

PILES

8 Years Torture Ended by Zam-Buk

Mr. George Lee, 35 Steiner St., Toronto, says: "For 8 years I suffered torture from blind, itching piles. During that time I believe almost everything in the line of ointments and salves was used, but in vain. The very first application of Zam-Buk gave me relief from that terrible itching, and a little perseverance with the balm brought about a complete cure. I have not been troubled again and it is now over six months since Zam-Buk was used. If this statement can be used for the benefit of other sufferers from this trouble, you are at liberty to publish it."

Zam-Buk

Is especially recommended for all kinds of skin diseases, eczema, bad legs, piles, ulcers, boils, chapped hands, barbers' rash, festering sores, poisoned wounds, cuts, bruises, burns, sprains etc. Of all druggists and stores, 50c. box or from the Zam-Buk Co., Toronto, 30c. per box, 3 boxes \$1.75.

FREE

Sample box will be mailed you free if you cut out this coupon and send it with 2c. stamp to the Zam-Buk Co., Toronto, O.K.A.

ZAM-BUK

Showing Patent Tab

The back collar stud in our shirt is inserted in the tab, shown in cut. In this way the stud is easily inserted and it never touches the neck of the wearer. When the collar is on, the tab cannot move. But there is sufficient room left in the button-hole for the collar to move slightly from one side to the other, so that the collar may be easily adjusted in the front. Only on Tooke Shirts can this tab be found.

BOWSER IS DEFIANT

NATAL ACT WILL BE APPLIED TO 200 HINDOOS.

White Man's Country Cry—He Riddled Mr. Lemieux's Claims and Says Ottawa May Shoulder the Difficulty.

Vancouver, Feb. 25.—Attorney-General Bowser and several other members of the McBride government, on Sunday night, addressed a large conservative mass meeting, when the Asiatic question was discussed. Mr. Bowser announced that the Natal act would be applied to the two hundred Hindoos coming on the steamer Montezuma, even though that vessel left before the passing of the act. Mr. Bowser refused to assent to the bill as constitutional, and ridiculed Hon. Rodolph Lemieux's claim to having settled the whole question by a visit to Japan. The letter Mr. Lemieux brought back, said Mr. Bowser, really bound Japan to nothing. In the case of the Japanese released by Chief Justice Hunter, Mr. Bowser declared it was the dominion, and not the Japanese government, which was sovereign. Mr. Bowser added:

"If the full court in the coming appeal should overrule the rights of the provincial legislature, that will show where the responsibility for the present condition lies. It will be at Ottawa and nowhere else. There is no time for Ottawa to enact remedial legislation before the dominion parliament prorogues, and respect the wishes and rights of the people of this province. We intend to keep this a white man's country, not one for Asiatics."

New Bridge At Cairo.

The Island of Rodah, in the Nile, where tradition says Moses was found in the bulrushes, has just been connected with Cairo by the largest bridge ever built over the Nile in that section. The Rodah bridge, which took three years to build, is 1,710 feet long and 65 feet broad. There are fourteen spans, besides a turning span of 200 feet, which is swung by an electric motor, and when opened gives a clear 70 feet on either side for the passage of vessels. At a recent official test every square yard of the bridge was subjected to a weight of 400 pounds. In order to give this weight the footpaths were piled with sand, while twenty-four water carts filled with sand and eight traction engines were kept on the bridge a whole day. The deflection of each span was noted, and after that the whole of the huge frame was driven at full speed across the bridge.

C.P.R. Appointments.

Montreal, Feb. 25.—George J. Bury has been appointed general manager of the Canadian Pacific railway's western lines, with office at Winnipeg, and P. W. Peters has been made assistant to the second vice-president, with office at Winnipeg. The change is effective on March 1st.

Five million dollars are involved in a legal struggle for the possession of the Lawson silver mine, which commenced before Chief Justice Meredith. The late Thomas F. Wallace, Toronto, left an estate of \$43,054.26.

HAMILTON RADIAL BILL.

Contentious Sections Not Taken Up Last Night.

