### In a Nitro-Glycerine Explosion.

## FIFTY PERSONS ESCAPED

### BY BEING AWAY AT NOON FOR LUNCH.

Works of the Standard Powder Company on Isle Perreault blown up—Two Buildings Completely Destroyed—Several Employees Injured.

Montreal, Que., Feb. 12.—Nine men met death in an explosion in the plant of the Standard Explosive company at Isle Perreault, near Vaudeville, on Tuesday afternoon. The explosion occurred at the noon hour, when most of the men were away, otherwise half a hundred lives would have been lost. There were only nine of the employees in the building when the explosion occurred.

Two big storehouses, containing nitro-glycerine, blew up, and the nine men in the building adjoining were blown to atoms.

The names of the victims are: R. Robillard, Joseph Royon, Urgel Monard, P. Menard, M. Roussseau, J. Trempanier, David Dumbert, S. Payant and Arthur Legault. With the exception of Royon, all were married and father of families. They were all residents of Vaudeville. The wounded man is Johnny Leduc. About one hundred men are employed at the works.

The Standard Explosives company's works on Isle Perreault, are the largest of their kind in the Dominion. Three hundred acres of land on the island are used for the purpose, and on this land there are over forty buildings, the number of hands employed when in full operation being about one hundred and fifty. The capacity of the plant is two carloads of dynamite and one carload of blasting powder a day. From eighty to ninety per cent. of these explosives is used on railway construction work. At the present time the company has among its contracts two of the largest ever made in Canada. The first of these contracts runs into about half a million dollars, and the second into about a million dollars. The company's capacity is such that it has during rush periods made delivery at the rate of a hundred carloads of dynamite and black powder in two months.

## TO HAVE SPECIAL SCHOOL.

### One Chinaman Has Family of Twenty-Seven.

Vancouver, B.C., Feb. 12.—There are now one hundred and seven Orientals attending the Central school, which is nearest the Chinese district. It is proposed to open a special room for them in many of the details of from eighteen to twenty years of age are sitting alongside Canadian children of six and seven. Of the total number, not less than fifty Chinese are putting in study specially to evade the special privilege of \$500, and establish a special privilege as students. Vancouver, too, in this connection, easily holds the palm for size of a family attending school. Twenty-seven of the Chinese boys and girls in the Central school are sons and daughters of Yip Sang, a prominent Chinese merchant, who has three wives living and several other dead, and whose children are of school age.

## WOMAN KILLED BY BURGLAR.

### Was Found With Head Split Open.

Cincinnati, Ohio, Feb. 12.—Death yesterday struck the lips that might have cleared the mystery connected with Mrs. Madeline A. Booth, Toronto, who was found in the home of Dr. H. H. Hoppe, on Sunday, with her head split open in three places with a hatchet, which, it was supposed had been used by a burglar. The woman died without having regained consciousness. The authorities failed to get into communication with her husband, James K. Booth, who was a contractor in Toronto, in September, 1903, when the couple were married in that city, but who since their separation is reported to have removed to Sault Ste. Marie.

## WAR SCARE OVER.

### Turkey Withdraws Her Troops From Persian Territory.

St. Petersburg, Feb. 12.—The withdrawal of Turkish troops from the Persian territory to the west of Tabriz, as well as the more conciliatory spirit shown at Constantinople, is regarded here as obviating the necessity for the present of taking further precautionary measures on the Turkish and Persian frontiers, and it is probable that the despatch of troops from the interior of Russia to the Caucasus will be abandoned pending further developments. The statement that Russia was concentrating a force of thirty thousand men for military demonstration against Turkey can be dismissed.

## A Remarkable Will.

Berlin, Feb. 12.—A remarkable clause is contained in the will of a wealthy merchant, Herr Berntz, who died last week. The testator bequeaths a large number of flats to his heirs on the condition that they do not let them to persons keeping servants, or having children, dogs, cats or birds. Tenants must be engaged in night work which will cause them to return home while the other occupants are sleeping. One musical instrument is permitted in each flat, but no flowers may be placed on the window-sills, and the tenants must sign an agreement to wear slippers in doors.

## Dread Operation Saves Two.

New York, Feb. 12.—The third Caesarian operation to be performed at the Flower Hospital saved the lives of both mother and child yesterday. The subject of the operation, Mrs. Mary Clark, of No. 408 East Sixty-fifth street, is already well on the road to recovery. The child, a boy, is normal, and weighed eight pounds at birth.

## Protage Of Empress Seized.

Berkeley, Cal., Feb. 12.—Chun Zen Chan, protage of the Empress Dowager of China and graduate of the college of agriculture of the University of California, with the class of 1907, has been made director of the agricultural experiment station at Mukden, Manchuria. Chan is engaged in a series of experiments to determine the suitability of California fruit trees in the orient.

## Ontario Elections.

Toronto, Feb. 12.—It is stated in official circles that an effort will be made to end the present session of the legislature by March 31st. The reports are being hurried along and the estimates are now working upon the estimates. The work of stamping the country will be begun at once and the elections brought on probably the first week in June.

