Managing Director.

**Daily Whig.**  
A POLITICAL ADVENTURER.  
Why should there not be a revision of the provincial voters' lists before a dominion election? That is the question one asks in view of the tour of Hon. Mr. Rogers from Winnipeg to Ottawa, there to protest against Mr. Aylesworth's election bill.

Mr. Rogers, before leaving his home, gave it out as a fact (whereas it is a fiction), that under the federal proposal hundreds of voters may have their names struck off by paid benches, and the names of others added. How can that be done? It is provided that the revision shall be conducted by a judge, and that he must have the evidence before he can order the removal of any name or the addition of another.

Mr. Aylesworth is probably aware of what has been done in Manitoba, by the Roblin-Rogers combination. He has the facts with regard to the last alleged registration for provincial purposes. Then one man was appointed for each constituency and he simply drove over it, calling at certain places, but not remaining long enough to do effective service. The minister of justice has been also informed, in all probability, that unless a proper revision has been provided there will be an army of voters in Manitoba disfranchised, as many as a thousand in Winnipeg alone.

What Mr. Rogers is aching for he may get—a proper trimming—and the man for the emergency is Hon. Mr. Aylesworth. There is a limit to Mr. Rogers' audacity.

**GETTING OUT OF THE RUTS.**  
Some evidence was offered before the Public Accounts committee on Wednesday of the need of reform in the manner of keeping the public accounts. The experts of the marine department found some of the procedure at Quebec, at Sorel, Prescott, St. John, and elsewhere ancient and defective. There was an incompleteness about it which was very striking.

The point raised by Mr. Foster was important, and it brought out the answer one would expect. The changes suggested by the experts were along the line of practical accounting, and they were quite within the comprehension of men who were skilled in book-keeping. There never was a man who did not feel that he could undertake the work when the improvement had been effected. The experts admit that the department had men who were capable of doing better things, but the fact that they were equal to higher service and did not perform it is not to their credit. The average government official is not looking for hard work. He does not usually, and for the glory of it, reorganize systems, and out of the competition for better plans and methods is not apt to be familiar with them.

The marine department may be paying high for the labour of the experts, but it is getting a report the adoption of which will revolutionize its accounting branch. The original plan was to study the service, to ascertain what it wanted, and to inaugurate the changes that would bring about a complete reform. Without the stimulation of the experts, the object aimed at may be delayed.

**NOT IN GOOD FORM.**  
The attack of the Toronto World on the leader of the opposition is not in good form. Mr. McKay, it learns, is enjoying a stipend from his party, and it is worried lest the man is not free to do as he likes, or as his judgment dictates.

The World is afraid that some persons are contributing to this salary under circumstances which will make them a menace to the public interests. What it wants is the names of those who provide the money so that, after a study of them, it will be able to pronounce upon Mr. McKay's independence.

During the time Sir John Macdonald was in opposition—from 1874 to 1878—he was enjoying the income which his political friends supplied. The list of the subscribers was not published, and no one asked for it. No one suspected that the venerable leader was not able to control himself.

Mr. Borden is enjoying a salary at Ottawa, and no one supposes that he is (as some one suggested he would be) under the thumb of the government. The World opposed the salary in this case, and insinuated some bad effects, but they have not been realized.

The men who, like Messrs. McKay and Borden, have to give up their law practice and living in order to devote their whole time to the business of the people, are entitled to some compensation, and until there is more evidence of wrong-doing should be free from such criticism as that in which the World indulges.

**NO PEACE IN CANADA.**  
The plea of insanity does not have much influence on the average Canadian jury. Tease, who murdered the aged farmer, William Carrie, in Toronto township on Christmas day in a pet or pout, has been sentenced to death. It was not the result which the jury expected to follow their verdict of manslaughter.

They had heard so much about the epileptic fits from which Tease suffered, and even from the crown heard expert evidence in support of the theory that he was not mentally sound, that the capital punishment which followed came as a shock. The governor-in-council will probably review the evidence and make such a modification of the sentence as the circumstances warrant.

The witnesses for the crown surely laid the foundation for the assumption that the man was not himself, and that he was, in consequence of the epilepsy, given to attacks of insanity. This evidence from the defence would have had its weakness, but from the crown it was regarded as important.

At the same time it is satisfactory to know that crime in Canada cannot be made light of on the ground of insanity. Dementia Americana may be a disease which is specially recognized in the United States, but in this country it is not accepted as an apology for cold-blooded and premeditated murder.

