Thought to Be Those of Frederick Chinn of Maple-Likely That Grant Will Be Made.

Toronto, March 4.- The human remains, sticking between the baggage and mail car of the North Bay express, which arrived in Toronto, last night, are believed to be those of Frederick Chinn, a laborer, who lived near Maple. According to information received, the agent at Maple, last evening, refused Chinn's request for a ticket to King, whereupon China started to walk to King along the railway tracks. Great banks of snow are piled on either side of the track, and it is thought that Chinn was unable to get out of the way of the express and consequently was run down and cut to pieces. Chinn was about fifty years old, and without relatives in Canada.

The proceedings taken before the master-in-chambers to unseat Controllers Hocken, Harrison and Spence, have failed. They were taken by George Milligan, a cigar manufacturer, acting, supposedly, on behalf the hotel interests of the city. The grounds for the motion to unsent were that the respondents did not file the statutory declaration required by the municipal act and that they had not the necessary property qualifications. The master gave judgment against both contentions and the controllers hold their seats.