## Teachers' Salaries.

Chicago, Feb. 12.—A general increase in the salaries of Chicago elementary school teachers, the average of an eighteen per cent raise in the pay of the lowest salary group, is announced. The increase will affect about 4,000 teachers, and it is expected to relieve the scarcity of teachers, which is crippling the work of the schools.

## BRITISH NEWS

### The Nationalization of the Railways.

## DEBATED BY COMMONS

### THE ROADS RUN TOO MUCH BY SWELLS.

Women Suffragists Make An Attack on the House—Many Arrested—A Labor Newspaper May Be Established in London.

London, Feb. 12.—The House of Commons, last evening, debated the question of the nationalization of the railways. The discussion drew from Mr. Lloyd-George, president of the board of trade, a statement on behalf of the government, that the time had come for an enquiry into the whole subject. Mr. Lloyd-George said he thought the companies on the whole, had done their best for the public, but they were run rather too much by swells. This statement was greeted with loud cheers and laughter by the liberals and laborites. It was evident through the discussion that there was a considerable body of opinion in favor of nationalization.

In the use of Commons, yesterday, Sidney Buxton, postmaster-general, stated that the question of the renewal for a limited period under certain conditions of the contract of the Canadian Pacific for the conveyance of mails from Canada to the east, had been raised by the Canadian government, and was now under consideration.

Lord Amthill intends asking the government if it intends inviting the colonies to discuss the question of 'treatment' of Asiatics in the colonies, and whether the government does not consider the recent action of the Canadian and Transvaal governments, both conspicuous demonstrations of the belief of the colonies in the paramount importance of imperial unity, sufficient proof that the colonies would welcome such a conference.

A band of militant delegates from the 'parliament of women suffragists,' now in session here, made a vigorous assault on the House of Commons, yesterday. Their attempt to rush the doors of the lobby, however, was frustrated by the police, who had a short skirmish with the striking women, two scores of whom were arrested for disorderly conduct. The attacking party was trying to deliver to the House of Commons a resolution, protesting against the 'unconstitutional' action of the government in refusing a vote to women suffragists. The delegates, secreted themselves in furniture vans in the vicinity of the buildings, and thus enabled to get close to the point of attack before being discovered.

Sixteen British trades unions, with a membership of 300,000, are supporting a movement to establish a one-cent, eight-page daily newspaper in the interest of labor. The title will be 'The Morning Herald.' The parliamentary committee of the Trades Union Congress will manage the venture. The suggested capital is \$500,000.

## POKER COMES HIGH

### TO THE DEVOTEES OF IT IN WATERTOWN, N.Y.

Four Players Out of Five Fined Fifty Dollars by Judge Reeves in City Court—Louis Brown, the Fifth, is Missing.

Watertown, N.Y., Feb. 12.—It was a costly game of poker that the five men arrested, yesterday morning, played, for four of the number were fined \$50 each, while the fifth, Louis Brown, the alleged proprietor of the place, is still missing. In case Brown does not show up within a reasonable time his bondsman will be held for the \$500 bail furnished. Brown's disappearance is a mystery to the police.

Ebenezer Williams, James Clarry, William Lee and Frederick Robert were the men arrested. When the arraignment was called in the city court, a large crowd had gathered in the corridors to hear the outcome. After a pretty romances which had many of the attorneys, Judge Reeves adjourned the matter until the afternoon. All of the men, with the exception of Brown, answered to their names. After the fine was imposed Williams and Clarry went up to the table and tossed over the hundred in yellow-backs. The two other men said they wanted time.

## A ROMANCE ENDED.

### It Began in Tucson—Ended at Sharbot Lake.

Sharbot Lake, Feb. 12.—Miss Ida Bell Grant, a native of One township, and daughter of Mr. and Mrs. John N. Grant, to-day, became the bride of James W. Nicholson, well-known as a newspaper man in the United States. The wedding took place at the residence of the bride's parents in Tucson, Arizona. The ceremony was performed by the Rev. W. Hilyard Smith, rector of St. Andrew's Episcopal church, the bride being attended by her cousin, Miss Louisa Elizabeth Grant, the best man being James George Grant, also a cousin of the bride. Mr. and Mrs. Nicholson left immediately on their honeymoon, which will end in Tucson.

## INHALED GAS

### And Played His Violin Till Last Moment.

New York, Feb. 12.—With a gas tube in his mouth and inhaling gas while he played his violin, Morris Schwartz, a talented young musician, committed suicide, yesterday, at his home in First street. He was found by Mrs. Abraham Brockman, his landlady, with his violin bow in his right hand and his instrument, below, above all other things in life, lying across his knee and clasped firmly in his left hand.

## Three Towns Quarantined.

Watertown, N. Y., Feb. 12.—Sheriff Ezra D. Belmont received notification to quarantine the towns of Leray, Theresa and Pamela for rabies. All dogs in these towns must be muzzled or kept tied up. The sheriff has orders to shoot any dogs running at large. R. M.orton, Brantford, and R. E. Kirkland, Kingsville, were sent under the sheriff's orders in carrying out this order. The action grew out of the recent scare in the town of Pamela.

