BOY SCRATCHED DAY AND NIGHT

Eczema Began When a Tiny Baby and Lasted 7 Years—Tore Crusts from Face Till it Was All Raw—Screamed with Pain and Could not Sleep—Though Specialists Failed

CUTICURA EFFECTED A WONDERFUL CURE

"When my little boy was six weeks old an eruption broke out on his face. I took him to a doctor and got ointments and medicines but his face kept on getting worse until it got so bad that no one could look at him. His whole face was one crust and must have been very painful.

"I bought Cuticura and used it for a few days and night until his face was nearly smooth. I had nearly given up but Cuticura had done what no one else could do for me.

"I had to keep them bandaged up and I made gloves for his hands so the nails could not scratch him worse. We could not get a night's sleep in months and my husband and I were all broken down. Then my mother asked why I did not give up the doctors and try Cuticura. So I got a set and he felt relieved the first time I used them.

"The Cuticura Ointment felt so cool. He used to wake up and ask for Cuticura to be put on when he itched so badly that he could not sleep, and he would say, 'Oh! Mama, that makes my sores feel so good!' I gave the Cuticura Remedies a good trial and gradually the eczema healed all up and now he is as well as any other child. He is now seven years old and the cure has lasted two months, so I think it will never return. I can't tell you how glad I am that Cuticura did such wonderful work in our case and I shall recommend it everywhere.