**TOWN OF GANANOQUE IS TO HAVE NEW WATER WAGGON.**  
Breakwater at the Inn Wharf Carried Away By Ice Crush—Bolt Company Runs Only Ten Days a Month.

Gananoque, April 4.—The Young People's Society of Gracechurch held a meeting, last evening, under the auspices of the literary committee. Mr. Hicks, of the staff of Gananoque high school, gave an address on "Wireless Telegraphy."

At the special session of the town council, this week, the billiard and pool room, known as Turner's, McCauley's and Brennan & Ledger's were renewed for the year.

"Billy" Cumpson has again tendered for the street watering of the town, and best of all, in his tender he makes provision for putting on a new watering cart, which would be much appreciated by the town's people, few of whom can remember when the old one was first installed, although they are willing to own that both "Billy" and the cart have done excellent service in the town.

The breakwater at the foot of the Inn wharf, was carried away by the crush of ice from up the river, yesterday afternoon.

The board of license commissioners for the district of Leeds, will meet at the town hall, Gananoque, at 2 p.m. on Monday, for the purpose of considering applications for license for 1908-9.

The Toronto Bolt and Forging company, of this town, has been compelled by lack of orders, to still further reduce the amount of time for their men. At present they are running just ten days a month.

The Young Ladies' Literary Athletic Club closed its first season, last evening, with an "old times" social. Prizes were offered for the best costumes, which were won by the Misses Edwards, McCaffrey and Green. The whole proceedings ended up with a supper.

Letters patent, under the Quebec companies act, have been issued in incorporating Messrs. John P. Mullarkey, railway contractor; John Rowley, superintendent; H. J. Smith, accountant; Charles Lattimore, clerk; and Mary B. Macdonnell, stenographer, all of Montreal, as a company for carrying on general construction work. Mr. Lattimore, mentioned above, is one of Gananoque's progressive sons, who is making a name for himself in Montreal.

**EDITORIAL NOTES.**  
The political fever is rising slowly. The microbes are in the blood, and in the fiercest conflict.

Ontario is going to raise a loan of \$4,000,000, but there is a profound mystery about the purpose of it. It has nothing to do with the election, of course.

With provincial elections in Ontario and Quebec in May, and a federal election in June, the people will have all the politics they can want for the time being.

Ontario does not need a bigger legislature. The house is large enough now. It may want redistribution, but not with the one object in view of legislating the grits out of the house.

There was to be big expenditures in Brockville by the Whitney government. They were promised by Mr. Donovan, says the Recorder. The necessity for a gerrymander becomes more apparent.

Mr. Hazen, premier of New Brunswick, gives evidence of the party victory he won so recently by appointing one of the biggest grits in the province his minister of public works. Explanations are in order.

Andrew Broder, M.P., at a conservative meeting in Ottawa, confessed that he was poor, and always expected to be, while the grits remained in office. One can understand in part why he talks so much these days about grafting.

"Assassination" is what Hon. Bob Rogers calls the provision by the federal election law for a revision of the voters' lists in British Columbia and Manitoba. These provinces cannot manage the federal elections as they please.

The Toronto Telegram is very much annoyed because Mr. McKay does not take Hon. F. Cochrane by the throat and shake him for "his maltreatment of Port Arthur." What dastardly crime has the minister of mines been guilty of?

**Bannockburn Budget.**  
Bannockburn, April 3.—Mr. Caldwell, of Marmora, has been engaged by Cameron Wallace for the season's sawing. John Sanford has returned from Campbellford. Edward Stepley was down to the Marmora conservative rally. James Hunter and Israel McEwen were down to Marmora to hear R. K. Gamble. Rev. Mr. Wright was in Marmora on Friday delivering a Lenten address. Mrs. James Hunter and Mrs. Israel McEwen were Malone visitors on Friday. The shanties are now all closed and many of the men are already home. Miss Harris and Mrs. McLeod, who have been on the sick list, are rapidly recovering. Charles Sanford paid the town a flying visit on Friday. A large number of men are busily engaged loading balls and tan bark at the C.O.R. station.

**The Genuine.**  
Christy's make of fine hats, soft and stiff, \$2.50, \$3, \$4, at Campbell Bros., the leaders in men's hats.

