**Wire Mats**

Our Wire Mat importation from Germany has arrived. The Mats are suitable for inside or outside of your porch and cannot rust in any weather.

We Have All Sizes from 60c.

**R. McFaul**  
Carpet Warehouse.

**Point of View.**

Did you ever think how much there is in a point of view—how much there is in seeing a thing from the other man's standpoint? The architect who drew the plan of the single brick residence as seen at this office, had your point of view in mind. He put himself way round to your side of the question and saw the sort of house you wanted not the kind he wanted. It is made with a view to economy in building as well as being so compact as to get the full benefit of heat. Won't you drop in and let us tell you what we will undertake to build a house like this for, making any changes you may desire. Remember the earlier we can let the contract, the cheaper it can be built.

**UTICA CURLERS HERE**

**DEFEATED BY KINGSTON RINKS, IN TWO GAMES.**

Both Games Were Characterized By Some Fine Playing—Visitors Entertained By Local Curlers.

One rink of Utica, N.Y., curlers were visitors in the city, yesterday, and played with the local curlers, in the afternoon, and evening, and on both occasions, the Yankees were defeated. The afternoon score was 7-11 and the evening, 5-13.

The games were witnessed by a large number of interested spectators, and the old-timers of the rink, in the afternoon, and evening, stated that the exhibition was one of the best ever given in this city. Both teams did fine work, and some plays of unusual interest were made.

The Utica curlers are on their way home from attending the hospitable held in Montreal, where they were runners up for the Gordon international trophy. Another rink of Utica curlers attended playing in Kingston, yesterday, but were unable to do so, having missed train connections at Water-town.

The visitors were well looked after, during their stay in the city. Upon their arrival, they were entertained at the Frontenac Club, and at the curling rink, in the afternoon, they were served with refreshments. The visitors were also tendered a supper at the rink, at the close of the match in the evening. The scores follow:

**Afternoon Game.**  
Kingston, T. N. Asselstine, Prof. Gill, A. H. Munson, Capt. W. Leslie, Skip, 11.  
Utica, Dr. Gage, Fred Allen, A. H. Munson, Skip, 7.

**Evening Game.**  
Kingston, T. N. Asselstine, Prof. Gill, A. H. Munson, Capt. W. Leslie, Skip, 13.  
Utica, Dr. Gage, Fred Allen, A. H. Munson, Skip, 5.

**Long Distance Ice Yacht Races.**  
Thomas Fleming Day, editor of the Builder, the leading yachting magazine of America, has offered a long distance race on Lake Ontario under similar conditions to the races held off the Atlantic coast. All clubs have been invited to take part. The race will probably be handled by the Royal Canadian Yacht Club, Toronto, in conjunction with one of the clubs from this end of the lake. Kingston yachtsmen are to meet very soon to make arrangements for entering their boats. Unusual interest always attends these races as all boats have an equal chance of winning.

**Sporting Notes.**  
The Kingston lady curlers are drawn with Lachine for a game on Thursday in Montreal.

Hamilton Tigers intermediate hockey team will be the ones to play off the O.H.A. premiership with Collingwood, winners of their district, on Wednesday.

Shrub is still "knocking" Longboat. In an interview in London Shrub says that Longboat is not in the same street with Deetfoot. Longboat is a good stayer, but lacks speed. A man with a short stride can run him off his feet. He is improperly trained, says Shrub, who returns to Canada in the spring.

A Brooklyn despatch says: As a result of the recent hockey match in the Harvard Stadium between the Harvard University and McGill University hockey teams; it is not likely that any McGill athletic team will ever again be given a date in a Harvard schedule. The feeling that now exists among hockey authorities and students alike at Harvard against McGill is caused by the recent discovery that McGill did not send her senior hockey team to Cambridge to play the Harvard men, but, instead, a hurriedly gotten together team of substitutes and volunteers who had never played together, and rung them in as the straight McGill Varsity seven. The only mitigating feature is that they were actually McGill students. Harvard and McGill met on the ice in the Stadium a year ago, and at that time McGill won easily. When Harvard succeeded in turning the tables on what was supposed to be the McGill Varsity seven this year there was much rejoicing and an appropriate celebration followed the game. Then, a few days ago, came the discovery that Harvard men had been fooled in the team they had played.

Stop that tickling cough! Dr. Shoop's Cough Cure will surely stop it, and with perfect safety. It is so thoroughly harmless that Dr. Shoop tells mothers to use nothing else even with very young babies. The wholesome green leaves and tender stems of a lung healing mountainous shrub furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough and heals the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress demand Dr. Shoop's. Take no other. All dealers.

**HOUSE OF INDUSTRY**

**ANNUAL MEETING HELD ON MONDAY AFTERNOON.**

Reports Were Submitted Concerning the Work at the Institution, and Directors Were Elected.

The annual meeting of the board of the House of Industry, was held in the police court room at the city hall, at three o'clock, on Monday afternoon. Mayor Ross presided, and others present were: Miss Marchar, Mrs. Birch, Mrs. McDonald, Miss Strang, Mrs. Jordan, Rev. W. B. Sparling, Principal Gordon, J. B. Walker, Dean Farthing, Rev. Canon Starr, W. B. Skinner, Rev. Dr. Macgillivray, and Robert Meek, secretary.