Ottawa, Feb. 24.—Though a few clauses of the Hamilton radial railway bill had been passed when the house adjourned at midnight, the contentious sections, on which the railway committee spent nine sessions, were held over, and are likely to lead to a prolonged discussion. The rest of to-day's sessions were practically devoted to points raised by the opposition as to the alleged interference by government employees in the New Brunswick provincial elections. The discussion wandered over lots of ground, the outstanding features being effective replies to opposition criticisms by Messrs. Pugsley, Graham and Sir Wilfrid Laurier.

Hon. Mr. Pugsley introduced a bill providing that no boom should be attached to the Canadian shore of any international stream or placed in the bed of any such stream upon the Canadian side without a license having been obtained therefor from the minister of public works. Mr. Pugsley explained that the immediate cause of the introduction of the bill was a state of affairs which had arisen on the St. John river. The bill was read a first time.

Mr. Lavergne Introduced a Bill to Amend the Railway Act, by Making it Imperative upon Railway Companies to Run their Trains up to the Time Bill.

It was read a first time.

A SHORT SESSION.

One Hundred and Eight Petitions Laid on Table.

Toronto, Feb. 25.—Fifteen minutes was sufficient time in which to transact all the business before the legislature yesterday afternoon. A hundred and eight petitions asking for the repeal of the three-fifths clause in the liquor license act, were laid on the table. Mr. Duff (West Simcoe), introduced his bill to amend the municipal act. Mr. Duff's measure is intended to make a change in regard to the election of township councillors for the purpose of ensuring a measure of stability in the councils. At present three or four persons, as the case may be, who head the polls, are declared elected, and it is possible for voters to make a change in regard to the township for their favorites. The amendment would provide that candidates shall run for a specific position as first councillor, and so on. This would have the effect of preventing a group of persons combining to elect one man and might secure the return of councillors of ability by acclamation and avoid the necessity of elections.

TO AID IN MOVEMENT.

A German Firm Was Behind the Rebel Leader.

Port Au Prince, Hayti, Feb. 25.—President Livaers, of the Haytian commission, appointed to determine what foreign influences were behind the recent uprising against President Nord Alexis' government, has reported that Mereman & Co., the German firm, against which veiled charges have been already made, certainly gave Gen. Firman, the rebel leader, at least \$20,000 and probably a still larger sum, presumably to aid in the revolutionary movement.

A hill of gold, samples of which yield over \$100 to the ton, has been discovered on Vancouver Island, B.C., by Walter Myles, an old Yukon miner.

THE BISHOP REFUSED

JUDGE OF SUPERIOR COURT DEFIED.

Judge Desired to See Some Papers in Connection With a Suit, and Bishop Labrecque, Whose Possession They Were, Refused to Produce Them.

Montreal, Feb. 25.—At a libel suit in Chicoutimi, Bishop Labrecque refused to obey the judge of the superior court, holding that he was superior to any judge. The trouble arose out of the desire on the part of the judge to see some papers in connection with the suit. These were in the bishop's possession, and the judge ordered him to produce them in court. His refusal to obey has created a good deal of comment, and a test will be made of the bishop's contention.

ENGLISHMAN'S MAD ACT.

Tried to Walk on Bosom of Lake Ontario.

Hamilton, Ont., Feb. 25.—While taking snapshots of the ice banks on the beach of the lake shore yesterday, John Frost was startled to find a man fifty feet from the shore in the water up to his neck. The fellow refused to come. Frost made a perilous trip over the floes and rescued the stranger, who was evidently suffering from delirium tremens, claiming that he was imitating Christ's example of walking on the water. He was entirely naked, and had been in the water several minutes. He gave his name as William Brown, of England. The police discovered that he was employed by a Blenheim farmer, and had wandered away. Frost was remanded on a charge of insanity.

Druce Case Perjury.

London, Feb. 25.—Mary Robinson, who is before the 15th street police court on a charge of perjury, committed as a witness in the Druce case, recently heard by Judge Plowden, has confessed that she concocted the famous evidence on that occasion. She is in evidence on that occasion. She said she copied it into an "old diary" that she was promised \$20,000 or \$25,000 by a man who had interested himself in the case.

Japan Doing Her Part.

London, Feb. 25.—A cable from Tokio says the foreign office has instructed the prefectural governors concerned to communicate beforehand with the foreign office when more than two persons with a similar object simultaneously apply for passports to Canada on the United States. The measure is intended to prevent frauds by emigrants going in mass.

