A POOL LEAGUE

With Kingston, Gananoque, Brockville and Belleville.

Although no final arrangements have been made, the new Pool League, to include Kingston, Gananoque, Brockville and Belleville, will likely go through. A team of four from each place will make up the league. Four first-class players can be found in the city, and they should land at the head of the line. The locals are taking quite an interest in the game, and it will not be easy to pick the four to make up the local team. The teams will play home and home games.

Belleville Was Beaten.

A fast, clean game of basketball was played, last night, in the Y. M. C. A. gymnasium, between the Belleville and Kingston intermediates. It is the first game with an outside team the locals have played, and they handled themselves like veterans. Every play, and every shot, was made with a fair to individuality. The Belleville team is composed of an active, gentlemanly lot of boys, and although beaten, played gamely till the final whistle. The score was thirty to ten in favor of the home team. The players were as follows: Belleville—Wilkins, A. Moon, Moore, R. Moon, Elvins.

Kingston—McCormick, Meek, McCarty, McCullough, Moore and Fleming. Charles Moxley was referee; Frank Kinmer, timekeeper, and Frank Birch, scorer. Mr. Osmen, physical director, of Belleville, accompanied his team. The local team entertained their visitors after the match.

Sporting Notes.

Johnson is being taken seriously in England, and a \$15,000 purse has been offered for a match with Burns. The latter claims to his \$50,000 proposition, win, lose or draw.

A practice baseball game between the Young Irishmen and Black Watch was scheduled for the cricket field this afternoon. The teams are getting into shape for the opening of the league.

In a glove contest at Dublin, Bill Squirta of Australia knocked out Jim Roche, the former Irish champion, in the fourth round. The purse was \$1,375, and there was a side bet of \$1,000.

Casau, the French wrestler, who has been touted as a top-notch since his victory at Montreal, will probably wrestle Frank Gotch, the world's champion, in Kansas City, for a purse of \$4,000.

St. Catharines has challenged for the Minto lacrosse cup, but as all the Montreal Shamrocks' Saturdays are taken up till September, it looks a late post-season-series or a mid-day week session.

A. F. Wilding, of New Zealand, who with N. E. Brooks, of Australia, won the Davis cup at Wimbledon last year has decided to come to America to compete in the lawn tennis championship contests.

Setting at the Toronto Woodbine spring meeting will be conducted on precisely the same lines as last fall, except that the layers will move about without fear of molestation. No attempt will be made to pay off at stationary stalls.

Boston Globe; Bostonians have seldom seen a faster game. It is as usual a full innings and change sides in less than four minutes, but the seventh was played in that time, each batter hitting the first or second ball pitched.

Crosses, 2,021, the fastest trotting stallion in the world, was sold to a syndicate of Russians, who intend using the great speedster for breeding purposes. Negotiations for the sale have been under way for three years, as the price was the stumbling block, but the Russians finally came up with the \$25,000 required by M. V. Savage, of Minneapolis.

Another attempt will be made by four runners on May 11th, to make the forty-seven mile run from Hamilton to Toronto, in an effort to break the record of 7 hours and 29 minutes, set by Claude Pearre, on January 23rd last. The entries are Sandy Bigley of the H.C.B.C.; Nelson Boylen, West End Y.M.C.A.; W. J. Melody of Hamilton; Frank Murphy, I.C.A.; and the four will start together and will be accompanied by the trustees of the Mulgreen trophy.

GREAT DAMAGE ALONG RIVER

Property Loss on the St. Lawrence is Heavy.

The damage through high water to the Canadian Provinces is not nearly so serious as on the American side. This is due to the fact that the Canadian islands are largely in a state of nature and the damage will chiefly be a loss of soil. The wharves along the river are under water, and they and the houses have been damaged or broken up. Many of the famous islands in the Alexandria Bay region are under water, notably G. T. Rafferty's, white C. M. Englis', at Chippewa Bay, is in a similar condition. Many of the most luxurious places on the river stand upon "marsh ground," held by retaining walls of masonry, built upon low-lying rock ledges, and the high water has dealt a heavy blow to these. The earth quickly became loosened and in a single day many gardens and grassy slopes had been entirely built at heavy cost were engulfed and wiped out.

One result of the unusual stage of the water this spring will be that when the river goes down again so that the people may begin to see things higher than ever before so that there will be little likelihood of a repetition of this year's disastrous experience.

Because the employers refuse to grant them an eight-hour day, the bricklayers and masons of Halifax are on strike.

WOULD NOT BUY IT

THE COAL SOLD CHEAPLY IN BOSTON.

Is Coal That the Steel Company Refused to Accept—The Boston Gas Company Can Use It—This is the Explanation.

Montreal, May 2.—Alexander Dick, general sales agent of the Dominion Coal company, was in Montreal, to-day, and was seen regarding the dispute in connection with the coal company's Boston contract.

"What have you to say about Mr. Plummer's statement that the coal company is selling coal in Boston at a lower price than that paid by the steel company?"

"Mr. Plummer," said Mr. Dick, "apparently does not understand the contract with the New England gas company. The coal supplied by the gas company is coal that the steel company absolutely refuses to accept. It is gas slack, which the steel company officials say they cannot use. It is, therefore, most unfair to criticize the coal company for marketing in Boston coal which the steel company would not buy."

