The president of the United Gouin, he was referred to as a peace- States must metaphorically lay the maker, and called as such to the help mischievious Castro across his knee of the labour bureaus.

A judge of the superior court acted on the same reconcilation board, so that one was out of place quite as much as the other, and both are the servants of the government. The experience suggests that the public offi- mornings? Have they no work, and cials are well out of all commissions, no ambition to find it? which have to do with conflicting interests, and the sooner there is permanent commission for the settle ment of labour disputes the better. Meanwhile the public officials should be spared any service which is calculated to put them in a compromising position. The attack on the Montreal official points a moral which does not require further illustration.

CITY GETS A WARNING. The talk of raising the price of gas and because it is now being dispensed below cost, comes as a painful surprise. No sudden or emotiona changes should be made in business nanagement, and if a mistake has been made on the gas question will be a severe reflection upon the directions of a great plant by a muni

changing personality. An important have made use of it when in opposienterprise cannot be mastered by any tion, and though confronted with spasmodic study of details. The peo- many a time, has only now ventured ples business demands the same care a repudiation ! and supervision that are given to private business, and the difference be tween municipal and corporation man agement lies in their development of policy. A company will keep itself welversed in the progress of events. It will know what its business is doing what it is earning, and what the ac tual assets or actual liabilities may
