Almost new; modern in every respect; 9 rooms, hot water heating, gas, etc. Lot, 43 feet frontage.

**McCann,**  
51 BROCK ST.  
OPEN SATURDAY EVENING.

## THE SPORT REVIEW

### MIC-MACS WON A CLOSE HOCKEY CONTEST.

Defeated Frontenac Business College By 5 to 4—Two More Hockey Matches to Be Played on Monday Evening.

Before 250 people at the Kingston skating rink last evening, the Mic-Macs defeated the Frontenac Business College by five goals to four, after a hard fought fight. At half time the score was four to one in favor of the Frontenacs, but in the second half, the Mic-Macs pulled themselves together and landed four goals, while their opponents could not find the net. The game was fast from start to finish, good hockey being played all through. The teams were pretty evenly matched, as to combination and team work. The ice was in fine condition.

In the first half, the Frontenacs had a little the better of it, pulling out with a lead of three at the end of the half. They were playing a little better combination this half, and their defense men were working like veterans. From the opening of the second half the Mic-Macs pulled themselves together and set a good fast pace from whistle to whistle. They certainly proved themselves the better team this half, as they had the F. B. C. boys in the air quite often.

For the winners Lemmon, Dowley and Cooke, played a star game and for the losers, Cairne, McKenzie and Singleton, showed up well. Cairne's work in goal was of the finest. He connected with some pretty stiff ones and relieved nicely. The teams lined up as follows:

Mic-Macs (5)—Saunders, goal; Cherry, point; Lemmon, cover; Metcalfe, rover; Houghton, centre; Dowley and Cooke, wings.

F. B. C. (4)—Cairne, goal; Fraser, point; McKenzie, cover; Forgie, rover; Singleton, centre; McCartney and Laird, wings.

Refer to "Jack" Powell handled the game in a satisfactory manner all through. He made the boys play good fast hockey and would allow no rough work.

For some time, in fact ever since the K. A. H. A. was formed there has been a great deal of talk about the winners of the two leagues, and many were of the opinion that the Mic-Macs would not have a look in. Last evening's game clearly showed that they were a good evenly balanced team.

On Monday night, the F. B. C. will meet Gananoque Tigers, in the St. Lawrence river league series and the Miglets will play St. James, the champions of the Junior City League.

### Sporting Notes.

Montreal Wanderers beat the Fittsburg Bankers at hockey 6 to 4.

The French Rugby football team in England was defeated by Wales, 36 to 4.

The international figure skating championship of Great Britain has been won by Mrs. Greenbush Smith, England, Australia and Africa will play a series of six cricket test matches in England during 1909, each playing the other three games.

Scannon, the Brooklyn pitcher, is not likely to do much ball playing this year. He is finding it no easy task to recover from an operation for appendicitis.

Ottawa Free Press: Alf. Smith is spoken of as the probable coach of the Capital lacrosse club. Alf. knows the game through and through, and it would be a good thing for the senators to put a man like him in charge.

Dr. C. Y. Ford, of Kingston, has been appointed to judge all classes in the coming show of the Hamilton Kennel Club except toy dogs. The boys will be judged by Mrs. Wylie, late of England. The show will be held on April 10th and 11th.

A lacrosse tournament is planned as part of the big Quebec blow-out this season. The N.L.L. teams are being tempted to visit the ancient fortress in order to give the natives a chance to see the Canadian national game as she really should be played.

Old Curiosities.  
We are paying a little more for our two dollar hats than other men, but it pays, then we are not handing you out an old sample hat like some are doing, that should go to the curiosity shop. Durs, glisten with fresh. Try Jenkins' and you will feel a gentleman.

The Ice Getting Thin.  
The ice between the city and Cape Vincent is getting pretty thin now. The road from here to Wolfe Island is all right, but the United States channel is very shaky. The steers going over on Friday used a single horse across that channel and got over all right. The iceboats will likely be put in use in a few days until the ice breaks up sufficiently to allow one of the steamers to get out and break a way.

