Poppleton, solicitor, and clerk to the York educational committee, England, and his wife, Sarah Katherine, were found "guilty" of the charge of cruelty to two little girls they had adopted. Mrs. Rushworth was sentenced to nine months imprisonment in the second division. Rushworth was fined £25 in each case, £50 in all, besides costs. Two weak under-sized girls had been tortured horribly, branding with a dog whip, scaldings, and semi-starvation being alleged. Hostile crowds demonstrated outside the court and cheered the sentences. Two witnesses for the defence had refused to give evidence through fear of the popular indignation.

Is Герус Hunter. Rev. Dr. George A. Cook, of Brandon, Vt., who has brought charges of disloyalty and slander against Rev. Dr. Buckley, evidently considers himself called to this sort of duty. Prof. Michener, of the Boston University, was "treated" to the Hartford Courant note it, by Dr. Cook, and Prof. Rowse was charged by him with some offense against orthodoxy. Now he has caused a commission of clergymen to be appointed to see whether Dr. Buckley has written anything in the New York Christian Advocate wrongful enough to bring him to trial before the church's court.

Black Watch. Chewing Tobacco. Rich and satisfying. The big black plug.

A cheerful disposition for ten cents per week. Sweet breath, no headache, no dullness, no blues. All that—and more—in a box of Cascarets.

Cascarets supply a natural need. They simply do what some foods will do; what fruits will do, if used in abundance; what exercise does. They cause the bowel muscles to act. Their effect is as natural and gentle as the same effect from food. If we lived out-doors, and ate whole wheat, green vegetables and fruits, we would never need Cascarets. But we don't exercise enough. We eat fine flour, much starch, and too little of fruit and green things. We live artificially, so we need an artificial laxative. Cascarets give us, in concentrated form, one vital effect that we lack in rich food. Some people need them more frequently than others. It depends on your food, your drink and your exercise. But we all need them sometimes. The right way to take them is one Cascaret at a time. Take it just as soon as you need it. You can tell. Don't wait till night. Carry a box always with you. Ward off the dullness, the headaches. Keep yourself always at your best. Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure to get the genuine, with C.C.C. on every tablet. The price is 50 cents, 25 cents and 10 Cents per Box.
