ASK FOR LEGISLATION

TO CRYSTALLIZE THE FINDINGS OF COMMISSION.

A Young Lad Was Run Over By a Train and Killed—Said That Deer Have Been Slaughtered at Perkins Mills.

Ottawa, March 31.—A conference is proceeding, to-day, between a deputation of farmers and grain men from the west and Sir Richard Cartwright, minister of trade and commerce. The purpose of the request of the farmers' interests is that the finding of the grain commission, last year, should be crystallized into legislation. The minister was sympathetic and promised to consider the matter.

Wholesale slaughter of deer is reported from Perkins Mills, where it is said foxes may be seen eating the meat of the carcasses. As this is the close season, the matter was brought to the attention of the Hull game warden, who, it is alleged, refused to prosecute unless provided with the names of the guilty parties. The provincial authorities will be notified.

EXPERIENCE OF A DOG.

It Tried to Pull Fender Off a Street Car.

A big collie dog, owned by a farmer, came into town, this morning, and had quite an experience. One that it will not forget in some time. The fender on one of the street cars attracted the attention of the canine, and he decided to investigate. The car was travelling at a lively clip, but the dog managed to reach the fender. He gave a snarl and in a very angry mood went as if about to take a bite out of the fender. But he found that he was up against a hard proposition. In another second he found himself turning a couple of somersaults, and when he landed on his feet, he set up a howl that was very pitiful. The dog received no serious injuries, but his escape was somewhat miraculous. No doubt when he comes to town again, he will keep away from the street cars.

ANOTHER APPEAL

Against the Pittsburg Local Option By-Law.

T. J. Rigney, solicitor for the Pittsburg parties who petitioned for the quashing of the local option by-law, passed last January, on the ground that minors and others not entitled had voted, states that another appeal will be taken. At the hearing before Justice Clute, of Toronto, last week, the charge that minors had voted was not pressed. Now it will be, and the petitioners hope to show that enough minors were allowed to illegally vote to carry the by-law. If they succeed in this contention, the by-law will be declared null and void, and Pittsburg will not lose its drinking places this year at least. If the by-law is sustained, the township's drinking places must cease to dispense liquors after May 1st.

PASSED AWAY SUDDENLY.

Death on Monday Afternoon, of Mrs. Robert Knight.

Mrs. Robert Knight, for many years a much respected resident of Kingston, passed away very suddenly, on Monday afternoon, at her home at 368 Barrie street. Deceased, who was sixty-eight years of age, had been enjoying good health up to Sunday night, when she was taken ill, when at her home. Everything possible was done for her, but she gradually grew worse, and passed away on Monday afternoon. The late Mrs. Knight was born in Ontario, her maiden name being Margaret McGeahy. She lived with her parents at Eglensburg, but had resided in the city for seventeen years. She was a woman beloved by all who had the pleasure of her acquaintance, and her death was learned with sincere regret by her many friends. Knives From Horseshoes.

Old horseshoes find a ready market in China. One steamer alone, last November, brought 300 tons of this scrap iron from Hamburg. Chinese iron dealers buy the horseshoes and sell them to knife and tool manufacturers all over the province of Shanghai. It is claimed by the Chinese that the temper of this class of iron makes it the best obtainable for knives and cutlery and also good for other tools. The reason ascribed for this is that the constant beating the shoes have received under the feet of horses, gives them a peculiar temper absolutely unobtainable in any other way, and that tools made from them are superior to all others.

Winnipeg Electric Co.

Winnipeg, March 31.—Late last night Ald. Manning endeavored to move in council for a committee to be named to negotiate with the Winnipeg Electric company for the purchase of its holdings in this city, including the street railway and electric lighting plants, the total value of which is \$14,000,000. The motion was eventually changed into a notice of motion to come up a fortnight hence. Ald. Manning will then introduce a motion paying the way for official negotiations on the basis of buying out the company on valuation calculated on the market value of its shares.

Using Ice Boats.

The ice boats are in use on both sides of the channel now, to get to Cape Vincent and return. The ice on this side is now getting quite thin, but there is no difficulty in getting over with the boats. Attacks were recently made on the government for retaining him as an official while holding the labor position, which occasioned considerable prominence in labor difficulties. Paquette, in consequence, resigned the federation presidency. Now the workers, with whom he is popular, want him to be allowed to hold both jobs.
