Attack of Inflammatory Rheumatism Left Sufferer With No Appetite-Skin Peeled and Hair Came Out in Bunches-Bed Sores Developed -All Treatment Failed Until

A TRIAL OF CUTICURA PROVED SUCCESSFUL

"About four years ago I had a very severe attack of inflammatory rheumatism. I was taken very ill and was soon in a high fever. I did not leave my bed for four months, and during three of those months I could not move voluntarily, the pain was so intense. My skin peeled, and the high fever played havoc with the lustre of my hair, which came out in bunches. I also had three large bed sores on my back, - two on the shoulders and one at the waist. could have cried the first time I saw myself in a mirror. I had lost fully thirty-six pounds, and looked like a consumptive, I did not gain very when I was able to get around, I had all my friends advising remedies, and all guaranteed 'sure cures.' I tried many, but they were of little help, and until I tried Cuticura Resolvent I had had no real relief. That gave me such an appetite that I felt half starved about all the time, and I immediately began to gain in weight, my complexion cleared, and I felt better. The bed sores went Cuticura Soap as a shampoo and Cutiand cannot say enough for the Cuticura Remedies. Mrs. Lavina J. Henderson. 138 Broad St., Stamford, Conn., March 6 and 12, 1907."

Fight For British Idealism-Harold Begbie Sums Up Situation-Preferential Tariff Is Futile, He Says-Defeat American Spirit - Should Send Ships to Canada-Helps to Bind the Empire.

Writing in The London Daily Chronicle, under the heading "Can We Keep Canada British?" Harold Begbie, the well-known journalist, says:

There are three main ways whereby those of us in Great Britain and those of us in Canada who love and reverence the great traditions of our race-"we few, we happy few, we band of brothers"-may fight for British idealism in the Dominion against the com-

mercial realism of America. The first way is that whereon both Governments are now happily setting their feet, the quickening of communication between the two countries. It is not a stroke of sentiment, but a stroke of business. It will bring our minds into closer relation. A preferential tariff, on the other hand, is both dangerous and futile. The present reduction on their tariffs by the Canadian Government has already injured the one industry really affected by it, the woollen trade, and that industry is full of bitterness and complaint.

British Character In Canada. very soon after a few applications of Cuticura Ointment, and when I used may be penetrated and pervaded by the influence of British character is in keeping with the first. It profits us but little to swell the hosts of Scandinavians, Germans and Italians in the Dominion with the unhappy Irish or the poor of our slums, who purse in their bosoms neither the traditions of Great Britain nor affection for her high principles. Here let it be seen, if only in a parenthesis, that the true patriot is he who works for a happy and a proud population in the Mother Country, to see, mixed with the foreign element in our colonies, the most devoted, affectionate and forcible of his fellow-countrymen. To this end one could wish emigration removed from charitable agencies and accepted with pride and honor by the privi-

leged classes of the community. Aristocracy, if its 'Imperialism is sincere, would rejoice to hear so great a call. The younger son who now yawns in a barrack square or wastes should rejoice and find a new manhood in a task so precious to his country. It revives the spirit of adventure, it brings back the spacious times of the great Elizabeth. Nothing is wanting to set up in Canada a British leaders inspired with the faith of
