MOTHER'S GUIDE

When a young girl's thoughts become sluggish; when she has headaches, dizziness, faintness, and exhibits an abnormal disposition to sleep; then the mother should come to her aid promptly, for she possesses information of vital importance to the young daughter.

At such a time the greatest aid to nature is Lydia E. Pinkham's Vegetable Compound. It prepares the young system for the coming change, and has helped to bring three generations safely from girlhood to womanhood. Read what LYDIA E. PINKHAM'S VEGETABLE COMPOUND has accomplished for Miss Olson.

Miss Ellen M. Olson, of 417 North East Street, Kewanee, Ill., in a letter to Mrs. Pinkham says:

"Lydia E. Pinkham's Vegetable Compound cured me of headache, dizziness, and established my general health. The best physicians in Kewanee had failed to help me, saying that an operation was necessary."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

SOFTNESS OF SEALSKIN.

Is Rivalled By Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is usually as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a parasitic growth that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair; but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide.

Sold by leading druggists. Send five stamps for sample to The Herpicide Co., Detroit, Mich. Sold in two sizes, 50c. and \$1. G. W. Mahood, special agent.

EDUCATIONAL.

If you wish to be successful at least read The **Kingston Business College**

Limited, head of Queen street. CANADA'S HIGHEST GRADE business school. Bookkeeping, shorthand, typewriting, telegraphy, and all commerce subjects, thoroughly taught by constant experienced teachers. Day and night classes. Enter at any time. Rates very moderate. Phone, 440.

H. F. METCALFE, President.
J. E. CUNNINGHAM, Secretary.

IMPROVE YOUR EDUCATION and INCREASE YOUR EARNING POWER

Day and Evening Classes at the **Frontenac Business College**, Barris and Clergy Sts., T. N. STOCKDALE, Principal.

Died At Napanee.

Napanee, Ont., April 27.—John Gibbard, died at Napanee, to-day, ninety-four years of age. He was father of W. T. Gibbard and E. Gibbard, of the furniture company. Funeral Tuesday afternoon.

KILLED BY A TRAIN

JOHN MINTOE, NIAGARA FALLS, THE VICTIM.

He Was Looking at a Street Car, and Failed to Notice An Approaching Train—His Body Badly Mangled.

Niagara Falls, Ont., April 27.—A few minutes before seven o'clock this morning J. Mintoe, residing on Cataract avenue, whose home and his wife kept a boarding house, was struck and instantly killed by a M.C.R. street and sand train on Queen street crossing. Mintoe was standing on the east track and seemed to be deeply engaged looking at a street car that was waiting for the M.C.R. train before passing over a level crossing. Although Engineer Payne, of the M.C.R. engine, whistled viciously to attract Mintoe he paid no attention to it. Before the engine could be stopped by the use of the air brakes the man was struck, his body being frightfully mangled.

The train consisted of a dozen cars loaded with stone and sand. Mintoe leaves, besides his wife, three children. He was about fifty years of age. It is said he was hard of hearing.

WHAT IS PROPOSED.

Radical Civil Service Reform Coming.

Ottawa, April 27.—The cabinet, on Saturday, held a long sitting, discussing legislation of large importance to be presented to parliament at an early date. The principal question before the ministers was the proposed new civil service act. The bill as now contemplated will be of a radical character, and will practically revolutionize the civil service system in respect to appointments, promotion, classification of the various officials, employees and so forth. It is understood that the new act will be based largely on the British civil service system, and will obviate as far as possible the evils of the patronage system complained of in the report of the civil service commission. It is probable that a civil service board will be established independent of all partisanship to supervise all appointments and promotions. The minister and deputy minister of each department will exercise a larger authority than at present in the matter of appointing and promoting officials. Their recommendation will then go to the civil service board, which will pass upon them. It is the intention of the act to take the service out of political influence. There is little doubt that this will receive the hearty support of all the members on both sides of the house, to whom the question has always been a constant bother and bete noire.

FIFTH OF THE NEWS.

The Very Latest Culled From All Over The World.

Owing to lack of funds the Ottawa improvement commission has laid off a large staff of men.

The motion to quash the local option by-law, of Hamilton township came before Justice Tetzler, Toronto, and was dismissed.

At Quebec the trial of Omer Rochette is nearly through. The case will certainly be in the hands of the jury this afternoon.

The C.P.K. is closing down their shops at Winnipeg until after May 1st, when the new schedule goes into effect, forestalling the strike of the men.

Burglars bound, gagged and beat Charles Hauser, night watchman in Brooming King & Co's store, Buffalo, N.Y., on Monday morning, ransacked the place and stole clothing valued at \$400.

There landed at Quebec from the steamship Dominion, seventy-four recently converted Mormons, on their way to Salt Lake City. They were recruited from Norway, Sweden and England.

