

THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS AND CHILDREN

Peru-na Should Be Kept In Every Household

Where There Are Little Children.

Peru-na should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. But, have Peru-na on hand—accept no substitute.

Children are especially liable to acute catarrh. Indeed, most of the afflictions of childhood are catarrhal.

All forms of sore throat, quinsy, croup, hoarseness, laryngitis, etc., are but different phases of catarrh.

Peru-na Contains No Narcotics.

One reason why Peru-na has found permanent use in so many homes is that it contains no narcotic of any kind. Peru-na, if taken according to printed directions, is perfectly harmless. It can be used any length of time without acquiring a drug habit. It does not produce temporary results, but it is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

Mrs. F. Brockman, 818 Meade street, Appleton, Wis., writes:
"I have never had a return of the catarrh, which had made me so miserable and unhappy before I began taking Peru-na."

"I would not be without it in the house, now."

"I have a baby boy, two years old, to whom I give Peru-na for a cold, and my husband also takes Peru-na."

"I thank you and wish you well!"—Mrs. F. Brockman.

Doctor Required.
Mr. Edward Otto, 227 De Soto street, St. Paul, Minn., writes:

"I cannot say enough for Peru-na. It does great work in my family, especially for my oldest boy. We had doctoring with three or four different doctors and they did not seem to do him any good."

"We gave up hopes of cure, and so did they, but we pulled him through on Peru-na."

"We had several doctors and they said they could do no more for him, so tried Peru-na as a last resort, and that did the work. Since then we keep it in the house all the time, and no doctor is required."—Edward Otto.

There are a multitude of homes where Peru-na has been used off and on for twenty years.

Such a thing could not be possible if Peru-na contained any narcotics.

The Benefit Which the Children of the United States Have Received From Peru-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded.

But at least this much can be said that the coming generation owes a great debt to Peru-na, for it is in the tender years of youth that slight ailments are liable to develop into lasting disease, thus blighting the whole career of the individual.

The mothers who are bringing up their children to-day to believe in Peru-na are speaking from their experience.

These children, brought up to believe in Peru-na from the start, will, when they become heads of families themselves, use Peru-na with unquestioning faith.

A Child's Life Saved.
Mr. G. H. Farmer, New Martinsville, W. Va., writes:

"Our little son, Harry, is well and healthy now and we think if we do as you directed us, he will keep his health and grow strong."

"We know that our little son's life was saved by your wonderful medicine, Peru-na, and we shall always praise Peru-na and use it in our family when needed."

"Should we have any more catarrhal trouble in our family, we shall always write to you for treatment."

Mr. W. F. Doring, Mt. Vernon, Mo., writes:

"I have used Peru-na to my entire satisfaction and am exceedingly well pleased with the results, having suffered greatly with catarrh of the stomach."

Mrs. J. C. Sterling, 138 Brown Avenue, Norfolk, Va., writes:

"My little boy, Alfred, suffered with indigestion so badly he could not eat anything without it making him very sick, so I thought (as many others have) that I would try Peru-na, and it worked like a charm."

"Now he eats anything he wishes, and I would not be without it for anything."

"My other little boy, Alfred, two and a half years old, has taken it and received as much benefit from Peru-na as his brother."

"I hope my testimonial may be of some benefit to others, as I feel as though I cannot praise it enough."—Mrs. J. C. Sterling.

Mr. Howard Andrew Sterner, 424 Canal street, Reading, Pa., writes:

"I have Peru-na in my house all the time and won't be without it. It is good for children when they take a cold or croup. I cured my baby boy of croup."

"I have introduced Peru-na into six families since I received your last letter, and fear four have seen relief already."

—Howard Andrew Sterner.

Peru-na Protects the Entire Household.

As soon as the value of Peru-na is appreciated by every household, both as a preventive and remedy, many lives may be saved and thousands of chronic lingering cases of catarrh may be prevented.
