

IS USEFUL IN FOGS BOATS TO HAVE RECEIVERS OF SUBMARINE BELLS.

Recently Invented Device to Render Collisions Less Frequent at Sea—Signal Will Show Location of Ship Ten Miles Away.

Montreal, March 23.—The Allies will this season have eight of their boats equipped with receiving apparatus, by which communication during fog will be maintained with "submarine dry bells," which are now attached to several of the lightships in the Gulf. The apparatus is placed at the bottom of the ship. Water is a sound conductor, and when in a fog the submarine bell rings the officers on the ship are made aware ten miles away just at what point the boat is located. This submarine bell is a comparatively recent device, but it has proved to be of the greatest service.

Very Annoying. People who attended church yesterday had much trouble following the sermons on account of the many people suffering from coughs. A word to the wise should be sufficient.

How many "Australians" people know much about life in "our sister dominion" at the Antipodes, great and famous Australia? Not many. We know more about Germany, France and Russia. Yet Canada and Australia are the two greatest limbs of the British empire. They should know each other better. Now, if you want to get some leaflets of the Australian country, with this of the possible trouble and practically at no expense, take in the Bijou to-day or to-morrow, and see "Scenes in Australia" splendidly pictured. Send your children if you can't go. There is another splendid picture of the fairy-tale type called "The Black Witch of Abyssinia," which is very pretty and suitable for children. SYDENHAM ST. CHURCH. SUNDAY EVENING SERMON BY THE PASTOR.

Rev. C. A. Sykes Speaks on the Subject, "Demonized vs. Christianized"—A Call to the Un-saved.

Preaching at Sydenham Street Methodist church, Sunday evening, the pastor, Rev. C. A. Sykes, chose as his subject, "Demonized vs. Christianized." The text was found in Mark 5, 9: "And he asked him, what is thy name? And he answered, saying, my name is Legion; for we are many." In the olden days, as in the present time, men were influenced by evil spirits. A person yielded to the temptation, and did just as influence said he should do. It was just the same to-day, when men yielded to gambling, drinking, and other evils. His temper would also get beyond his control, and he was the terror of his home. This was all caused by the fact that he came under the power of suggested evil. When under this spell, he was not himself; he appeared to have lost all his self.

But there was the resurrection of the better self. Salvation commenced in thinking. The reason why a "great many more" did not receive salvation, was because they refused to think. Some people would think about their souls for a short time, but would not aside the question as soon as possible. If they would but think continually, the outcome would be that they would be saved for all time. To the young men who were now just at the turning of the ways, he would say what is thy name? What would it be if you were to take this fatal step? To the man old in sin, he would say, "what is thy name?" Is it anything like what you are? Does your name describe what you are? How will your name be read when you are gone? To be Christianized, one must come under the spell of God and sit under His spell, as to come under the spell of the evil spirit. He must yield to the beautiful and the good. He must be purified within and without.

"Christ calls to men and women, no matter how far they are in wickedness. Let us make fellowship with Him. Let us yield to His spell—the spell of the eternal Christ."

What Consul-General Says. Nothing is known officially at the French consulate-general's office in Montreal regarding the withdrawal of charges against "Kid" McManus, but in conversation with a representative of the Witness, the consul-general said he had heard unofficially, that the American Express company was trying to influence the French government to drop proceedings.

If that were so, he would learn about it, but as the negotiations would be concluded in Paris he could not know immediately.

Nothing could be done, in any case, before McManus' sentence expired, on March 25th, and it was too soon to say that extradition proceedings would be dropped. So far they had not even been begun.

Johnston Gen. Toronto, about forty years of age, got three months in jail, to-day, for crime with his sister. The latter bore a child.

The most gentle of Nature's laxatives put into candy form. That's Cascarets. Made to be taken in dainty doses, when you don't feel at your best.

A cure for the blues—for the grouch—for bad temper—Cascarets. For the cause of most of these troubles lies in the bowels. A Cascaret tonight means a cheery day tomorrow. Six bright days for ten cents. Are they worth it?

Don't think of Cascarets as a physic. They are candy tablets, as good as they are gentle. Their effect is the same as the effect of some foods. They stimulate the bowels to natural action. Those who have learned what is best carry a box in the pocket. They take one as soon as they need it.

Don't have a bowel wash-day. Don't take physics in large doses and rarely. You wash your face at the first sign of uncleanness. Why not be as clean with your bowels? You know by the symptoms when your bowels need help. One Cascaret right then puts a stop to them. You can just as well avoid these little ills—just as well keep at your best.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and TEN CENTS PER BOX.