WOLFE ISLAND NEWS.

The High Water Has Closed the Canal Traffic.

Wolfe Island, May 2.—Mrs. Merritt Daley, of over eighty years, passed peacefully away on Friday morning at the foot of the island. She leaves an aged husband to mourn her loss. Alvin is having an up-to-date launch built. H. Halday has purchased a fine launch for his own use. The high water has closed the navigation in the canal for the launch owners, as it is impossible to pass under the bridge. Frank Fitzgerald of Cape Vincent, spent a few days on the island last week.

OTTAWA RIVER HIGH

Anniversary of Cut Knife Hill Battle.

Ottawa, April 2.—This is the twenty-third anniversary of the battle of Cut Knife Hill. The monument to the heroes of this engagement has been decorated with wreaths. The surviving veterans waited on their commander, General Otter, and the event was recalled, among memories of the Riel rebellion.

In the Gazette, to-day, appointments are announced of Donald McKay as harbor master at Godrich; W. J. Roche, as assistant inspector of gas at Ottawa; George Watt as measurer of shipping, Chatham; D. C. McKenzie, as harbor master of Big Harbor, C.B.; Mr. Dennis, as wharfinger at Amagans, P.E.I.; L. P. Faris as commissioner under the terminal code at Whites Coves, N.B., and also a commissioner of the police there.

The Ottawa river is the highest in years. At the foot of the locks where measurements are taken every day, the river is twenty feet six inches deep, having risen ten inches since yesterday noon. The highest water mark for the year is generally reached about May 25th, and the boatmen expect that the river will go much higher. In 1905 at this point the measurement at the foot of the locks was six inches, eight inches, while the highest point that year, seventeen feet eight inches was reached on May 23rd. On this date in 1906, there was fourteen feet three inches, and on May 18th, when the night mark was reached, it was eighteen feet. Last year the measurement was nineteen feet ten inches, and on May 25th, which was the highest, and fourteen feet on May 2nd, 1907.

CHILD RECEIVED SHOCK

From Electric Car—It is Dying in Hotel Dieu.

Charles Layzew, who lives on Montreal street, near the outer depot, called at the Whig office this morning to make a complaint regarding alleged improperly protected electrical apparatus on a street car. He says that when the car stops at the junction children play around it, and his four-year-old son last Saturday afternoon received a severe shock by touching something under the car on the right side. The youngster was knocked down by the shock it received. A few days later it was taken ill, and he now lies dying in the Hotel Dieu of spinal meningitis. Mr. Layzew blames the electric shock for causing the trouble. Dr. Hanley is the physician, and when spoken to this afternoon he stated that he didn't think the electric shock was responsible. Mr. Layzew claims that the street railway company should protect its electrical apparatus on the cars so that children could not receive injury.

Cure Not Proved.

Louisville, Ky., June 1.—It is not every one who proves the ineffectiveness of insomnia cures after seven years of age.

The father of the lad, who was about seven years old, was a physician and when the boy was a year old, he was getting to sleep was ready with advice.

"I'll tell you something that will soon put you to sleep," he said, "you begin and count slowly up to 100 and then another hundred, and so on, and before you know it you'll be sleeping. Try it to-night when you go to bed."

Everything remained quiet that night until the father went to retire. As he passed the boy's bed a little voice piped:

"Yes, my boy."

"What comes after trillions?"

But the wretched youngster's query was not answered; his father had vanished into his own bedroom.

Often True.

"The late Edmund Clarence Stedman, the banker poet," said a magazine editor, "was really a better critic than poet. He had a high opinion of the critic's functions. Attacks on the value of criticism always angered him. He used to tell about a typical attack of his kind. He heard it at a supper after the theatre. It came from an unsuccessful actor.

"Mr. Stedman was replying to the least, 'Our American Critics.' He began with the query, uttered in a ringing voice:

"What is a critic?"

"The unsuccessful actor in the ensuing pause answered from the bottom of the table:

"A man who doesn't know a good thing when he sees it."

Two Cures For Sleeplessness.

For many years Lord Rosebery has been unable to sleep. After leaving the house at midnight Lord Rosebery would often instruct his coachman to drive him about the streets for an hour or two in a closed carriage, that being the only way in which he could sleep. In the wish of the measure, however, his lordship claims to have discovered an effective cure, and when staying at Dalmeny, Lord Rosebery always sleeps at Barnobole, a house 200 yards away. This building is on the edge of the Firth of Forth, and the waves lap the sides of the tower. At high tide the spray is flung against the windows of this room.

Transparent.

Philadelphia Public Ledger. A fine robust soldier, an Irishman, after serving Uncle Sam for some time, became generally reduced in weight, owing to exposure and exertions, until he was so weak he could hardly stand. Consequently he got leave of absence to go home and recuperate.

He arrived at his home station looking very much out of shape. Just as he stepped off the train one of his old friends rushed up to him and said: "Well, well, Pat, I am glad to see you're back from the front."

"Boggers, I know I was getting thin, but I never thought you could see that much," said Pat.

The mica was discovered in his house and a further search revealed \$100 worth of clothing owned by J. Cassman and over \$100 worth of jewelry, the property of H. R. Conter. Trousdale was foreman of the mica works owned by A. G. Hardy. He always bore a good reputation, travelled in the best company, and his arrest has consequently caused a mild sensation.