The Ottawa building trades council has called a sympathetic strike of all union men from the Y.M.C.A. building. This is the only development in the strike of builders' laborers for twenty-five cents an hour.

Revenue Officer Edmund Trudel made a clever seizure of an illicit still a few days ago at St. Pamphile, county of Leislet. The still was brought to Quebec. The operator, carrying on work for some two years, will have to stand trial.

President Diaz and his cabinet are in conference concerning the Central American agreement. Rumors that Guatemala and Honduras are on the eve of a struggle which threatens to engulf Costa Rica and San Salvador are practically unheeded.

The Canadian teachers will visit the schools of England, Wales, and Scotland. Canadian steamship companies have agreed to give a rate of \$25 for the round-trip. Boards of education will be asked to select the teachers who are to represent the cities and towns.

The 25th Regiment, Essex Fusiliers, will go to Quebec this summer with its full establishment to take part in the Quebec ter-centenary celebration, Col. Bartlett having decided to accept the alternative offered to city regiments of taking their full complement and getting transportation and subsistence, but only four days pay.

Out Of Mischief.

Fresh Ties.
Mr. Subbs (after engaging cook)— "There's one other thing I suppose you should know, Miss Flannigan; my wife is a chronic invalid, confined to her room." Miss Flannigan—"That's fine! I wonder who she might be. I wish I knew her name." Mr. Subbs—"That's the chronic kickers that are confined to 'th' kitchen, bogoss!"

His Term Expires Friday.

J. M. Campbell's term as light plant expert advisor to the city expires next Friday. What is the light, heat and power committee going to do about a successor if Mr. Campbell is to step out? Does the committee intend to ask Mr. Campbell to continue as advisor for another period?

THE TOTALS GIVEN

Of Death and Ruin By Recent Tornadoes.

New Orleans, La., April 27.—The totals of deaths and ruin caused in four southern states, by Friday's tornadoes came to hand, to-day, in approximately correct form. Briefly stated, there were killed about 250; injured, painfully or seriously, 1,200; homeless, several thousand; towns reporting serious wreckage, 46; habitations and business houses practically complete ruins in these towns, about 2,500. The above figures do not include the wreckage on plantations and on farms, scores of which were struck and damaged. The number of dead will never be known accurately, for the reason that about 300 of them were negroes, and they were buried in many communities without careful returns being made of their numbers.

AN OLD WEDDING FEE.

Receives Payment After Thirty-five Years.

Woodstock, April 27.—Thirty-five years ago the Rev. J. R. Phillips, retired clergyman of this city, married a couple at Tapley town. The day before, yesterday he received his wedding fee. At the time of the wedding the bridegroom put a note into his hand, which, when Mr. Phillips opened it on his way home, he found it contained an excuse for not paying, on account of disappointment in not receiving money from an expected source. He waited long but was rewarded at last. The bridegroom had prospered.

WOMAN GETS REVENGE

Upon the Stock Enemies of Her Husband.

When the financier Rochette was arrested, in Paris, recently, a number of outside brokers and others interested in the stock market, who had been anticipating the event and had combined for that purpose, immediately sold heavily all the stocks in which Rochette was interested, forming a sort of "bear" syndicate, with the intention of buying back later on to cover their sales at a price at least fifty per cent lower. Then it was that all the stocks went down to a few francs each.

A few days later, to the surprise and astonishment of the "bear" syndicate, the various stocks in which Rochette was interested began to improve in price, and the syndicate, in their calculations by a sum of \$600,000, so that, instead of making a large profit, they have lost heavily.

It is now stated on good authority that the originator of the move which led to the unexpected improvement in price was Mme. Rochette herself. Immediately on hearing of her husband's arrest she returned from Biarritz to Paris and met some of her husband's business associates. She learned of the "bear" selling and at once decided on action.

She realized on everything she could, and with \$500,000 thus obtained gave orders to numerous jobbers, outside brokers and other market intermediaries to buy for cash on "spot" terms for immediate delivery as many of each of the principal different kinds of shares as the means at her disposal would allow. She devoted special attention to the shares which were most threatened.

While the newspaper reporters were hunting for her high and low, she sat at a little office for four hours every day giving her order for the day's market and anxiously watching the rise of prices on the impulsion of her cash purchases.

The result became clear in the discomfiture of the "bear" syndicate. As she met her husband outside the investigating magistrate's room and threw herself weeping into his arms, she was able to tell him she had made \$600,000 for him through her shrewdness in forcing the "bear" syndicate to raise their price than they had sold, while at the same time her action had tended to allay and limit the shareholders' panic.

AT THE SAME PLACE

BUT DIFFERENT SECTIONS; SUICIDE AND DROWNING.