Graefen-Cunningham.  
A pretty ceremony was solemnized at St. Jarlath's church, Chicago, on March 20th, when Miss Lillian Graefen, Chicago, was united in marriage to Leo V. Cunningham, formerly of Bath, Ont. The bride was unattended, and only the near relatives were present. Mr. Cunningham attended Bath high school and Napanee model school. He left his home town in 1906, to accept a position in Chicago, and now holds the assistant secretaryship of one of Chicago's most progressive firms.

Have Made A Hit.  
Our new hats have already made a big hit with good dressers. See the new designs, \$2, \$2.50, \$3, \$4, at Campbell Bros., Kingston's style centre for men's hats.

Mr. and Mrs. E. A. Gardiner, little son and Miss M. A. Livingstone, Athens, have gone to Regina, Sask., to take up their residence. Mr. Gardiner having been given a promotion and transferred to that city by the National Cash Register company. Will paper sale at Weese's.

Spring Importations of 1908.  
Prevost, Brock street, has received three cases of imported goods for his order clothing department, consisting of Scotch and English tweeds, serges, chevilles and vicunas. A great variety of them to choose from.

## RE-ARRANGEMENT MADE.

### Stirling Now Self-Sustaining Presbyterian Congregation.

A meeting of the standing commission of the presbytery of Kingston was held in Belleville, on Thursday, for the purpose of considering a re-arrangement of certain congregations. St. Russell, Belleville, filled the moderator's chair. Revs. R. S. Laidlaw and J. E. Smith, the committee appointed to visit the Stirling and West Huntington congregations, reported that Stirling had decided to become a self-supporting congregation, and that West Huntington, though sorry to be separated from the Stirling congregation, left the matter in the hands of the presbytery. The committee expressed itself much pleased with the fine spirit shown by both congregations. Strong delegations from Stirling, West Huntington, Foxboro and Sidney were present, and gave their opinions on the proposed redistribution. Finally the commission decided that Stirling should in future be an independent, self-supporting congregation, and that West Huntington, Foxboro and Sidney should form a separate charge. A fine spirit was manifested by the delegates. Stirling, under Rev. Mr. Robertson, has made great progress, and is preparing to do greater things. The new charge of West Huntington, Foxboro and Sidney, of which Rev. R. S. Laidlaw, of Belleville, is interim moderator, will form one of the strongest and most important country congregations in Eastern Ontario. The excellent opening for a young man of talent and energy.

### STRONG ENDEAVORS

#### To Secure Queen's Separation From Church.

It is since learned that strong endeavors will be made to have the corporators of Queen's University authorize the separation of the university from the Presbyterian church before 1908 ends. The corporators comprise all members of the Presbyterian church in Canada. The leading men of the university seem to recognize that separation must come sooner or later, if Queen's is to exist in the future. They maintain that a grave mistake was made when the work of the late Principal Grant towards this end was set aside. To continue its present church relationship, they say would eventually cripple it financially. To make it a state university would ensure its future. It is understood that Prof. Cappon has the details of the separation scheme in hand. One reason for desiring immediate action is to get Queen's on the list of universities to benefit from the Carnegie endowment fund for supernumerary professors.

### ADDRESS BY DR. THIRD.

#### At Teachers' Institute on Friday Afternoon.

The whole of Friday afternoon, at the Teachers' Institute was given over to an address by Dr. Third, on the subject, "Some Nervous Diseases of Children During the School Age." Dr. Third explained the different diseases at some length, and his lecture was of great value to the teachers assembled. The illustrated lecture, which was to have been given by C. F. Levell, M.A., before the teachers, at Queen's College, Friday night, was postponed until next Friday night, when it will be given in convocation hall. The majority of the teachers desired very much to hear Judge Barron's address on "Tuberculosis," and as the lecturer was quite willing for the change, it was made accordingly.

### COMING TO THE GRAND.

"The Mayor of Tokio" is Very Tunesful.  
The music of Richard Carle's "The Mayor of Tokio," which will be the attraction at the Grand on Tuesday, March 24th, is by W. F. Peters, and is unusually pretty. Among the numbers that have become popular and which may be heard wherever an orchestra plays popular music are "Pity My Pityful Plight," "Silver Sea of Love," "Tokio," "When the Ocean Breezes Blow," "I Love You," and "Foolishness." The company is a very large and well balanced organization.