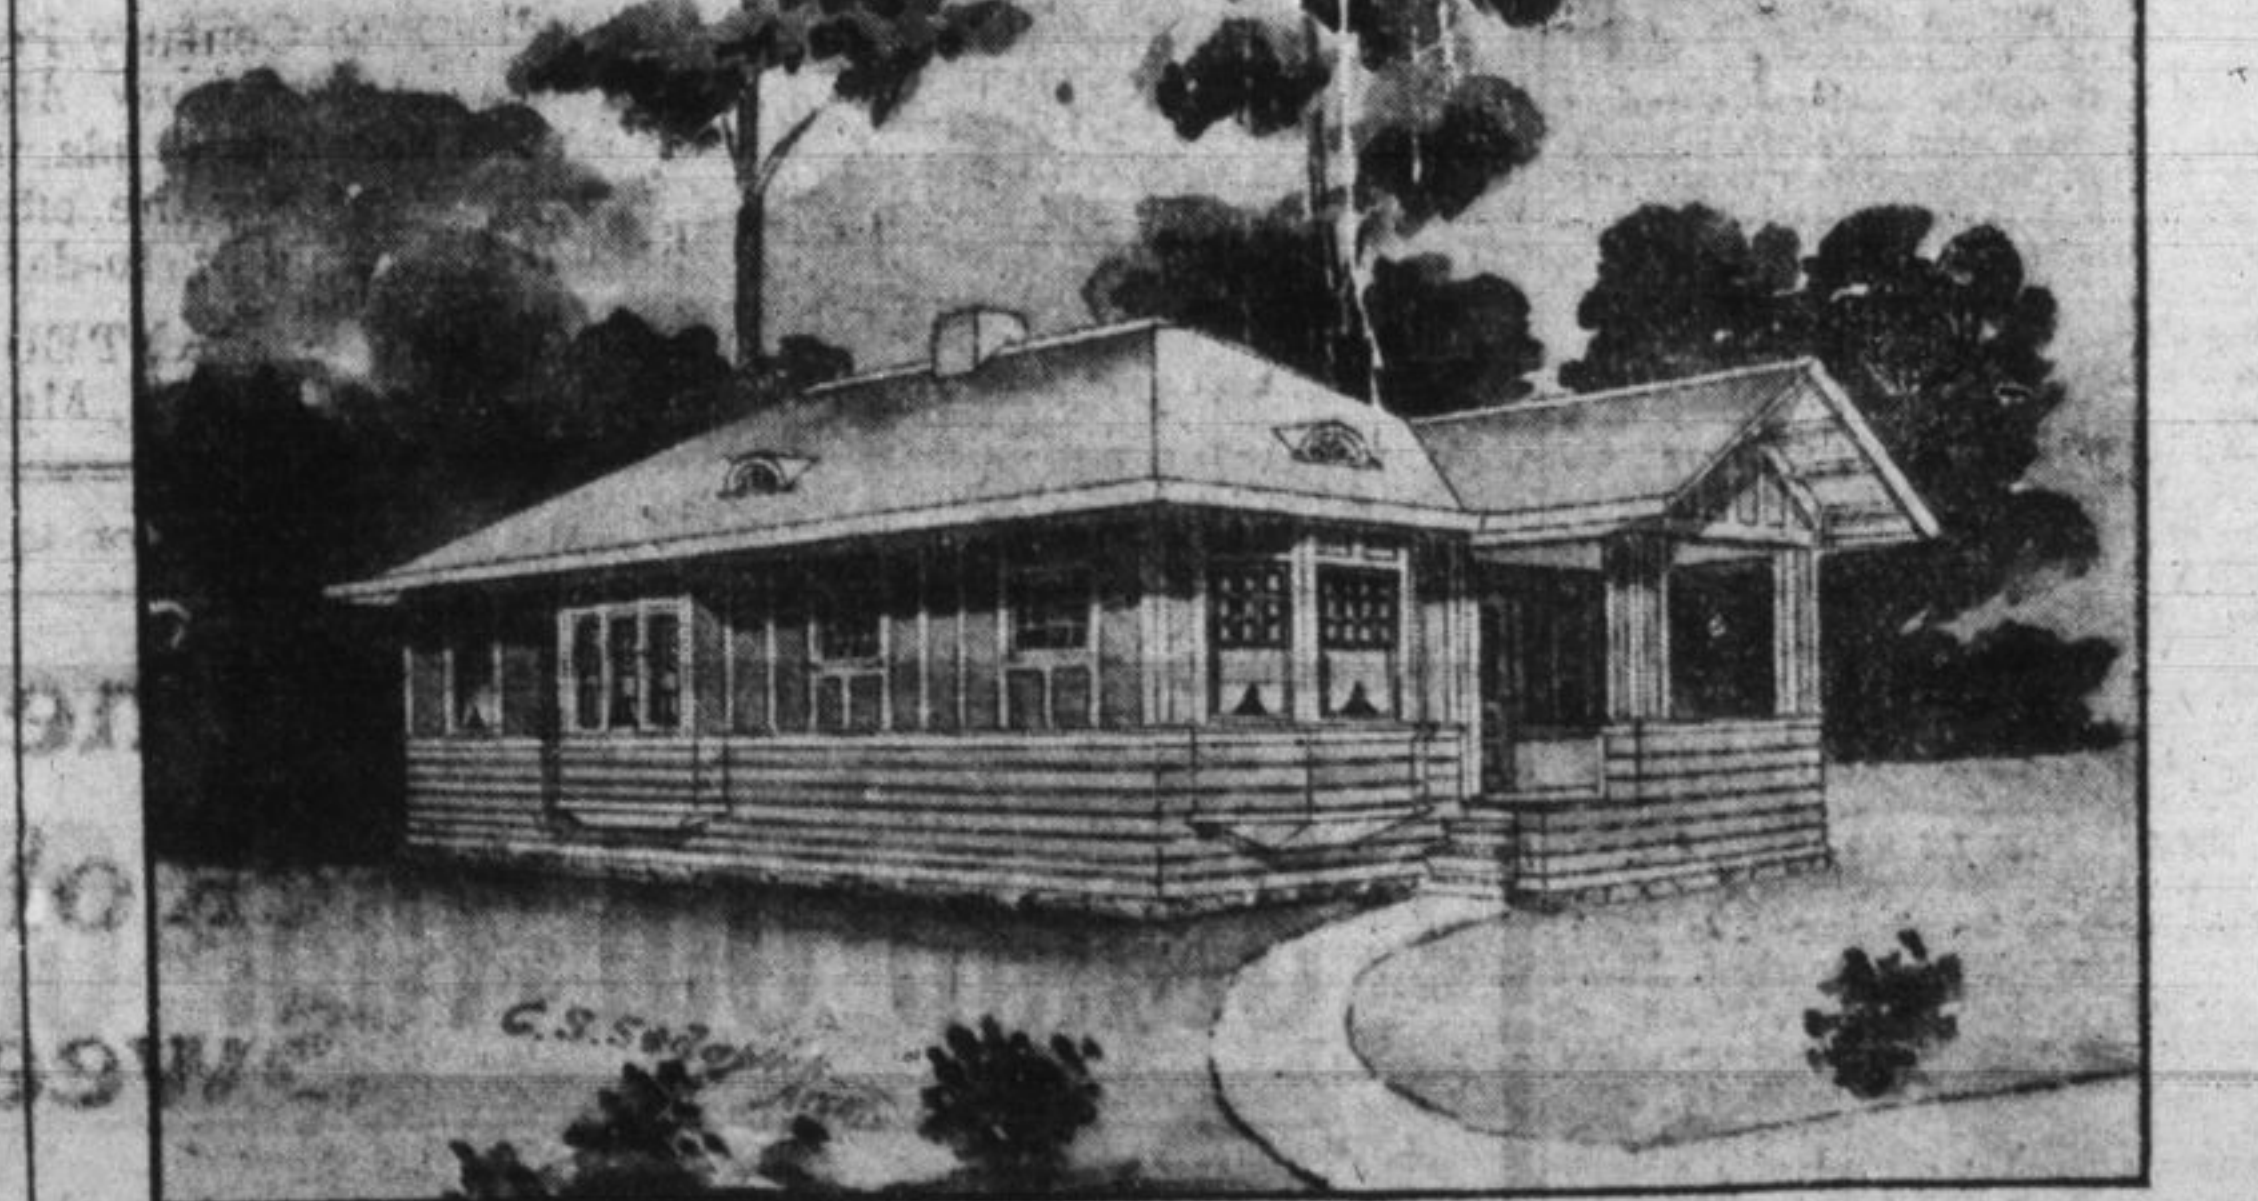

The By-Law Carried.