The Two Despatches Reached the Office on the Same Sheet of Paper—Deprived of Liquor Too Suddenly.

Dunuchurch, Ont., April 27.—Three young men of this neighborhood, Thomas Bennett, Frederick King and Jacob Knoepfel, were drowned in Almie Lake, off Rocky Reef, yesterday afternoon. They were employed by the Croft Lumber company, whose log boom burst. These three men started with boom chains in a canoe to repair the damage. They were next seen by Mr. Stewart and family, from Rocky Reef, bounding in "the water." They claim no boats were at hand so they had to watch them disappear one after the other. The bodies have not been recovered yet and no further particulars are known.

AT THE SAME PLACE

A Suicide Of A Young Man.

Dunuchurch, Ont., April 27.—Last night Harry Swan, a well-known young man, and very popular in this district, committed suicide by cutting his throat with a razor. He had been drinking for some time previous but early in the week had started to work as cook for the Graves' big wood-mill company, under Foreman McMillan, on the Magnetawan river drive, near Byng Inlet. It is thought that being so suddenly deprived of liquor deranged his mind. He lived till three o'clock this morning. An inquest will probably be held. He leaves two brothers and a sister in England.

YACHT HOUSE BURNED

WALKERVILLE CLUB SUFFERS A SEVERE LOSS.

The Building Was Valued at \$8,000—Only a Small Insurance—The Building Was Struck by Lightning.

Walkerville, Ont., April 27.—The building of the Tecumseh Boat Club was burned to the ground, during the prevalence of a severe thunder storm last night. Four racing shells, six rowboats, three canoes and two launches were lost in the fire, but the worst loss to the club is that of the ten oared barge "Ell," presented to the club by Frank Walker, Walker & Sons, and valued at \$1,000. The total loss approximates eight thousand dollars, with only twelve hundred insurance. Coming as it does at the opening of the season the loss is a bitter blow to the enthusiastic members of club. The fire is supposed to have been caused by lightning. It burned so quickly that nothing could be done to stay it. One of the Detroit fire boats came over, but the building was by this time wholly involved in the flames.

SHOCK CAUSES FATAL FALL

Electrician Instantly Killed in Peculiar Way.

Brantford, Ont., April 27.—A fatal accident occurred at the power house of the Western Canadian Electric company, when Jonathan Marshall, the foreman in charge, met his death.

As a result of a heavy west wind, a portion of the roof of the building was blown off. Marshall went up to remove some of the debris, which was covered with pulverized electric iron, and was highly charged with electricity, and knocked the unfortunate man from his position. He fell a distance of thirty feet, striking his head on a solid cement floor, and expired immediately.

He was fifty-seven years old and leaves a widow and family.

PROTEST AGAINST WAR.

By Mary Baker G. Eddy.

For many years I have prayed daily that there be no more war, no more barbarous slaughter of our fellow beings; prayed that all the peoples on earth and the islands of the sea have one God, one Mind; love God supremely, and love their neighbors as themselves.

National disagreements can be, and should be, arbitrated wisely, fairly, and fully settled.

It is unquestionable, however, that at this hour the armament of navies is necessary, for the purpose of preventing war and preserving peace among nations.

MAY AGAIN WEAR PLUMES

Paris, April 27.—When President Carnot was assassinated, at Lyons, in June, 1894, the 8th Regiment of Light Cavalry was acting as his body-guard. As a punishment for allowing the assassin, Caserio, to commit the crime the regiment was deprived of the plume of cocks' feathers that ornamented its shako. Gen. Picouart, minister of war, after fourteen years, has restored the plume.

Under Secret Orders.

Philadelphia Press.

"Are you the man from Soddler and company's to do the repairing of the water pipes?" asked Mr. Subbs.

"Yes," replied the plumber, "and Mr. Soddler says it'll cost you \$69."

"What? Why he hasn't seen the job; he doesn't know how much I want done." "Mebbe not, but he told me how much to do."

The Gas Question?

The light plant financial statement is ready for the city council. Are the aldermen going to discuss how gas that costs \$1.36 to produce is sold for \$1? It's up to the present chairman to give an official explanation. The Whig has stated a certain reason. Is it correct?

KEEP MONEY IN FAMILY.

A Confession Overheard in the Railway Smoker.

Montreal Gazette.