## WILL NOW BE CUT

### WORLD'S LARGEST TAKEN FROM SCOTLAND YARD.

Is Closely Guarded—Process of Cutting the Monster Jewel Will Occupy Two Years.

London, Feb. 11.—The incomparable Cullinan diamond, formally presented to the king on November 9th last, his majesty's birthday, yesterday, left London for Amsterdam to be cut.

This marvelous gem, which weighs nearly a pound and a half, has been insured for \$2,500,000, and its value can only be conjectured. King Edward accepted it as a gift from the people of the Transvaal, and for nearly three months it has lain at Scotland Yard, guarded day and night by armed men.

It is four inches long and about two and one-half inches wide, and deep. In its uncut state it is not particularly beautiful, and is neither useful nor ornamental.

The question of leaving it in its present condition has been discussed from every point of view, but at last the decision has been taken to send it to Amsterdam, the headquarters of the diamond industry.

It is especially instructed representatives of Scotland Yard, who watched from a little distance, were aware that three quietly-dressed men, who entered a reserved first-class compartment in the nine o'clock boat express at Charing-Cross, yesterday morning, were escorting the enormous jewel.

Wrapped in tissue paper, the magnificent stone lay in a small brown leather bag, carried by one of the trio, and this morning the leather bag and its treasure will be handed to the great Amsterdam firm, employing 500 diamond cutters, to which the task of dividing and polishing the Cullinan has been entrusted.

At Dover a special cabin had been reserved on the steamer, but not a soul on board, except the three guardians of the jewel, had any idea that a treasure worth at the lowest computation, many times the value of the great ship itself, lay in a tiny handbag in a deck cabin. Each of the three guardians carried revolvers, and it would have gone ill with any stranger who had behaved suspiciously in their neighborhood.

But the extreme difficulty of dividing so enormous a gem into marketable stones, and the utter impossibility of selling it as it is, would deter any trader from trying to steal the stone. At Amsterdam, the headquarters of the Diamond Workers' Union, where the finest appliances are at the disposal of the most skillful lapidaries in the world, the task of cutting and polishing will take two years, and will cost from \$25,000 to \$50,000.

There is much soreness of heart among the diamond workers of Hartman Garden at the stone having been sent abroad, but some of the wisest recognize that if Amsterdam cannot produce cutters of greater general skill it certainly has many who are more experienced in regard to laces, stones, and better equipped with tools.

For eleven weeks the huge gem had been deposited in a sealed safe at New Scotland Yard. On Thursday evening last, however, it was removed to the Hopwood, permanent under secretaries for the colonies, out the sealed tapes surrounding the safe in the presence of Sir Melville Macnaughten, Sir Edward Henry, Sir Francis Hopwood, Sir Richard Jackson, Superintendent Frost and Chief Inspector Drew.

The stone was then taken to west end storehouse and yesterday morning detectives took it in a motor car direct to Charing Cross station in order to catch the boat express.

Of course the diamonds will lose weight in the process of cutting. Fifty 300ct carats it will be diminished till the main result may not exceed half that weight, though many smaller stones will be included in the "chippings."

The Kohinoor originally weighed 793ct carats, reduced by successive cuttings to 289, 156 1-16 and 106 1-16 carats.

J. M. Cullinan, who gave his name to the stone, made a fortune before the war as a builder and contractor. After peace was declared he sold everything, and bought old Joachim Princeps's farm, near Barbington, in the belief that it was diamondiferous.

Stones worth millions of pounds have been taken from the shaft he sunk, and he is now a very rich man.

The great jewel was found by an overseer at the Cullinan mine, who noticed a point of light flashing in the rays of the setting sun far up the wall of the shaft. It proved to be the world's record diamond.

## SPLENDID SHOWING.

### Made By the Toronto General Trusts Corporation.

In another column will be found the twenty-sixth annual report of the Toronto General Trusts Corporation, the first trust company organized in Canada. The many beneficiaries of estates under its administration will, with the public generally, doubtless read with interest the directors' report, and the statements submitted, together with the comprehensive address made by the managing director, J. W. Langmuir, who, as instrument of an organization of this corporation twenty-six years ago. It is interesting to observe how the volume of business has increased from year to year, indicating that the public are finding in this modern institution a very satisfactory solution to the important question of selecting a competent and responsible executor and trustee, which, at some time or other, presents itself to every prudent man of substance.

A perusal of the profit and loss account, together with the assets and liabilities statements, makes very clear the remark of the president, Dr. Hoskin, when he said: "We do not pretend to be a great money-making corporation. The net profits brought down for distribution, including the small balance from 1904, amount to \$135,868.75, out of which the directors have paid dividends amounting to 7 1/2 per cent., or \$75,000, written off the balance of good-will in connection with the purchase of the Ottawa Trust company, \$10,000, carried to the reserve, \$25,000, and brought forward a balance to the credit of profit and loss of \$25,868.75. The assets during the year have increased over \$1,500,000, making the total assets at the 31st of December, 1904, approximately \$33,000,000.
