THE 5 P.M. EDITION

INCIDENTS OF THE DAY.

Newspapers Picked Up by Reporters on Their Rooms. Bibby's 82 hats are fine. W. H. Givens, of Minneapolis, is in the city. Strictly fresh eggs, 20c. per dozen. Sylvester Dym, of Belleville, is a visitor in the city. The Frontenac Business College hockey team had their pictures taken to-day in group. See our assortment of moth destroyers before putting furs away. At Gibson's Red Cross Drug Store. The veteran, Thomas Payne, of Portsmouth, is surprising his friends by getting able to move around again. The many friends of Miss Anne Vanduyne will be pleased to hear that she has fully recovered from a severe attack of rheumatism. The Portsmouth postmaster has had a new plate glass window put in, to replace the one broken by an artillery man's horse a few days ago. Bibby's 82 hats are no longer. The farmers coming to the city report that the roads are in very poor condition, but that the rain will do much to clean them up. James Baker, Princess street, has put up a grill metal for the city pool championship. The games will be played on Tuesday evening, and six have entered. Gents' English made boots on American lasts and patterns, at The Lockett Shoe Store. To introduce a farmer's rig came to grief, today, on Princess street. The rig was heavily laden and the rear axle broke, scattering the produce all over the road. Bibby's 82 hats for style. The honorary testimony of the Royal Canadian Humane Society will be presented to George Hammond, by E. J. B. Penno, M.P.P., at the Princess Theatre, at eight o'clock this evening. President Stockdale, of the city league, has had many communications from the towns of the St. Lawrence league to form a baseball league, and in all probability he will do so, if the local teams give him proper support. Several chances to buy an auto, a local business, a home and many useful articles offered in to-day's "For Sale" column. Read page three. An elderly lady received a severe fall, on Princess street, near Montreal street, this morning. She slipped on the icy crossing and fell heavily to the walk. Her lady companion helped her to her feet and assisted her into a nearby store, where she soon recovered.

CLASSES AT QUEEN'S

WILL CLOSE ON THE FIRST OF APRIL.

Dr. Bonar, Master of the Canadian Mint, Speaks on Socialism.—Medical Lectures By Dr. C. K. Clarke, of Toronto.

The Engineering Society of Queen's held an open meeting in the engineering building, on Thursday afternoon, when Dr. James Douglass, of New York, delivered a very interesting address on questions of interest to the engineering profession. Dr. Douglass, who was one of Queen's earliest graduates in arts and science, is admitted to the foremost copper expert of the world, and has copper mining interests which are probably larger than those of any other man in America. He was to have spoken at the science dinner, and came to Kingston for that purpose, last fall, but such a mass of urgent letters and telegrams awaited him on his arrival here that he was unable to attend the dinner. His lecture was heartily enjoyed by the science men and many "lay brothers" who attended.

The Dramatic Club's annual election of officers resulted as follows: President, F. H. Huff; vice-president, G. N. Lrie; auditor, G. E. Meldrum, B.A.; business manager, J. G. McCannion; committee, Messrs. W. Girvan, M. Marshall, Messrs. P. T. Pilkey and G. W. Ritchie. "William Blake, Artist and Poet" was the subject of Prof. J. L. Morrison's illustrated lecture before the Historical Society this week. D. L. Mackay, '09, president of the Y.M.C.A., is still in the general hospital.

The permanent officers of the year '08, arts, are collecting the addresses of all the members of the year, in anticipation of a reunion to be held in Kingston a few years hence.

The final meeting of the Political Science Club was held, yesterday afternoon, in the junior English room, when Dr. Bonar, master of the dominion mint at Ottawa, addressed the students on "Socialism." Dr. Bonar, who was a classmate of Prof. John Watson's, is a scholar of repute, his book on "The Relation of Political Science to Philosophy," showing an intimate acquaintance with both these great branches of learning. He treated of his subject, "Socialism," from the popular rather than the technical point of view, and his address was most intelligible to all present, irrespective of whether they had attended the political science classes or not. Lectures close for the session next Wednesday. The honor examinations commence this day week and the pass examinations the following Monday.