Havelock, Ont., Feb. 25.—A by-law to increase the license fees from \$250 to \$750, and thus practically to force the three bars here to close, was voted on here yesterday, and carried by a vote of 25-25. The hotel people talk of protesting the by-law on account of the poll not being closed on standard time.

Lieut. R. H. Henderson, Peterboro, has been appointed on the permanent staff of the Canadian Army Service at Halifax, with the rank of lieutenant.

A THOUSAND - DOLLAR SIX - ROOM COTTAGE.

Designed by Chas. S. Sedgwick, Architect, Minneapolis, Minnesota.

There are so many inquiries for a small cottage that can be built for one thousand dollars that the author offers this study, believing that many people desiring a small, economical home will be specially interested in it. This design has had careful study with reference to economy of cost and convenience of arrangement.

There is a small cellar under the central portion, with one chimney located so that one stove will warm the entire house or a small heater can be used in the cellar. The size of the cottage is 22 feet 6 inches by 41 feet. The foundation finishes six inches above the grade line, the superstructure rising from this point, using ten-foot studing, with a sill on top of the wall, the main floor raised 2 feet 6 inches above the grade, the height of story being 8 feet. The roof is low pitched, with high projected eaves, very simple cornice, with gutter.

The outside of the frame is sheathed and covered with heavy building paper and the lower section up to the beveled window-sill is boarded with wide V-joint siding. From the top of the sill to the outside is boarded perpendicular with four-inch beveled-edge battens covering the joint and giving the appearance of half-timber construction at very small cost. The roofing panels painted in dark gray and the horizontal siding beige painted in the same manner, the battens,

with hard pine floor, and the wood-work treated with dark stain.

The following is an itemized statement of materials required and their cost:

| | |
|---|---------|
| 20 yards excavating, at 20c. | \$4 |
| Chimney, brick, at \$2.50 | 25 |
| 30 inches stone, laid, at \$2.50 | 75 |
| 5,000 sup. ft. timber and boards, framed, at 25c. | 224 |
| 7,500 shingles, laid, at 8c. | 30 |
| 375 yds. plastering, at 21c. | 90 |
| 2,000 ft. weather base and flooring, at 50c. | 750 |
| All millwork put up complete. | 350 |
| Painting. | 115 |
| Total. | \$1,000 |

These prices include all labor.

The Bore Returns.

Midnight came and still the bore remained.

"Do you like music?" asked the beautiful girl, just to break the monotony.

"Fascinating fond of it," replied the bore.