"The Phantom Detective."  
"The Phantom Detective," the new, original, magical, mysterious, musical melodrama that comes to the Grand on Thursday, March 26th, is said to be considerably away from the conventional in every department.

"Coming Thro' the Rye."  
The production of "Coming Thro' the Rye," at the Grand on Saturday, March 28th, matinee and night, brings to this city for the first time one of the greatest musical comedy successes that has ever been brought forward in this country. We are to have in every detail the Rork company's production, which means scenery, costumes, and electrical effects of the most elaborate and beautiful description.

To Entertain the Children.  
Arrangements have been made for Frank Speight, the Dickens entertainer, to give "The Christmas Carol" to the school children, on Friday afternoon. This is one of Dickens' masterpieces, and will appeal especially to children. The recital will be given in the city hall, and the charges will be 10c. and 15c. Adults, usual price.

First Banal Concert.  
On Friday morning the band of "A" battery, R.C.H.A., gave a very pleasant concert, on the square at Tete du Pont barracks. The band is improved greatly during the winter, under the capable leadership of Bandmaster Mc-Kinnon, and the music, yesterday, was greatly enjoyed by all who heard it.

Spring Importations of 1908.  
Prevost, Brock street, has received three cases of imported goods for his order clothing department, consisting of Scotch and English tweeds, serges, chevilles and vicunas. A great variety of them to choose from.

## THE HALLS OF QUEEN'S

### APPOINTMENTS TO MISSION FIELDS

Students Wanted As Waiters at C.P.R. Hotel at Banff—Prof. Goodwin's Reception to the Final Science Men.

The Queen's University Missionary Association has already made the following appointments to home mission fields for the coming summer vacation: Aroola, Sask., P. L. Jull; Collins Inlet, Algoma, J. L. Nicol, M.A.; Key Harbour, Ont., A. Rintoul, B.A. It is probable that the Presbyterian Home Mission committee's report concerning the remaining appointments will be published in a few days.

Final year-science has evidently resolved to be the "adversary" of the theological students until they '08 has joined the great majority. They have challenged the latter to a game of hockey, but the divinity have refused to accept the challenge on the ground that the science men, well aware of the excellent hockey material in divinity hall, deliberately and with malice aforethought deferred the challenge until the seventh hour, knowing that the theologians would then be over-burdened with work.

At its last meeting of the session, the Levana Society voted funds for the purchase of a new couch for the Levana room. The society also passed an amendment to the constitution whereby the time allotted to inter-year debates will in future be lengthened by two minutes.

The reports of the recent D.L.S. examinations by Ottawa show that three Queen's students of the final year in civil engineering, Messrs. C. D. Brown, K. C. Gunningham and J. Findlay, B.A., were among the successful ones and are now entitled to the degree of Dominion land surveyor.

A C.P.R. official has communicated with the university authorities, with a view to employing a number of Queen's students as waiters in the C.P.R. hotel at Banff, Alta.

To G. J. McKay, B.Sc., demonstrator in the mining laboratory, is extended the profound sympathy of his many friends in the bereavement occasioned by the death of his mother. Mr. McKay left immediately for his home in Owen Sound, to attend the funeral.

W. M. Harding, a final year mining student, was also bereaved this week by the death of his sister, who passed away at Calgary, Alta.

It is a worthy fact that Queen's students are to be found in the curling finals in the singles, doubles and rink competitions. The students and many devotees among the students and that the boys play the game as it should be played is evident from their brilliant record throughout the season.

Dr. W. L. Goodwin entertained the members of final year science at his home on Alton street on Wednesday evening, and to say that he proved himself a most genial host is to express the sentiment of every budding engineer who enjoyed his hospitality, and when the time for informal speech-making came around every sign of timidity had vanished.

