Tooke
SHIRTS

The back collar stud in our shirt is inserted in the tab, sewn in cut. In this way the stud is easily inserted and it never touches the neck of the wearer. When the collar is on, the tab cannot move. But there is sufficient room left in the button-hole for the collar to move slightly from one side to the other, so that the collar may be easily adjusted in the front. Only on Tooke Shirts can this tab be found.

HE WILL LIKELY DIE FROM SHOTS THE POLICE PUT INTO HIM.

James Smith the Montreal Murderer, Fatally Wounded—The Policemen's Uniforms Drew His Fire.

Montreal, April 7.—It is believed at the general hospital, that James Smith, the man who killed a policeman last night, and held the police and firemen at bay for hours, while holding the fort in his lodging house on Mancee street, will die as the result of the wounds which the police were compelled to inflict before the man was finally subdued. Today he is lying in the hospital ward, where he was removed, last night, strongly guarded by police, and was served with three warrants of arrest, one on a charge of murder, and two on charges of attempted murder. There are grave doubts, however, that he will ever be able to appear in court to answer the charges.

Chief Detective Carpenter and Constable Fogault, who were shot by the murderer, but not dangerously injured, are reported to be improving today, although suffering considerably from their wounds. It is stated, today, that Smith shot at a uniform where he would not bother about civilians. The explanation of that circumstance is that a few hours before the trouble he told his landlady, Mrs. Pritchard, that he had killed some one in the old country some years ago. The fear that she had told the police, and that they had come to arrest him for the crime is believed to have worked on his mind and led to the determination to hold out against arrest at all costs.

"KID" BURKE CAPTURED.

Grabbed \$1,000 Roll, Was Chased and Caught.

St. Louis, Mo., April 7.—While Michael E. Hogan was standing in the public banking room of the Mercantile Trust company, yesterday, Frank Selick, New York, a bookmaker's sheet writer, suddenly seized a roll of \$1,000 from Hogan's overcoat pocket and ran, pushing aside men and women who stood in his path. He was captured on the steps of the bank, while attempting to pass the money to a confederate. Selick was fashionably attired, and was wearing a number of diamonds. He had plenty of money in his pockets. Superintendent John Shea, of the Bertillon bureau, identified the prisoner as "Kid" Burke, alias Fisher, known to the police of every large city in the United States and in Paris and London. Several pictures of Burke were found in the rogue's gallery. Mr. Hogan is a resident and principal owner of the bank at Alton, Ill.