Dr. C. K. Clarke, superintendent of Toronto asylum, and formerly superintendent of Rosewood Hospital for the insane, gave two very interesting lectures in Convocation hall on Thursday and Friday mornings. Such questions as heredity and crime, and the treatment of the insane were dealt with. The evil effects of a country's toleration of promiscuous immigration upon its present and future welfare were fully set forth.

The Regina papers contain reports of the annual meeting of the Queen's Alumni association of Saskatchewan. The officers elected are: President, Honorary president, Prof. J. Watson; Regina; first vice-president, J. A. Allen, M.A., Saskatoon; second vice-president, H. A. Wilson, Ph.D., Regina; secretary-treasurer, J. S. Huff, B.A., Regina; committee, Mrs. E. Simpson, Miss E. D. Cathro, B.A., Dr. F. J. Ellis, Regina; W. A. Boland, M.A., Yorkton; S. W. Arthur, B.A., M.D., Redvers; A. H. Singleton, M.D., Rouleau.

Prof. Callander has the profound sympathy of the students in the bereavement occasioned by the death of his brother. Prof. Callander will give no further lectures in Greek this session.

An Unusual Storm.

The electric storm on Friday night was decidedly vigorous. As ten o'clock rain began to fall quite heavily, and continued during the greater part of the night. The lightning dashed and the thunder crashed for quite a time, and gave the people quite a scare, as a storm of the kind is so unusual at this time of year. It is said that such a storm disappears in the north, it means colder weather, if it disappears in the south it means warmer weather. The storm divided, one half going north and the other south. Now the Portsmouth philosopher is worried. He is very busy with his divining rod, trying to interpret these strange signs of the times.

To-Night And Monday.

3 lbs. fresh arrowroot biscuits, 25c. 7 lbs. fresh broken sweet biscuits, 25c. 1 box soda biscuit, 25c. 31 lbs. Pearl tapioca, 25c. Strictly fresh eggs, per doz., 20c. Farmers' roll and print butter, per lb., 30c.

At Mullin's grocery, corner Johnson and Division streets.

Big Drop In Milk.

There was a big drop in milk, Saturday morning. A lad had several cans on a push cart, on the bill on Ordinance street, when the cart struck a rut in the road, and the cans tumbled off. Some fifteen quarts or more of milk was wasted, and the lad was almost heart-broken as a result.

May Be Charged.

As the result of an investigation which is now being made, a young man, living in Loughboro township, may have to face a charge of seduction. The girl involved in the case is fifteen years of age, and her parents also live in Loughboro. The girl is now in Watertown, N.Y.

For Sale.

Best family steamyacht, new row boat, bathhouse, etc., property of the late John Routley. Inquire of Mrs. John Routley, over store, 173 Princess street.

Campbell Bros'

New telescope hats are just right, at Mullin's.

SOCIAL NOTES.

(Continued from Page 2.)

Mrs. J. M. Hughes, 374 Brock street, was hostess at a pleasant tea on Thursday, from four to six. The guests, who numbered about fifty, were all married ladies. The hostess was assisted by Miss Jenkins, Miss Mayne Smith, Miss Crawford and Miss Rhea Crawford, also by two pretty little tots, Miss Phyllis Costea and Miss Kathleen Elliott. The decorations consisted of pink and white carnations, ferns and palms, and the darkness of the afternoon was soon forgotten by the glow from pretty pink-shaded lights throughout the rooms. All the guests enjoyed themselves thoroughly, and it was the departure came too soon.

Mrs. Edward Beck, who is with Mrs. W. J. B. White, University avenue, will leave on Monday, for Detroit.

Mrs. Cornelius Bermingham was expected home from Ottawa, this afternoon.

Mrs. W. J. B. White, University avenue, will leave, next Thursday, for Toronto, for a fortnight's visit with her people.

