THE INVICTUS SHOE. This year the Lenten season is being marked by more thoughtful and suggestive talks.

THE LENTEN DEVOTIONS. In the large cities it has been the practice of the clergy to make much of the Lenten discourses.

THE INCAPABLES MUST GO. If there is anything of special importance in the civil service commissioners' report it is that the junior clerks are all right.

THE WHIG, 75th YEAR. DAILY BRITISH WHIG, published at 206-210 King Street, Kingston, Ontario, at 2 1/2 per year.

Daily Whig. WHAT'S IN A NAME? It may perhaps be somewhat of a relief to those who have found it hard to pronounce the name School of Pedagogy.

EDITORIAL NOTE. There will be civil service reform right enough. And it will clear a lot of incapable Tories out of office.

Mr. Dunlop, M.P.P., has refused to stand for re-election in North Renfrew. Now, what is the matter? Mr. Donovan was alleged to have redeemed Brockville.

It is suggested that the government turn over the reform of the civil service to a commission. Oh, no. That would not prevent the cry of 'spoils, spoils.'

The civil service was not appointed to whitewash any one. At the same time it was not expected to blackwash the officials of the marine department.

All the officials affected by the scari-fying of the civil service commission, but one, are conservatives. The report is properly described as "startling" to the opposition.

Some of the civil servants will not enjoy the 12 1/2 and 15 per cent. increases which the commission advocates. And they do not deserve it if they are dishonest, as the commission avers.

The Toronto school board is impressed with the fact that too many teachers are absent from school on account of alleged illness. Some cure for this is to be had by a special reference to medical authorities.

The Telegram wants a board of critics for federal offices. Why not a similar board for the provincial offices. A few independent critics in Toronto would find something to talk about—Mr. Whitney would let them.

The imperial parliament will lose a notable figure some of these days by the death of the premier. He is not a brilliant man, like Mr. Asquith or Mr. Chamberlain, but one in whom the masses have the fullest confidence.

Hon. Robert Rogers is going to Ottawa on a special errand. It is to see that the new election bill does not provide for a revision of Manitoba's voters' lists. If he gets the reception he deserves it will be hot enough.

MR STEAD AS A CRITIC. W. T. Stead has the faculty for saying some candid things. He glories in the fact that he must be honest in his speech, that he must speak of things as he finds them without waiting to reflect whom he may hurt or offend.

Swallowing Himself. Whitney, but a short time ago, announced that he would grant no more land to railways, but he now promotes Algona Central promoters that he will meet their demands. And the organs that praised him so loudly for his determination to grant no more lands as railway subsidies will cheer as heartily his abandonment of that policy.

The Ottawa Gazette announces the appointment of Chief Justice Wetmore, of Saskatchewan, to be administrator for some weeks.

thing to take the place of the 30,000 public houses which will be closed. Perhaps that kind of talk will have some effect—on some people. The recent loss of a constituency in which the brewers led in the campaign was expected to have a restraining influence on Mr. Asquith, who has the license bill in hand.

A GANANOQUE CHURCH OBSERVES ITS SEVENTY-THIRD ANNIVERSARY.

The Spring Freshet Has Run Its Course—Arthur Rogers, Gananoque, Appointed Toronto Bank Manager at Dorchester.

Gananoque, March 30.—Grace church held its seventy-third anniversary, yesterday, in a manner well befitting such an interesting occasion. The choir surpassed themselves in the amount and excellence of the musical numbers.

Timberlake, officiated at both services. For some years it has been the custom to make the anniversary the occasion for asking from the congregation a sum of money sufficient to pay all outstanding bills, interest on debt, etc.

W. B. Carroll, K.C., has received the appointment as police magistrate for this municipality, and also heard his appointment would be gazetted on Saturday.

The annual spring freshet, which has been somewhat in excess of former years, in volume, has been causing considerable anxiety among the water-power company's employees during the past few days, as he gradually runs its course without doing any further damage, and is now well in hand.

Arthur Rogers, son of Mr. and Mrs. C. B. Rogers, Stone street, who has been spending some time at his home on account of illness, received word from the head office of the Bank of Toronto, in whose service he has been for some years, to report at once in Toronto, and has been duly appointed as manager of the branch of that institution at Dorchester, Ont.

Miss Nina Meves, spending a three weeks' furlough here with her parents, Mr. and Mrs. Abel Meggs, Osborne street, has left to resume her duties as nurse-in-training at Brockville General Hospital.

A Different Bar. The bar of the House of Commons has been closed. This, by the way, is not the bar to which George E. Foster brought a newspaper man about a year ago.

Makes A Difference. Mr. Lake, of St. Appelle, is for economy; but he wants the economy to come when the question of the Hudson's Bay railway is concerned. Build that at all hazards and all costs, he says. How consistent that is with the idea of economy!

Stadhols in Battle. When Mr. Stadhols crossed swords with Mr. Donovan, of Brockville, the Third party came out victorious. Mr. Donovan compiled a very mushy menu in which some fulsome praise of the government was inextricably and inexplicably mixed with soup, fish, and other viands. But when he turned against the Third party he found himself in the first course.

And the organs that praised him so loudly for his determination to grant no more lands as railway subsidies will cheer as heartily his abandonment of that policy.

BECK'S PRIZE HORSES. Cost—Province Lot of Money to Send Them.

McCoig, M.P.P., is asking more questions about Adam Beck's horses. Until he gets them answered all Adam Beck's horses and all Adam Beck's men can't pull McCoig together again.

What McCoig, M.P.P., has heard to set down. An appropriation was made by the government for the purpose of defraying the expenses of horses that might be sent to the International horse show in London.

This appropriation for the encouragement of Ontario horse owners, breeders, and exhibitors was duly announced in the newspapers. The government bought about an inch of space in each of the daily newspapers, and strangely enough, the people who were most concerned overlooked this glaring advertisement.

Not to make the story of Mr. McCoig, M.P.P., heard too long, let it be stated that the appropriation was made available to send nine horses belonging to the Beck family to the horse show in London.