The illustrated lecture, which was to have been given by C. F. Levell, M.A., before the teachers, at Queen's College, Friday night, was postponed until next Friday night, when it will be given in convocation hall. The majority of the teachers desired very much to hear Judge Barron's address on "Tuberculosis," and as the lecturer was quite willing for the change, it was made accordingly.

His many friends will regret to learn that Prof. N. B. Carmichael has again been compelled to discontinue his duties as associate professor of physics on account of illness.

W. H. Compton, who has dramatized Dickens' "Christmas Carol," is seeking the assistance of some twelve or fourteen members of Queen's Dramatic club for the presentation of the play in Ottawa under vice-regal patronage shortly after Easter.

J. J. Skene has resigned the business management of the Dramatic club and his successor is C. G. McCannion.

The Arts' Society has appointed the following board of reading-room curators for next session: J. A. Shaver (chairman), A. Anstoum, M. Colquhoun.

Queen Street Methodist Church—Rev. W. H. Sparling, pastor, will preach at both services. Evening subject, "The Duty of Restitution." The male quartette will sing at both services. Sunday school and Bible class, 2.45 p.m. A. Stevenson, of the Collegiate Institute will address the Young Men's Club at 3 p.m., on "Literature and Life." Mid-week service, Wednesday, 8 p.m.

Swedenborg Street Methodist Church—11 a.m. the sermon to mothers and fathers, which was postponed from last Sunday, 7 p.m., subject, "Democratized by Christendom." 2.45 p.m., Bible school and men's club, 10 a.m. Junior League and class meetings. Special Lenten services, Monday and Wednesday evenings at 8 o'clock in the Bible school hall. Organ recital, Sunday evening at 6.30 o'clock by Prof. Milner of St. Mary's cathedral.

Lemons Or Oranges.  
Two dozen 25c. Edwards & Jenkin, Phone 775.

The North American Life Ass. Co. is anxious to engage four good men as canvassing representatives for Eastern Ontario, during the next six months. Salary or commission, splendid opportunity for Queen's students, during vacation. Apply to W. J. Fair, District Manager.

F. G. Genson, with wife and family, of Camden, N.Y., have arrived in the city, and will be taking up their residence at Sevedham. They spent a few days visiting old friends at Inverary and Holland.

S. T. Melville, Portsmouth, who has been all the past couple of months, is recovering slowly. Come in and see the new styles "Kin" and "Kickerbocker" hats at Jenkins'.

**A Spring Hat**  
Have you bought yours yet? If not, why not? There's nothing to be gained by waiting. It's just like cutting off one end of the blanket to lengthen the other. Buy now while our variety is at its best. Our range is immense.

**\$1.50 to \$5.**  
George Mills & Co.  
Importers of Fine Hats.

## YOUNG PEOPLE'S WORK

### REV. DR. MACTAVISH GIVES ADDRESS TO STUDENTS.

Delivers a Practical Lecture at Queen's, on Organizing and Maintaining a Young People's Society.

On Friday, Rev. Dr. MacTavish, convener of the general assembly committee on young people's societies, delivered a practical lecture to the theological students, at Queen's, on organizing and maintaining a Young People's Society. At the outset, he mentioned the titles and authors of certain books which he had found most helpful in this department. He then proceeded to show, from statistics, and the opinions of those who have studied the psychology of childhood, that the majority of Christians are converted when they are about sixteen years of age, and that, therefore, work among the young may be expected to produce the largest results. In dealing with that class, the pastor has not to reform a character, but to mold it. Young people, too, are likely to make the most efficient workers; besides, they may naturally be expected to remain longest in the field. But why should they be organized into societies? Because courage and enthusiasm are engendered when they are permitted to work in company. Besides, in union there is strength. Further, if young Christians are not organized for work within the church, they will probably identify themselves with the societies outside of, or even antagonistic to the church.

The lecturer then considered the advantages to the pastor, to the congregation as a whole, when a live Young People's Association is formed. The pastor will increase his influence largely because he sets others to work, he will win the sympathy of the young people, and of their parents as well. The young people themselves will develop a well-rounded character; they will become more intelligent church members, because they study for themselves, the doctrine and work of the church, and they will learn how to conduct business meetings in a business-like way.