Colonel Rutherford of Ottawa, will spend a few days with Mr. and Mrs. Iva Martin, "Underwood."

Miss May Townsend, of Halifax, will probably leave town early in the coming week.

Mrs. Forbes Torrance, Wellington street, expects to leave for Montreal to join her sons, about Easter. Mrs. Torrance will be very much missed in many circles.

Mrs. Richard Tothill will come up to Kingston some time this spring, and will probably be again at "The Avonmore."

Mr. and Mrs. Edward Moore, who have been spending a few days at "Arthur Place," left by the noon train, to-day, for Winnipeg, their trip to the old country was very delightful.

Mrs. Charles Masters and her baby will be here on Wednesday or Thursday of next week to pay Mrs. J. C. Paterson, Union street, a visit.

WANTED FOR ROBBERY

FOR THE THEFT OF \$7,000 WORTH OF JEWELRY.

Police All Over Continent on Lookout For Alleged Ontario Thief—Reward of \$500 Offered.

On a charge of stealing \$7,000 worth of jewelry in Canton, Ohio, a man, who went by name of John Collins, is wanted by the police in that city, and the local police as well as the police all over the continent, have been asked to keep a lookout for him.

According to the circular sent out by the Pinkerton agency, Collins, in the latter part of November, 1907, offering to work jointly as night porter and bell boy, was employed by the management of the Cortland hotel, Canton, Ohio. Collins confidentially informed some of the hotel employees that he was originally from Ontario; that his true name was Seton. On December 7th, 1907, between 3 and 3:30 a.m., while on duty in the hotel, Collins stole a salesman's trunk of jewelry valued at \$7,000, the property of Wess, White & Christie, (members of Jewellers' Protective Union), 708 Penn avenue, Pittsburg, N.Y. On December 13th, the Protective Union offered a reward of \$500, which is still in force for the arrest and conviction of Collins.

The circular states that Collins may be employed or attempt to secure employment in some hotel or club, preparing to commit another robbery. The description given of Collins, included the following: Age, twenty-three to twenty-five years; medium build, five feet six and one-half inches; medium stout, florid complexion, brown hair, parted in middle, blue-gray eyes, slightly crossed, smooth shaven.

WOULD MAKE PULP FREE.

Roosevelt Wants to Get it From Canada.

Washington, March 28.—Pulp from Canada is one of the subjects of the president's latest message to congress. Mr. Roosevelt recommends that in the interests of forest preservation that wood pulp be placed on the free list, with a corresponding reduction upon paper made from pulp when it comes from another country that does not put an export duty on it.

Now, the view here is that this means, under existing conditions, no relief for the cheap newspapers that are selling their wares for less than cost, because the only country from which pulp can come is Canada, and Canada insists on protecting her forests just as the United States does, and places an export duty on free paper material.

Infants Having Hard Time.

New York, March 28.—Epidemics of infantile diseases have caused the quarantining of four institutions for the care of children in Brooklyn.

Measles, scarlet fever and chicken-pox are the prevalent maladies, which have forced the health authorities to take charge of the institutions, all of them overcrowded as a result of the financial stringency.

Supt. Goodhue, of the bureau for dependent children, says that much of the sickness among the little ones was due to lack of proper nourishment in the homes from which they had come.

Washburn Personal.

Washburn, March 27.—Mr. Emory has moved from Gannanogue to this neighborhood. The tea-meeting at Zion church was well attended. Recent visitors were Mr. and Mrs. John Greenlee, at H. McLom's; Mr. and Mrs. George Woods and family, at W. Woods.

Doctors Highly Delighted.

They say for fattening and nourishing, nothing exceeds the pure "Societe" Olive Oil, which we import direct from France. We have it in sealed bottles, fresh from Sunny Nice, 30c., 50c., and \$1 per bottle at Wade's drug store.

A Negligent Committee?