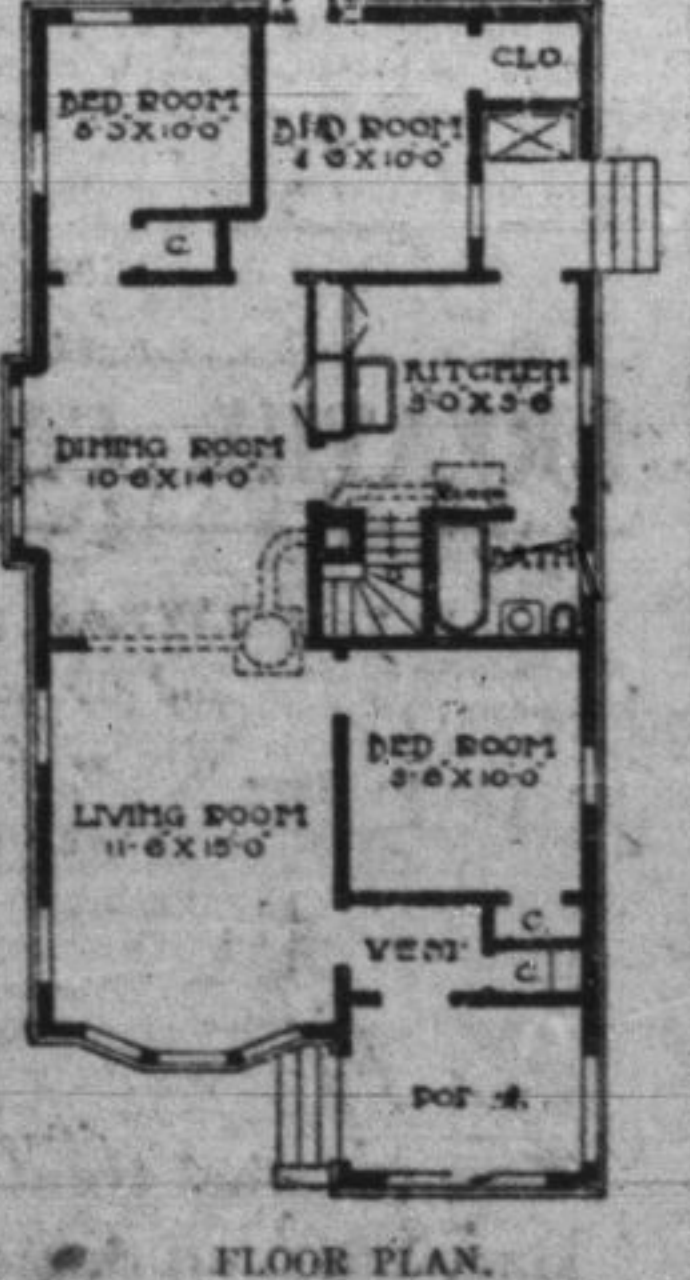

"In fact, music will always carry me away."

She rushed over to the piano and played several popular airs.

"You are still here," she said, turning on the stool.

"But I thought you said music always carried you away."

"So I did—music."

DO WE VALUE OUR PORK?

"Katherine Hale" Pleads For Canadian Literature.

Miss Amelia B. Warnock (Katherine Hale) recently lectured on "Canadian Literature" in the Greek Theatre, Toronto. With excellent literary expression and discrimination Miss Warnock made an eloquent plea for the upbuilding of national art in the fabric of our growing nationhood, and showed an intimate first-hand knowledge with her subjects. The lecture is Miss Warnock's contributions in a campaign for a more intimate knowledge of and appreciation for the work of the growing school of Canadian literature and the interests of Canadian literature and art it is to be hoped that Miss Warnock will be given many opportunities of repeating her lecture before Canadian audiences.

The lecturer deplored that so few Canadian women are acquainted with the literature Canada has thus far produced, especially among those who have made the instruction of the young their life work. Commencing with the works of the early French-Canadian writers, she traced the development to the present day, and referred among others to the works of Robert Christie of Nova Scotia, Major John Richardson, Wm. Courtenay, Alexander McLachlan, John Reid, and Chas. Mair among the early school of Canadian writers, and among the recent writers Isabella Crawford of Peterboro, whose poems were published posthumously two years ago; Dr. Drummond, Ethelwyn Wetherill, Archibald Lampman, Chas. G. D. Roberts, Bliss Carman, "the pagan among our poets," and William Wilfrid Campbell. Among the women poets mentioned were Pauline Johnson, Jean Biewick, Mrs. Sheard, Marjorie Pickthall, Helen Merrill, Isabel Eccleston McKay, and Miss Coleman, and among the novelists Ralph Connor, Gilbert Parker, Harvey J. O'Higgins, Agnes Laut, Norman Duncan and W. A. Fraser.

Of Sir Gilbert, Miss Warnock said that "In the Seats of the Mighty" the author showed all the craft and delicacy of the artist, but that since then he had "traveled extensively, entered Parliament and been made a Knight, all of which seems to have had a bad effect upon his work. His books have been getting worse and worse, and to-day he is no longer an artist."

Some passages from Harvey J. O'Higgins' "Dark Days" were likened to the charm of Barrie and Stevenson. Among the illustrative readings given by the lecturer were Roberts' "The Wrecker," Carman's "Who is the Owner?" and Jean Biewick's "Chore Time."