This year marks the diamond jubilee of the institution and the meeting was opened with prayer, offered by Dean Farthing. The minutes of the last annual meeting were accepted as read.

The annual report submitted showed that on January 31st, 1907, there were thirty-eight inmates, and at the present time, forty; admitted during the year, forty-three; discharged, thirty-eight. There were three deaths during the year. While most of the inmates have been suffering with good health, several of them are cripples, one is simple minded, and one is totally blind. All of them are over forty years of age, fourteen over seventy years of age, six over eighty, and two over ninety. The medical supervision was reported to be very good, tribute being paid to the good work of Dr. Bell, assigned for duty at the institution, by the city council. In regard to the disposal of the dead bodies of deceased inmates, it was stated that the act of the provincial legislature (1897) says that the remains of anyone who had been, before death, supported in or by any public institution, shall be immediately handed over to Mr. Reid, unless such person, in his will, bequeaths four hours of death, claimed by relatives or bona fide friends. The institution could not ignore that law, as it had been so decided, several times.

The stay of inmates, collectively, was 17,129 days, or an average of 160 days each, the cost of maintenance being figured at 7c. per day. This refers to the food, and not to all of them, as the garden produce is not taken into account. There is the cost of maintaining the house, salaries, light, heat, equipment, and other expenses. All around, the cost per inmate is about \$1.50 per week, exclusive of clothing. There has been a gradual improvement in the dietary, and it is satisfactory to have Dr. Smith, the inspector of charities, in his report to the government, declare that "the food is nutritious and wholesome." Recent improvements at the institution were referred to with the suggestion from the directors, that the men's side of the house and the main building be renovated. It was suggested also, that the sum of \$100 be devoted towards the furnishing of an office, and that a better lighting system be considered. The various contracts for supplies during the year, were reported to be very satisfactory.

The report was received, and the various suggestions referred to by the board of directors.

A most satisfactory report was submitted by the treasurer, W. J. Crothers.

On motion of Canon Starr, a hearty vote of thanks was tendered the directors and the secretary, Robert Meek, for their services during the year. Canon Starr said that one could not help but be impressed with the spirit of economy which had been employed, and he paid a warm tribute to the work of the secretary. He referred to the institution as an ideal one, and said that this was largely due to the deep interest taken in the work by the directors and secretary.

On motion of Mr. Walker, a vote of thanks was tendered. Miss Marchar, who presented a retrospect of the past history of the institution, on this, the occasion of its diamond jubilee. The retrospect will be printed, in the minutes.

The following directors were elected: Miss Marchar, Mrs. Birch, Miss Strang, Miss Holt, Mrs. Jordan, W. B. Skinner, W. J. Crothers, Robert Meek.

The contracts for supplies were awarded as follows, at a meeting of the directors: Meat, W. H. Reid; bread, J. J. Lackey; milk, E. McConnell; groceries, John Gilbert; coal and wood, J. Scowen.

Mayor Ross was elected chairman of the board. Secretary Meek declined office for another term, and no one was elected to fill his place. The election of a treasurer was also undecided, as W. J. Crothers, the present treasurer, was absent.

**Waterworks Matters**  
Committee Desires Amicable Arrangements.

Over Repairs to Wharf—Waste of Water at Artillery Park Barracks—Cheque Received For Shortage in Coal Supply.

The waterworks' committee met last evening, with Aldermen Craig (chairman), Kent, Cooper and Hanley in attendance.

It was decided that during the absence of Superintendent Hewitt, the responsibility for the outside work should rest upon Frederick Milo, as acting superintendent, and that Collector W. A. Newlands, should take charge of all the superintendent's correspondence.

In the coal supply of last year, the superintendent had reported a shortage amounting to about \$93. The committee received from the contractor, James Swift & Co., a letter stating that the firm that had supplied them had discovered that a carload of coal had been charged for that had not been put aboard the vessel at Oswego. The cargo was valued at \$62.64, for which amount a cheque in rebate was given. The matter of completing a settlement was referred to the chairman.

H. W. Richardson, president of the Kingston Skating Rink company, appeared before the committee with a remedy for the cutting rink water rate. For the past sixteen years, the rate had been \$30 a year. Recently the building has been enlarged, but Mr. Richardson pointed out that less water was being used than before, owing to the improved flooring. It was decided by the committee to allow the old rate to stand, and make no increase.

Major Bursall, commanding the B.C.E.A., wrote the committee about the large amount of money the artillery barracks is paying for water, and asking what could be done towards a reduction. It seems that the closets installed in the renovated barracks allow the water to run continually, and the meter, of course, registers a vast amount of water. The rate of the military department, which will have to make some changes in its system. Major Bursall was so informed.

Principal Kiely, of St. Mary's separate school, wrote asking for waterworks' connection for the school rink. The matter was referred to Ald. Hanley for report as to what was desired. It was suggested that the school have a standpipe connection, an arrangement similar to that of Zion and Royal rinks.

The question of the waterworks' wharf repairs was up for discussion. This wharf is leased by the Donnelly Wrecking company, whose lease provides that it shall keep the wharf in repair. The wharf is in bad condition and requires immediate attention. The Donnelly Wrecking company, responsible, J. L. Whiting, K.C. solicitor for the company, declares that the city is the responsible party. However, the Donnelly company offers to repair the inner portion of the wharf. The company's representative to a conference and adjust the matter amicably rather than have litigation.