The representative of the largest paper-making company in Canada, who is a captain in the army of bright young Americans who have found Canada an ideal young man, stepped into the Slater Shoe Store on St. James street, yesterday, and bought a pair of shoes. This is what he said:

"I have been in Canada for some years now, but this is the first time I have bought a pair of Canadian shoes. I am glad to do it. You know all Americans are taught to believe that we make the finest shoes in the world. But I was in the smoker of a sleeper coming out of Boston, a few weeks ago, and overheard a conversation between two men who were evidently in the shoe trade. They were telling the usual story of finer finish and better styles, and were agreed in concert that the Massachusetts shoe was the better. One of them concluded by saying:

"The Canadians are learning fast, though our exports to Canada in the shoe trade do not increase any. We are just holding our own. They are getting the styles and the finish. Then the Canadian shoe surpasses ours. It's honest. I must confess that I wear a Canadian shoe myself. Whenever I go to Montreal I buy a pair. These are Canadian shoes which I have seen. They are Slater's. They have all our style and finish, but one pair will outwear two pairs of ours, because they're honest through and through."

"Now that confession was the most convincing testimony I ever heard of," said the young man, "and I there and then decided that the Slater shoe would be my next shoe investment. Besides, now that I am a resident of Canada, I believe I should keep the money in the family. When we spend our good money in foreign countries we rob our home industries. Whatever money is lost to the country is lost to the individual resident."

KEEP MONEY IN FAMILY.

Mineral Riches Of Africa.

The British South Africa company is raising \$15,000,000, much of which will be spent on new railways, in Rhodesia. A correspondent of the London Times draws attention to the rich adjacent district of Katanga. This district is the northern portion of the province orientale of the Congo state. The Belgian Katanga company holds land, mineral and rubber concessions, and carries on the administration, both civil and military. The state retains the higher judicial functions, the customs and collection of taxes.

In the district is a great copper belt, a tin belt and several bodies of other minerals. The great copper belt runs 180 miles. They are not copper mines in Katanga, they are copper quarries. There are mountains of pure hematite, which can be used alone as a flux in a central smelting plant is established. Other mines are self-fluxing. Over \$1,000,000,000 worth of copper has been proved, and, asserts the correspondent, after a personal visit, "it would be safe to predict that the actual wealth is ten times that amount." Coal is also proved, and the whole is estimated as worth \$150,000,000.

Copper is being produced at a cost of \$15 a ton without any appliances. Large bodies of lime (gray dolomite) and small reefs of iron (hematite) abound in the vicinity of every copper mine. Some mines have bodies of heavily impregnated sandstone alternating with lime and iron reefs, thus being virtually free smelting.

Diamonds, petroleum, and gold are also found, but not yet in sufficient paying quantity.

The climate is such that white men and women can live there and rear children.

KEEP MONEY IN FAMILY.

Pipe Buried In Tree Trunk.

Kennebec Journal.

The other day George Ranney and George Brana, of Passadumcook, were sawing into stove-wood a large elm tree that stood near the old hotel, when their saw encountered something hard in the cut. They kept sawing wood, however, until they had the stick cut off, and then investigated and found a clay pipe imbedded in the very center of the tree. The pipe was in a perfect state of preservation and filled with tobacco, the same as when it was left there. Explanations were rife as to the presence of the pipe in the center of the tree, but the most plausible one was given by one of the residents. He said that some forty years ago some devil driver got after a yoke of oxen in that town and ran over a tree, and it being small at that time, bent it to the ground. About that time he thinks that some one bent the tree for a pipe rack and then forgot to remove the pipe, and the tree after many years grew around the pipe until it was in the very centre of the tree.

KEEP MONEY IN FAMILY.

Crockett And The Mules.

It is told of the famous "Davy" Crockett that one day while strolling on Pennsylvania avenue, Washington, a swarm of mules trotted by under the custody of an overseer from one of the stock farms in Virginia. A congressman from Boston attracted Crockett's attention to the unusual sight, saying: "Hello, there, Crockett! Here's a lot of your constituents on parade. Where are they going?" Crockett looked at the animals with a quizzical glance and answered quietly: "They are going to Massachusetts to teach school."

KEEP MONEY IN FAMILY.

Darkest Place He Knew.

From Puck.

"Well, I d' know," doubtfully said Farmer Hornbeck, relative to the proposal of his nephew, a recent graduate from an agricultural college, "Moibe dev's money in 'cultivating' mushrooms, but where could we plant 'em? They require a damp, dark, dank place to grow in, don't they?" "Yes," was the reply. "And I'll tell you what, Uncle Ezra; we'll raise them in the parlor."

KEEP MONEY IN FAMILY.

Slight Omission.

From Punch.

Wife of distinguished artist (to departing visitor on show Sunday, who has been tea-ing champagne for the last half hour): "Good-bye. So nice of you to have come. I hope you liked the pictures?" Visitor—"Pictures? There! I knew there was something I'd forgotten!"

KEEP MONEY IN FAMILY.

Child Killed By Montreal Car.

Montreal, April 27.—Yvonne Seguin, a six-year-old girl, was killed by a Centre street car, on Saturday. The child was playing on the street with some companions and ran in front of the car. Death was instantaneous.