Ranchmen Forced to Retire.

American farmers by thousands have flocked across the "line," says a writer from Calgary, driving the ranchers before them until the large ranch is now practically extinct in Western Canada, but a few small ranchers still are located on the foothills of the Rockies, where the farming invasion has not yet reached. Last year the Canadian cattle exported put \$12,000,000 into the pockets of the cowmen, but the cowmen have to get out of the way of the wheat elevators and the binders.

A cowboy rides away on the "round-up" and returns ten weeks later to find a brand new town with popcorn roasters on the streets and His Majesty's postoffice where he had left the bare range. It is swift work. Then along comes the railway and the "town" gets on the map and there is a new city of the plains, with a population of several hundred. As soon as spring opens up the American farmers will rush northward to secure land for the harvest of 1907 proved that Canada can raise No. 1 wheat when all other wheat raising territories have failed.

Already a few Americans have commenced the trek of 1908 and emigration authorities claim that during the present year the number of Americans settling in Western Canada will eclipse all previous records. The building of the Grand Trunk Pacific Northern Canadian Pacific, and Great Northern railroads will open up vast tracks of country hitherto unavailable for settlement owing to their great distance from railroad facilities, and there is room for millions when taken into consideration that less than one quarter of the available land in Western Canada has been taken up and less than one-tenth put under cultivation.

The foreign element in Western Canada is being gradually replaced by Britishers and Americans, but here and there may be found a settlement of Doukhobors, Galicians, Icelanders, Swedes, Poles, or some other of the Slav races.

Canadian-Bred Minister.

Mr. McNamara was given a royal reception at the Duke of York's Military School when he detailed the story of his life to the 600 boys there the other day. Mr. McNamara, in an address that was brilliant, inspiring, entertaining and full of aphorisms, outlined his early life in Montreal, where he was born a soldier's son, and indicated the ruggedness of the treasury benches. Subsequent speakers included other members of the Government, who expressed their appreciation of the grit and talent of the Canadian-born statesman, who was one of the crown's most popular Ministers.

The Volume of Square Timber.

When all the dimensions are in feet, multiply the breadth, depth and length together, and the product will give the volume in cubic feet.

When either of the dimensions is given in inches, multiply as before and divide the product by 12.

When any two of the dimensions are given in inches, multiply as before and divide by 144.

IT IS A PARASITE.

That Causes Itching Scalp, Dandruff and Finally, Falling Hair.

The itching scalp, the falling hair and the dandruff that annoys are the work of a parasite hidden in the scalp. That parasite must be killed to cure dandruff, and the only preparation that will do that is Newbro's Herpicide. "Destroy the cause, you remove the effect."

C. H. Reed, of Victor, Idaho, says: "Myself and wife had dandruff and falling hair several years. Two bottles of Newbro's Herpicide completely cured us, after several other preparations had failed to do good." Make hair grow glossy and soft as silk. Hundreds of other testimonials, just as strong. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and \$1. G. W. Mahood, special agent.

ATTENTION, FURNACES

If your furnace needs repairing, if you need any work done in the way of Hot Water Heating, or Plumbing, give me a call, you will get prompt attention and satisfaction.

Rewards For Foreigners.

Pekin, Feb. 25.—An imperial edict, issued here, confers rewards in the shape of decorations and rank upon foreigners in the maritime service. These honors are given on the recommendations of the Nantung revenue council, which is thus taking upon itself a matter which formerly was the prerogative of Sir Robert Hart, until recently chief of the customs department. In spite of this step by the throne other things indicate that the foreign management of the customs service has been weakened by the withdrawal of Sir Robert Hart.

Disclaimed Responsibility.

Detroit, Mich., Feb. 25.—Herbert Kennedy, of this city, has started suit against former City Engineer Newman, of Windsor, to recover the value of a gold watch and chain. Kennedy was with Newman in his survey of Larder Lake last year. Before the party started out from one of the shanties on one of his trips, he left his watch and chain in Newman's satchel, and when the party returned they found some one had broken into the place and stolen—the satchel. Now Kennedy, who has damaged Newman, declared that he refused to take any responsibility for the watch before it was left there.