Dr. MacTavish recommended the formation in Presbyterian congregations, of either the Christian Endeavor Society, or the Presbyterian Guild. He preferred the former, because of its world-wide fellowship, and helpful literature. He strongly advised students not to organize societies where there is no pleasant evening is thought of, and membership carries with it no sense of obligation. Successful work cannot be carried on, except as responsibility is laid upon the young people, and they feel it.

**PRETTY IRISH WEDDING.**  
The Groom Known to Many Hereabouts.

A pretty Irish wedding, in which many friends and relations, in Canada are interested, was that of Anketell Gerald Moutray, of the Connaught Rangers, only son and heir of Mr. and Mrs. Anketell Moutray, of "Favour Royal," county Tyrone, one of the most beautiful estates in Ireland. The bride was Miss May Letitia Grant, fourth daughter of the late Major and Mrs. Grant, of the Rathconrath House, Mullingar, Co. Wick. Mr. Moutray, D.D., the bridegroom's uncle, performed the ceremony, assisted by two other clergy. Snowdrops in profusion were in the church, with evergreen and the bride wore ivory satin, duchesse and handsome lace. The bride's three sisters were her maids, and Capt. Jourdain was best man. On the way back from the church the country folk took the horses from the carriage, drawing the happy pair through the village to "Rathconrath," under arches which they had put up. The bridegroom, who is very young, is a nephew of W. H. Moutray, of "Farnham," Amherst Island.

Several of the agency hats that are now being advertised extensively have been turned down because they are not built for the smart dresser. The "King" and Kickerbocker are the best we have yet seen and the agency for both is with E. P. Jenkins'.

**B. A. Hotel Arrivals.**  
J. Bles Kinfleur, Norfolk; Henry Goldmark, J. H. McCoub, J. C. Spooner, Montreal; E. Arthur Bixen, Robert N. Irvine, Deseronto; Andy Wilson, Belleville; Mrs. L. M. Wood, Watertown, N.Y.; A. Irving, G. Gandy, A. Silverman and son, Sudbury; W. J. Ames, W. Hartwell, London; Sheriff Richardson, Harold Richardson, Ottawa; A. G. Auderbert, Cognac, France; F. S. Stockwell, Montreal, N.B.; J. Blackwell, Decatur, Ill.; B. Devaney, Toledo.

**Campbell Bros'.**  
\$2 and \$2.50 derbies are just right.

William Pepper, Lanark's well-known horseman, was up at Bolingbroke, last Thursday and purchased a dandy team of heavy draught Shires from John Ritchie. They are well matched bays, weigh 2,700 pounds, and cost their present owner \$400.

In the tea-producing countries of the Orient the price of tea has almost doubled during the past year. This has necessitated the "Salada" Tea Co., in order to maintain the high standard of perfection to which they have brought blended Ceylon Teas to advance the price of the 25c. grade to 30c. per pound.

Genuine wall paper sale at Weese's.

**THE KINGSTON MATTRESS CO.**  
Have the only properly equipped machinery in the city for renovating and relling Hair, Cotton, Fibre or other Mattresses.

**NEWMAN & SHAW.**  
110 CLERGY ST.

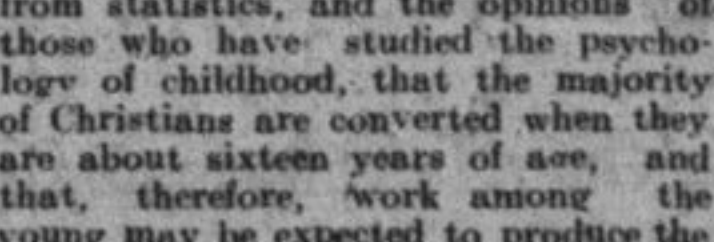

## LEGISLATIVE ASSEMBLY

### FOR RE-ELECTION

## EDW. J. B. PENSE.

The candidate's public duties will prevent a systematic canvass. Will old friends, and many new supporters kindly reserve their pledges for his benefit?