**Can Be Tested.**  
The attention of farmers and seed merchants is called to the fact that all kinds of clover, grass, and seed grain is tested and reported upon as to impurities, free of charge at the Ontario Agricultural College. Correspondents should be careful to prepay postage and give their addresses. Where information is wanted only on the weed seeds, the clover, etc., need not be sent. Where information is wanted on the relative prevalence of weed seeds should be sent. Germination tests will be made if specially requested. Address inquiries and communications to the Botanical Department, O.A.C., Guelph.

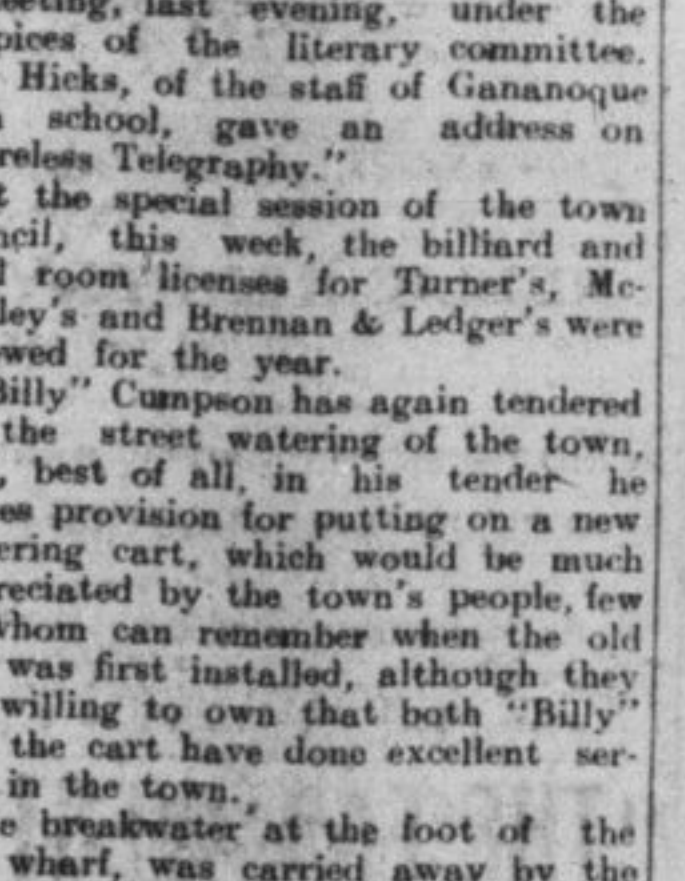

**It Will Be Wise.**  
To make no selection of your spring suits until you have seen Livingston's show.

Bibby's \$2 hats are right.

**NEW SENATE COMMITTEES.**  
Six Will Be Asked to Number For Next Session.

Ottawa, April 4.—Six additional committees of the senate will be added next session. They will consist of agriculture and forestry; immigration and labor; commerce and trade relations of Canada; civil service administration; public inspection of foods; and public buildings and grounds.

**Ladies' Blouse.**

The waist that suggests the overblouse effect affords extensive possibilities for a dressy costume. The design shown above was developed in short and full, and the lower edge is a surprise style and sufficient fulness is allowed for a group of turks on each shoulder. The surplus edges and the kimono sleeves are trimmed with braid. The vest is of chantilly lace. The sleeves of the under-blouse are short and full, and the lower edge is gathered and finished with a cuff, which is trimmed with braid.

You Take No Chance.  
The best and not the next best is what you get if you buy your hat at Campbell Bros., Kingston's style centre for men's hats.

The H. D. Bibby company prides themselves on the quality and style of their fifteen dollar suits.

Sidney Tripp, storekeeper at Point Pelee, had the misfortune to lose several of his young cattle in the fore part of the winter. The surmising as to the cause of their death, is disease contracted from hides stored in the barn. Mr. Tripp bought many hides last fall and it is supposed that the cattle had thus been inoculated with disease germs.

The H. D. Bibby company are showing the best \$2 hats and the best \$1 shirts in Canada.

**WEAK MAN RECEIPT FREE**

Any man who suffers with nervous debility, loss of natural power, weak back, failing memory or debilitated manhood, brought on by excesses, dissipation, unnatural drains or the follies of youth, may cure himself at home with a simple prescription that I will gladly send free, in a plain sealed envelope, to any man who will write for it. A. E. Robinson, 3,888 Luck Building, Detroit, Michigan.
