British Immigration. Recent British official emigration returns show Canada's unquestioned supremacy among countries receiving British emigrants. In 1906 Canada received 5.300 more Britishers than the United States, and in 1907 she received 16,969 more. #### BRITAIN STILL FAR AHEAD. Builds More Than Half the World's

The statistics of the world's shipbuilding in 1907, just issued by Lloyd's register, show a total output of mercantile tonnage by the United Kingdom of 1,742,365, being a decrease of 220,200 tons as compared with 1906, which was the highest on record. The foreign output in 1907 increased by nearly 80,000 tons.

Great Britain, however, still builds more than one-half the mercantile shipping of the globe, which last 800 tons as compared with an increase of 2,158,000 in 1906.