The civic finance committee met, last evening, but failed to take up the budget, so that it will likely be the middle of April before the tax rate is struck, unless a special meeting of the city council is called. The delay hinders the city officials in their work.

Will Interest You.

Want an auto? Want to buy a prosperous local business? Want to secure a home? Then read the "For Sale" ads. in to-day's Whig. You can't afford to miss reading this page.

W. B. Carroll, K.C., is to be appointed police magistrate of Gannanogue.

Peter Hunter, Queen street, is improving daily.

These goods are being offered at an actual loss to some one on each garment. See them.

R. Waldron.

EVILS OF SUBSTITUTION

Means By Which This Practice May Be Circumvented.

The old axiom that the most sticks will be found under the apple tree may be applied with even greater truth to the widespread practice of substitution now prevailing. The more renowned the article the greater number of imitators there will be found endeavoring to fatten on its reputation. Substitute articles are always inferior and yield a large profit to the dealer, many of whom for this selfish reason persistently try to foist them upon the public. Standard brands like Magic Baking Powder, Gillett's Perfumed Lye, and Gillett's Cream Tare have proved a shining mark for imitators. The extensive manner in which they have been advertised for years, coupled with their recognized superiority and the great growing demand for them have enabled manufacturers of spurious articles to boldly and closely copy the labels with the hope of sharing in the trade Gillett's reputation has created. There is but one way to meet such tactics. Examine the label and insist on getting what you ask for, as it can generally be accepted that the dealer who wishes to sell you something else, "just as good" has some ulterior motive to serve.

Municipal Amendments.

The municipal committee of the legislature has sent to the house clauses to amend the following: Give councils power for entering or passing over lands to search for timber, gravel, stone and other material for keeping roads in repair, price being subject to arbitration. Before this a process of arbitration was necessary to settle the price. In the first, then another arbitration as to price. Give councils power to regulate opening of quarries or gravel pits, to protect residential sections or public squares. Give councils power to regulate erection of advertising boards. The committee refused to reduce the length of bridges for which townships have the responsibility from 300 feet to 200 feet. There was a strong expression that counties would ere long have to take charge of all bridges over fifty feet long. The bill to make milk sellers for houses responsible to fine if there was less than twelve per cent. of solids, including three per cent. of chemically dry butter fat, was killed.

The Late Mrs. Charles Cochrane.

The funeral of the late Mrs. Charles Cochrane was very largely attended, on Friday. Service was held at the house, by Rev. Mr. Roadhouse. The pall-bearers were six sons of the deceased. The remains were taken to Sand Hill vault, and will be later buried in the family lot. Deceased was a daughter of the late George Hanley, of Storrington. She married Charles Cochrane, of Glenburnie, in 1864, who died six years ago. She leaves a family of twelve—Robert, of Jordenham, George, of Syracuse, N.Y.; John, of La Fayette, N.Y.; William, of Romulus, N.Y.; Mrs. Blanchard, of Newton Falls, N.Y.; Mrs. Carman, of Antwerp, N.Y.; Campbell, of Glenburnie; Charles, Edward, Marshall, Christopher and Mary, at home.

Lecture For Students.

Rev. Dr. MacLachlan lectured before the divinity students at Queen's, on Friday, at noon. He dealt with the best methods for the organization and maintaining of young people's societies. The lecture was a most helpful one, and was much enjoyed by the students.

John Flett, Hamilton, general organizer for the American Federation of Labor in Canada, returned to Kingston, to-day, from Gannanogue, where he organized a masons' union. The tender of W. Smith, Quebec, for the Perrin Plough business at Smith's Falls, is accepted. It calls for an aggregate of \$9,000 for the premises and plant. Strictly fresh eggs, 20c. per dozen, at Mullin's.

THE REPAIRING OR RESETTING

Of valuable rings is necessary after much wear, otherwise a costly jewel is likely to be lost.

Our workmen are skilled in the setting of diamonds and other precious stones, and we can promise you first-class work, at reasonable prices.

Engraving, designing and manufacturing a special feature of our business.
